With the reception of a thunderstorm on Saturday, the weather has been ideal for the farmers since threshing during the past week.

On a 20-mile drive yesterday the writer observed the dust from 11 separators and 2 combines within a radius of about 6 miles.

Farmers will be well advised to watch the pullets around the separator during threshing time. A bad case of grain poisoning occurred on a local farm during the past week, when a flock of 100 laying pullets had access to some wet grain lying on the dump. About a third of them are dead and it will take a long time for the others to recover.
