**PULP AND PAPER FOR FREEDOM**

**You Have a Right to be Proud!**

If you work in the pulp and paper industry these days, you have a right to be proud. Your industry is doing a good job for Canada and for freedom.

First, many of your industry's products are directly used for war needs — pulps for explosives, wrappings and containers for munitions and food, boards for army buildings, paper to do the Nation's business, newsprint to sustain a free press. You are keeping this supply flowing without a break: here in Canada, to the United States, across the seas.

Second, the products your industry is selling in the United States and other countries are

the largest single industrial source of the money Canada must have to pay for munitions. Pulp and paper exports last year gave Canada nearly 250 million dollars of vital foreign exchange. Every export shipment that leaves your mill is a body blow to Nazi slavery.

Whether you work in the woods, or in a mill or in an office, you are part of the war job your industry is doing. You can take pride in the job. Keep it rolling for freedom.
