"IN OUR MAB. BAG"

To the Editors of Herald:

Parliament re-assembles this week. During the past few weeks an organized effort has been made to foment a National Government on the people against their wishes so decisively expressed at the polls. The reason given is that we should have conscription for Overseas Service. I fear that the reason behind this ostensibly patriotic drive is quite a simple one.

Under National or Union Government in the Great War wealth escaped taxation and profits made out of the war were enormous. This time the profit element has been removed and wealth is being heavily taxed. We are talking in terms of nearly one half of the normal profits of industry and as to excess profits out of every \$1000 we are taking \$500 in taxation. As to private income the same thing applies. Where the income is over \$200,000 we take over \$400,000 in taxes. Where the income is \$100,000 we take half of it in taxes. Most wealthy people are patriotic enough to pay cheerfully, but some don't like it and so a group of Toronto millionaires are sponsoring conscription. Obviously they would get nowhere if they had the facts and said they wanted a Union Government in order to escape taxation and so conscription is the cry.

This country is making a magnificent war effort many times in excess of the effort of the last war. In our armed forces on land, on sea and in the air we already have the equivalent of nine divisions in the front line, compared with our maximum of four divisions in the front line in the Great War. Our industrial production in part daily and the like is enormous. The total cost to Canada of the four years of the Great War including the cost of demobilization was not under \$1200 million. In the one year of this war Canada will expend direct and indirect will exceed \$200 million, one and one half times the total cost to Canada of the Great War. This time Canada is financing nothing abroad. It is all being financed in Canada and a large percentage of the cost of the war is being paid now by taxation. The cost of the war should not be placed on the level of slavery in payment for a war debt accumulated through excess profits and through taxation. It will be very hard to receive letters and suggestions from my constituents as to how we can improve Canadian war effort.

HUGHES CLEAVER

NEW WEAPONS FOR CANADIAN SOLDIERS

Canada's newest and lightest weapons are shown at right in the hands of a Canadian soldier. The new sub-machine gun is an all-metal gun used in a similar manner to the American Thompson sub-machine gun, weighs only seven pounds and is designed specially for parachute troops.

Small Arms Limited, a Crown company, is now looking up for the production of this "Tommy gun" and it is expected that by mid-summer monthly output will reach the four figure mark. The same company turns out the Lee-Enfield rifle and bayonet held at the attack position by soldier at left. The bayonet is the new type adopted by the Canadian army. Much heavier and stiffer than the 1916 version it is easier to handle and every bit as efficient. It is triangular in shape.

Judge in Ontario was present to judge Dairy Cattle, and that the exhibit was good and the animals in excellent condition.

John Bird, remarked that it is becoming increasingly difficult to get a good herd of show cattle in the Beef Case in this part of the country, and was in favour of encouraging the showing of weaners and baby beef in order to make a better show.

Everybody was satisfied with the showing in the sheep and hog classes, said Spencer Wilson, and no suggestion could be offered for improvement here.

Garfield McOthrey gave the report on Poultry, which was good this year, but he pointed out that the public had not been given an opportunity of seeing the birds after the judging. The list is out-of-date, and needs revising before next year's fair.

Exhibits in vegetables and grain were down last year, reported John Bird, and this was possibly due to the earlier fair date, combined with a labour shortage at thrashing time.

A few judges in Domestic Science did a good job, was the opinion of T. J. Haverstick, but exhibits were down in the group.

O. W. McLintock reported a small, but excellent exhibit in ladies' work, and was pleased to see more new work appearing, which had been shown year after year. The suggestion was made here by a member that the prize list for ladies work be put out in the spring, to enable exhibitors to help their people prepare exhibits.

The President and Secretary were named delegates to the annual convention in Toronto next month, on a motion of Craig Reid and O. W. McLintock.

Following this the election of directors took place, with the following results:

District 1—James Fisher and T. J. Haverstick.
District 2—Spencer Wilson and A. N. Robinson.
District 3—John Bird and Herb Cleave.
District 4—Lorne Mullin and Dan Collins.
District 5—Craig Reid and Harding Price.
District 6—Geor Larch and W. J. Alexander.

Treasurer—O. L. McOthrey, O. W. McLintock, W. C. Cunningham, T. L. Lewis, W. C. Anthony and George H. Lewis.

J. H. Bingham and J. D. Godfrey were re-elected auditors for 1942.

A meeting of the Board of Directors was held after the public meeting, and the following executive was chosen to meet the directors of the Society during 1942:

Hughes Cleaver, M.P. — Honorary President.
L. L. Peck—Honorary 1st vice-president.
Herb Cleave—President.
Spencer Wilson—1st Vice-president.
Geor Larch—2nd Vice-president.
Herb Cleave—Treasurer.
Frank Peck—Secretary.

For goodness sake: Kiss yer cutie so we all can go to sleep.

Now kiss me Joe; before you go Oh, darling dear, I love you so; He said now, it's time to blow, She said darling no no no, So'd sign and wipe her eye He said for her nice things he'd buy, And she swore she'd love no other guy First she'd sign and then reply.

THE BARD OF COLLEGE VIEW

Our readers will recall some of the entertaining poems which appeared in the Herald several months ago, written by James Williams, whom a reader has styled "The Bard of College View." In answer to many requests, the entertaining poet has written a couple more songs, and number one is reprinted below:

KISS YER CUTIE

Joey would call on his cutie
And he was in love was this jay.
He told her she was a beauty
When married he'd give her his pay
Though they were tired and yawning
He said: "Think I'll hit the hay."
Till 3 a.m. in the morning
You'd hear this maiden say:

Kiss yer cutie, kiss yer cutie
Kiss yer cutie, do,
So that I can go to sleep and dream
of you;
Then up went all the windows
And their cries would make you weep

SAVE PAPER

WASTE paper is a valuable war material—don't throw it away or burn a scrap of it. Canada needs it—needs it badly—needs it NOW!

Paper wraps up the detonation charges in land mines... holds the charges of parachute cartridges. These are only a few of the direct war uses of waste paper.

Paperboard cartons are the most important shipping containers on this continent. They are made of waste paper. Shells, gas masks, munitions, field telephones, shell casings, food, clothing and other material are shipped to England in these cases. Thousands of them must be made, and made quickly.

This over-increasing demand is causing an acute shortage of waste paper. It's a shortage which you can overcome by saving every scrap of paper and giving it regularly to your Salvage Committee.
