TIP TOP TAILORS

MR. CHAS. A. RAFLEMAN

will be in our store on

Saturday, January 9th

A special showing of Spring woollens and styles in January? Strange, but true—and here is the reason. Within a month or two Tip Top Tailors' plant will be busier than ever on uniform orders for the Government. We know our good friends will realize the vital importance of this work and will cheerfully co-operate with us. Right now, therefore, is the time to order your new suit or coat from your selection of 1943 British fabrics. The special representative will be glad to help you select—to advise you—and take your measurements personally. It's a great opportunity, men, so make a note of the date now.

RED CROSS NEWS

BLESSINGS OF PEACE

There came to mind the words of the great Pole, Kotzebue, which might be the thought of any Canadian today: "Who eate his daily bread in peace, enjoys the blessings of his God!"

IN OUR WORK-ROOMS

We all want peace. We all hope for peace. We all pray for peace. But before that comes we are told that there must be more fighting. The fight must be carried to the enemy. We must give up the defensive for the offensive. This will mean casualities—casualties. Just as the Red Cross was ready at Dieppe she will be ready when the emergency comes. She is asking us all to help her.

Our Hospital Committee needs more recruits to get its quotas out on time. And especially does our Sewing Committee need workers. If you can sew at all, will you please call Mrs. Bell at 386, and ask her how you can help.

Prisoner-of-War Parcels: What do these parcels contain? WELLS—16 oz. Whole Milk Powder, 1 oz. butter, 4 oz. Cheese, 12 oz. Corned Beef, 10 oz. Pork Luncheon Meat, 8 oz. Salmon, 4 oz. Sardines or Hippers, 8 oz. Dried Apples, 8 oz. Dried Prunes, 8 oz. sugar, 16 oz. Jam, 16 oz. PBot Macuta, 8 oz. Eating Chocolate, 1 oz. salt and Pepper, 4 oz. Tea and 2 oz. soap, a total of 161 ounces of food for one week. A parcel provides 2,070 calories per day for a seven-day period. No tobacco is included in this parcel because it is sent in bulk and is distributed in the camps at the rate of fifty cigarettes per man per week. The Red Cross has positive assurance that this food parcel, together with the ration coupons issued by the German authorities, are ample to keep our soldiers in perfect health and high morale. In case of sickness, invalid parcels are sent from supplies held in Geneva and provided by the British Red Cross. Vitamin tablets are also sent in bulk and distributed to all Canadian prisoners of war. These are sent from Canada.

A tartan silk apron and a sprig of white heather—sent by a woman in Scotland in appreciation of a parcel forwarded to her son in a German prison camp through the Canadian Red Cross parcel distribution—is a cherished possession of Mrs. H. P. Plumptre, honorary director of the Red Cross Inquiry Bureau Ottawa.

Mrs. Plumptre, in speaking of her work, says: "And let me say this, that any one who doubts whether the prisoners get Canadian Red Cross food parcels would be quickly convinced if they could come into our bureau and see for themselves the 400,000 acknowledgment cards, each representing the receipt of a Canadian Red Cross food parcel by a British prisoner-of-war—except a comparatively few which come from prisoners of the Allied nations.

Supporting a heavy woolly beard, Warrant Officer Vernon B. Schneider, 5 Fairleigh Crs., Toronto, who recently returned from five months' internment in Algeria, relates: "It was pretty terrible in the camp. The authorities didn't care much how we fared. We got lentil soup twice a day and black bread once. Had it not been for the parcels we received from the Canadian Red Cross we would have been in bad shape. There were about a dozen Canadians in the camp and the Red Cross parcels from home were certainly appreciated. They undoubtedly saved us from starving."

With the NAVY LEAGUE

"I want you to know that the Navy will never let you down. I want you to know that ours is to-day a hard-fighting and strong Navy." So spoke Vice-Admiral P. W. Norris in his Christmas message to the people of Canada.

We hope if you are in the city (Toronto) you will plan to visit the Canadian Naval War Exhibition in Stimpson's special exhibition showroom, 29-39 Richmond St. West, every day from 10 a.m. until 10 p.m. You will see the magnificent models of the ships in which OUR NAVY fight; you will see the guns with which OUR NAVY fight and you will see actual torpedoes. Price of admission is: Adults 25c, children 10c (No tax) and the entire proceeds will go to the NAVY LEAGUE OF CANADA.

SUBMARINES BEWARE!
A scourge to U-boats are our Canadian convoys as they carry a liberal supply of depth charges. Government of these convoys helped General Eisenhower's troops to disembark in North Africa. Truly our Canadian Navy is making good reading for our future history text-books.

NAVY'S NEW EMERGENCY RATION
We Georgetownites like to feel we have a small claim at least on Charlie Best, who about twenty years back, spent several weeks each summer with us at Cedar Crest. Baseball fans especially remember him behind the plate where he played no mean catcher's mitt. He is in a bigger game now and is known as Surg.-Lt.-Cdr. Charles Best, of Toronto—discoverer of insulin and now head of the Naval Medical Research unit.

Under his direction, Lieut. James Campbell, Toronto biochemist, carried out laboratory and experimental work on the emergency rations. He made 500 experiments to discover a water that wouldn't rust inside of cans, also produced a chocolate that won't melt at 113 degrees of heat.

A food container to go inside the kit is a little bigger than a sardine can and holds 12 chocolate tablets, each 70 per cent. whole milk; two bars of chocolate, enough to last a man two days. "Eat slowly" is the only direction given on the container. This is necessary because of the high caloric content of the food.

What a God-send these discoveries will be to our shipwrecked sailors huddled on lifeboats! The irony of fate—they who are bringing food to

others often themselves suffer the pangs of hunger. May success attend the efforts of Surg.-Lt.-Cdr. Charles Best and the personnel under his direction.

WOMEN'S WORK - SMITTEE
Remember it is this Thursday night, January 7th, that we resume our work again at the home of Mrs. Mendham. Be sure and bring your thimbles and favorite needle with you. Work also be glad to have any wools, pieces you might have suitable for making up into warm quilts or afghanas. There are several woolen articles in the making in the home and more will be needed to meet the ever-increasing demands of the Navy League.

FROM HEADQUARTERS
Mrs. R. O. Matthews, President Women's Committee Ontario Division wishes to thank all those who helped the Navy League reach its objectives both in ditty bags and woollens in 1942. According to announcements of the Hon. Angus L. Macdonald, Minister for Defense, Naval Affairs Branch, more ships are being built for the Royal Canadian Navy and more ships for the Canadian Merchant Navy. This means more men enlisted and more men to be cared for in the matter of ditty bags and woollens.

This means a still greater responsibility for us. If we are proud of what our sailors are doing in this great struggle and appreciate what they are doing for us then let the Navy League thank the sailors on our behalf but we must give the Navy League something to do that with Mrs. A. Weik, our treasurer, is ready ready to us all—right on the Main Street—so drop in and show your appreciation.
