—Mrs. C. S. Stacey brought a cucumber resembling the letter V into the office on Monday. It is on display in the window. The next day, Mr. J. R. Williams brought in two tomatoes, similarly shaped like V's, and they also may be seen in the window.

—The various local units of the Red Cross, who are making quilts, are short of material. Will anyone who has pieces of new material suitable for quilt patches, please leave them in the Red Cross rooms at any time. Sewing on the new quota of children's dresses and pyjamas will be ready next week.

—Mr. J. R. Williams, district mail courier, reports seeing a white starling in the vicinity of Norval Station one day last week. While we hear of the occasional white robin, this is the first white starling we have been told of, and people in the district will be on the look-out to catch a glimpse of the unusual bird.

—The Georgetown division, together with members and officers of Toronto division of the St. John Ambulance Brigade, will attend divine service at St. George's Church of England, on Sunday, September 14th, at 11 a.m. The division will leave the Legion Hall at 10.40 a.m. and return there after the service, when lunch will be served to the visiting brigade members.

—There has been much speculation on the bouquet in the Herald window, and for those who were mystified as to what it was, we can say that it is cranberries. Mr. George Herrington, who recently returned from the cranberry plantation with which he is associated at Sturgeon Falls, brought it in to us. The Northland Cranberry Co., Ltd., which operates the farm is the only commercial cranberry outfit in Ontario at present. Mr. Herrington reports that cranberries need a certain type of soil to grow in, and when this is found, they require little cultivation.
