Why CANADA MUST BORROW \$600,000,000

A Statement by the Minister of Finance

In money alone, this war is costing Canada in round figures, \$4,000,000 a day. That is three and one-quarter times the daily cost of the last year of the last war. This conflict costs so much more because it is a battle of giant, swift machines . . . as well as of men. And to build other than the very best machines would be futile. They must be worthy of our men.

Canada dare not . . . and will not . . . sacrifice men for lack in quality or quantity of fighting machines. Hence we must produce them on a scale hitherto undreamed of.

To do this, Canada needs now to borrow from her citizens at least \$600,000,000 in addition to the revenue raised by taxes. To obtain this money Canada will on June 2nd offer Victory Bonds.

Fortunately, Canadians have the money to buy these Victory Bonds. This is shown by a greatly expanded

national income and by record savings deposits.

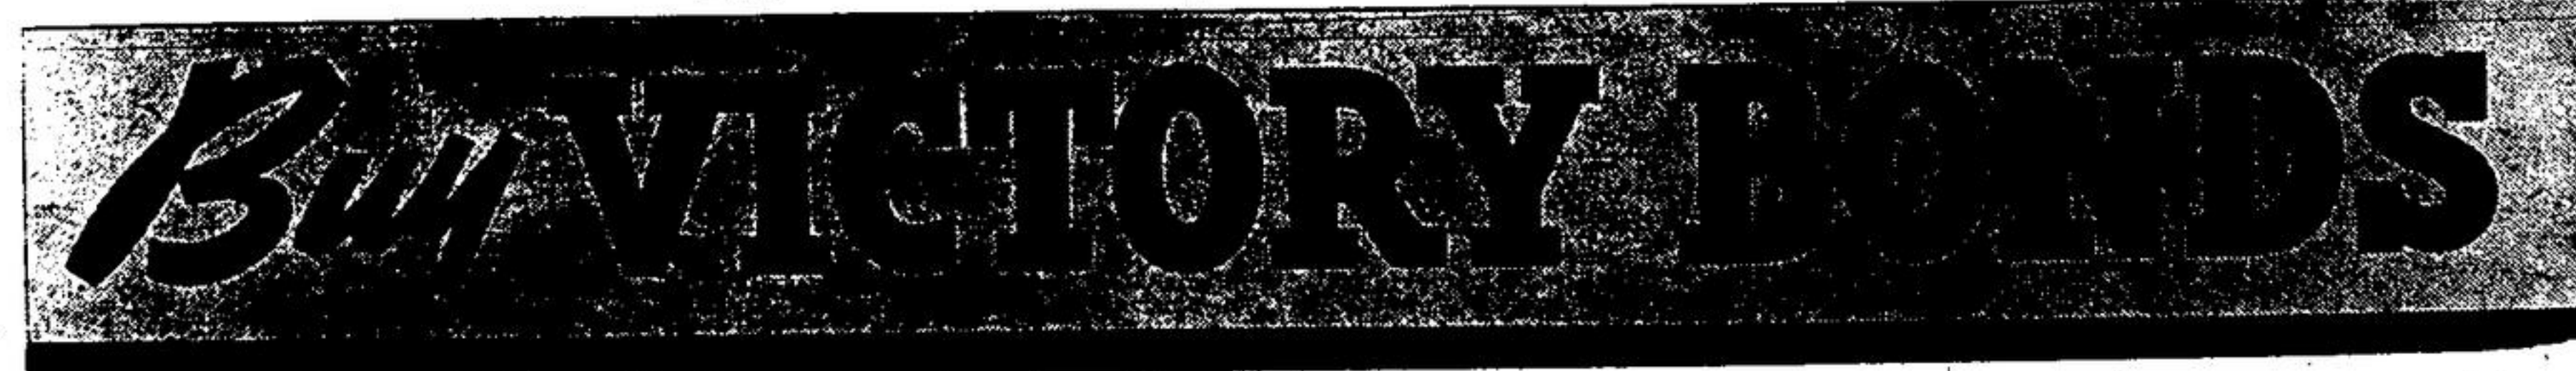

If every person who has savings or who can make payments out of wages or income will invest in Victory Bonds, the Loan will be quickly subscribed. But the wholehearted support of every citizen is necessary.

What Canadians have done before, Canadians can and will do again. Our population was less than nine millions in 1918 and 1919. Yet in November, 1918, our people invested \$616,000,000 in Victory Bonds. Eleven months later, in October, 1919, they invested \$572,000,000. The total subscribed for Victory Bonds in those two loans was \$1,188,000,000. This year, with our population increased to more than twelve millions, the nation that did it before can do it again—and in greater measure.

The terms of the Loan will be announced May 31st. Get ready to buy every Bond that you can.

Help finish the job!

Helen Meredith and Mr. Arthur Gamble spent Sunday with the Noble's at Cheltenham.

Mrs. Leslie Campbell and children moved to Georgetown last week.

A number of the local ladies quilled a large quilt for the Salvation Army at Mrs. Wright's on Tuesday afternoon. At the same time a carton containing sixty-four articles, including dresses and coats was packed ready for shipment to the same organization.

Mr. and Mrs. J. N. Newton opened their home on Saturday afternoon for a congregational picnic which is likely to be the last social time with their minister and his wife, Rev. and Mrs.

D. D. Davidson, before their departure for Smith's Falls in June. During the afternoon the Sabbath school presented Rev. Davidson with a leather brief case in appreciation of the great interest he took in that organization which will always be remembered by its members. The ladies in a small way expressed their feelings of good will to Mrs. Davidson by presenting her with a vase of yellow tulips from which hung several dollar bills. Although these gifts were not large or expensive, we hope that they will recall some happy associations in Limehouse congregation where they will be welcomed any time they are free to come again. The tears on many faces showed it is with regret they are parting with their pastor, but wish him

good luck and God's blessing in his new charge.

Word has recently been received from Major J. R. G. Sutherland, who is still at Imperial Staff College, in Sussex, Eng., and from Sapper Sam Gishby, also in England. Both are reported well.

BRITAIN'S CAUSE

"In the beginning the scales seemed hopelessly against them. In the matter of machines and weapons, the scales undoubtedly were, and still are, weighted against them; but into the side of balance holding their scanty equipment they flung the weight of British manhood, and it turned out to be heavier than thousands of tons of metal.
