Your "Sound Effects"

Harold Sykes is a gentle, unobtrusive young man who can make all the noise he wants to without fear of being reported to the police. He is in charge of Sound Effects at the CBC studios in Toronto, and, as such, must possess some of the qualities of a science professor, a ship's carpenter, and the late Mr. Belasco.

He is familiar with hundreds of records marked: Gallops, Hurries, Mysterioso, Passionate, Agitato, Fanfare. He has an intimate working knowledge of the technical mysteries of radio. He searches through a never ending list of shops, museums and auction rooms for a bewildering array of relics. He loves everything from a ship's telegraph to a George the Third Snuff Box and he presides over that hybrid laboratory work-shop in which new sounds are born to heighten drama on the air.

The first radio sound effect in America was broadcast one evening in Schenectady, with two pieces of two-by-four being slapped together to simulate a door closing. Today, the Sound Effects department is an integral part in every broadcasting organization.

LOVING WIFE HELPS HUSBAND ON THE SLY

Long-Standing Headaches Relieved

He could not understand why the headaches he had been subject to were suddenly relieved. His wife told him, and he at once sat down and wrote the following letter:—

"I am 62 years of age, and ever since I was a boy of ten years, I was subject to very bad headaches. But two years ago the headaches eased up—for what reason I did not know. I was surprised when one day my wife told me I had been using Kruschen Salts in my coffee for over two years. I am still using them, as I know of nothing finer."—J. T.

Headaches can often be traced to a disordered stomach, and to the unsuspected retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you remove the cause of many aches and pains. And that is just how Kruschen Salts brings pleasant relief. Kruschen helps Nature to cleanse your body completely of all clogging waste matter.

ner, are already fonder of squeaks, clanks, echoes and shots than they are of these square meals a day.

"IN OUR MAIL BAG"

To the Citizens of Halton County:

Within the next few days you will be approached by a canvasser for the Victory Loan and I, personally, appeal to you all to do your utmost and subscribe to the very limit of your ability. There has never been a time in our national life in which the help of those of us (who are not privileged to serve with the armed forces) is so urgently needed and of such vital necessity.

We must, all of us, make up our minds to deny ourselves many of the comforts and privileges to which we have become accustomed in order that we may be able to assist financially. Many of us have been lulled into a false sense of security and persuaded to believe that it is not necessary to bestir ourselves unduly; and that we need only exert a limited amount of effort in the struggle of the survival of all we believe worth while.

The past few days may have brought home to us a realization of the price that others of our race are paying in order that we may survive. The tragic loss of H. M. S. Hood has been a staggering blow, but what about the personnel that went down with their ship? The families of these men have already suffered terribly in the destruction of their homes and worldly possessions in Portsmouth and Plymouth where most of them resided; and now their men have given their lives as well. Those of us who have relations and friends serving with the armed forces will realize the anxiety and strain which these brave people have endured—and now the worst has befallen them. We must not fall them. There is no adequate compensation that we can offer them—only the assurance of our financial support in order that the sacrifices they have made may not be in vain.

We are British and proud of it. Let us be worthy of our heritage and demonstrate to those who so badly need our support and sympathy that we will not fall them in their hour of need; but will stand behind them to the extent of everything we have. If we should fail in this, we not only prove ourselves unworthy of our great traditions; but face the gravest risk

of the loss of all we have, together with our liberty and our lives.

A large percentage of the amount we are asked to lend will be used to help the Mother Country in continuing the purchase here of the tools required "TO FINISH THE JOB," and I am authorized to tell you that the balance of the money will be used essentially for Canada's War Effort—and for no other purpose.

There can be no thought of failure. Our sailors, our soldiers, and our air men are offering their lives. We are only asked to invest our money in the best security in the Dominion of Canada, in order to insure against the loss of everything we have. It is so easy to do—TO LEND NOT TO GIVE.

MAJOR F. FULLERTON,
Chairman,
County of Halton,
Victory Loan Committee.

The Georgetown Herald,
Georgetown, Ontario,
Gentlemen:

Your letter of May 21st requesting particulars on the marriage of our daughter has been received.

As far as we know, our daughter is not, at the present time, contemplating marriage. As a matter of fact, she is only five months old.

Apparently you have some other price in mind.

Yours truly,
W. A. Price.

(Above is the reply to a letter sent to Mrs. W. A. P. Price, whom we mistakenly thought was the mother of Miss Peggy Price, whose marriage took place two weeks ago to Sgt.-Obs. D. P. Crichon. Our apologies to Mrs. Price for the error, and our thanks for giving us a hearty laugh.—Ed.)
