### WHY A YEAR'S SALVAGE HAS MEANT

Just 12 months ago the Salvage verse was written and printed in the Georgetown Herald, in the first six months of the campaign, 427 lbs. of salvage fat was turned in from which was made 250 lbs. High Explosives. In the next six months a total of 859 lbs. of salvage fat was collected, more than double the amount of the first six months. This from a population of about 2,500 we have sent in enough fat to make 750 lbs. of High Explosives. It would be interesting to know how many small towns can boast of a like record. Georgetown Housewives have sure packed a wallop for Hitler.
