

MORE WOOL IS NEEDED for Canada's War Effort

CO-OPERATE IN ONTARIO'S EFFORT TO PRODUCE MORE WOOL. HELP INCREASE THE SIZE AND NUMBER OF ONTARIO SHEEP FLOCKS

PRODUCING more wool to clothe Canada's fighting forces and her civil population is a vital task which deserves the earnest consideration of every Ontario farmer. A brief study of the wool production of North America and of world conditions occasioned by the war reveals an alarming situation that calls for straight thinking and forthright speaking.

North American Wool Production 1941		North American Wool Consumption 1941	
Canada	19,700,000 lbs.	Canada	109,000,000 lbs.
United States	455,000,000 lbs.	United States	277,000,000 lbs.
Total	474,700,000 lbs.	Total	386,000,000 lbs.
DEFICIT 611,600,000 lbs.			

You can see that with shipping space at a premium and with every merchantman a target for enemy submarines, the situation is indeed critical. More wool must be produced at home and it's up to Ontario farmers to help produce it.

The Ontario Department of Agriculture is working to effect an increase of 25% in this province. To do this, all present flocks must be kept, and in addition, 110,000 ewe lambs from the 1942 crop must be kept on the farm. If every present flock owner kept three ewes from this crop, most of the increase would be obtained. But since many sheep owners cannot accommodate any more animals, the Department is asking Ontario farmers to establish 1,000 new flocks which will absorb all surplus ewe lambs. Your Agricultural Representative will be able to put you in touch with men who have lambs for sale or men who wish to purchase them.

In establishing 1,000 new flocks, it is intended that expansion take place by counties in proportion to the present sheep population. You will see what expansion must be accomplished in your county in the lists below.

THE RAM POLICY

CONSULT YOUR AGRICULTURAL REPRESENTATIVE

For complete information about securing ewes, ewe lambs, or rams, or about any part you can play in helping Canada produce more wool, consult your county Agricultural Representative or W. P. Watson, Live Stock Branch, Dept. of Agriculture, Toronto.
