With the NAVY LEAGUE

LADIES WORK COMMITTEE

You could hardly imagine from well this committee has been established in less than a month. Ditty bags have been given out, wool to being knitted into sailors' comforts and good used woollen materials is being made up into afgana. Much credit is due Mrs. Mendham, convenor of ditty bags, who has given this work her time, talents and home, in order that this branch of the League will be a success.

A meeting was held at her home last Thursday evening and the amount of work accomplished was most satisfactory. It was decided to hold the next meeeting on the first Thursday in January, which will be the 7th.

Prom the Commander of a RON. ship comes an acknowledgment for woollens and comforts, as follows: "To the Navy League-We do express thanks for the bundles of warm clothing-one bundle for each man. During the bitter watches on the Atlantic our sailors will be thinking of you in thankful memory." MAGAZINES

The Ontario Division recently had brought to their attention a case where, in a small squadron of Royal Navy away on a straight five weeks duty, there was not one vessel which had a magazine or book aboard for the crews to read in their short spells of leisure. Therefore an etxra campaign is being launched for half a million magazines and books to cent to England for the use of men of the Royal Navy and the English Merchant Marine. This appeal is in addition to a continuous appeal for literature for men of the Royal Canadian Navy, the Canadian Merchant Navy and men of Allied Navies who Presentations to touch our Canadian ports.

THE WEATHER

This record-breaking cold snap was no local affair, for it covered the whole Lake Eric Districts of 12 below ranging to 48 below in the Georgian Bay disground and protecting vegetation, and there was no wind to make it more penetrating.

Pollowing are the local records for

RED CROSS NEWS

Therefore, Christian men, be sure, Wealth and runk possessing, Ye who now will bless the poor, thall yourselves find blessing.

-Good King Wenceslas. The RED CROSS is one organization that plays Santa Claus, as it were, to millions of people the year round. Here are just some of the many things that it has done and will be doing:

BLOOD DONORS: 6,000 donations of blood per week during the year 1848 which is to be doubled for 1943. This will mean that it will be necessary to receive the voluntary contributions of about one in every 1000 of our normal population each week. Thirty-five Red Cross volunteer blood clinics are now in operation, or authorized, across the Dominion. These are in addition to mobile units which are now being developed to tap donation sources in industry and other piaces unable otherwise to be reached.

PRIBONERS-OF-WAR PARCELS: Nearly two million parcels have already gone over from Canada and the Oanadian Red Cross has undertaken shipment of 70,000 food parcels each week for British Empire prisoners in Europe. "It was impossible to describe my emotion on opening this box" a former prisoner says of Canadian Red Cross food parcels.

WOMEN'S WORK: Since the outbreak of war, 17 million articles have been shipped overseas from Canada. These articles include civilian clothing, bedding, hospital supplies and woollen comforts for men and women in the armed forces. Beventeen million articles—a most impressive figure, one that bespeaks an unbounding determination to do a job that much be done, and one which adds up to a high notion of what women can really do when they believe in what they are
