Farm Workers Must Return to Farms

Selective Service Officials in Ontario state that a certain proportion of the farm workers who entered industry last winter on temporary permits have made no definite arrangements for returning to farm work.

On April 1st when these temporary permits expired most Selective Service Officials did not have sufficient applications for farm help to absorb these men and consequently some of their permits have been extended till such time as specific applications for experienced help are received from farmers.

Immediately on receipt of these applications, the temporary permits will be cancelled and these men will be required to return to farm work. Selective Service Officials cannot, however, compel them to return to any particular district or any particular farm.

Any farmer badly in need of help should fill in an application form and forward it to the National Service Office in one of the various centres. Copies of the application form may be secured from the Ontario Department of Agriculture in Milton; any of the township or School Section keymen of the Halton Agricultural War Committee; township Reeves and Deputy Reeves, or township Clerks.

While available supplies of farm help at best, are inadequate and no guarantee can be given that all applications can be filled, nevertheless there is an old saying, that "the early bird gets the worm" and consequently those interested would do well to contact one of the above mentioned sources, secure an application form, and submit it to one of the Selective Service Offices at once.

Farm Products Fight for Victory in Factories and Armed Services

How many loaves of bread are there in a cargo ship? How much beef in a lumber? And how much milk in a gun? The answer to these paradoxical questions is "Plenty." More is needed than machines and materials to make the tools of war. More important still is the sweat and toil of the men who produce them. And of vital importance too is the food that builds the energy they require to turn out the ship, the plane, the tank and the gun.

The farmers of Canada, therefore, are taking a direct part in the Dominion's momentous war production drive. In addition to producing foodstuffs for embattled Britain and Russia, they have more than half a million men in uniform to feed—a tremendous responsibility.

The Department of Munitions and Supply which buys food for the troops at the rate of \$60,000,000 a year, also caters to the appetite of some 250,000 war workers. The majority of large government-owned or government-operated war plants which have mushroomed throughout the land since the outbreak of war maintain cafeterias for their employees. At the huge Dominion Arsenal, more than 5,000 workers are provided with a wholesome mid-shift meal for which they pay only 15c. More than 100 other big plants serve hot meals at prices ranging from 15 to 30 cents. Typical meal includes soup, meat, two vegetables, butter and rolls.

ANNOUNCER

Kay Ma. Intosh of Halifax is one of the latest additions to CBC's announce staff. A Maritime by birth and preference, Kay became interested in acting and dramatic production at college, and turned to radio because it appeared as something unusual and different. She has been with the CBC since November, 1942, and is heard on a constantly increasing number of local and network programmes, originating in Halifax.

CHARLES DELAFIELD

Here is CBC's Supervisor of Religious and Institutional Broadcasts, and one who has done much for the promotion of education by radio. When the CBC-CBC School of the Air of the Americas closes its classroom doors this Monday, April 19, it will mark the closing also of Canada's most successful season since the "school" began in 1940. Mr. Delafield, too, is one of those directly responsible for the Canadian originations of "Lands of the Free", heard each week over the NBC Inter-American University of the Air. A series of these programmes portraying the Americas are now being broadcast every Sunday at 4:30 p.m. EDT, from CBC's Montreal studios over a network of NBC stations, and over CBY in Canada.

Ram tanks cost \$20,000, but they can't run without ball-bearings. Your \$100 Victory Bond will buy 500 of them.

The demand of the armed forces in Canada for foodstuffs is also great. The purchasing branch of the Munitions and Supply Department, in 1942, bought 80,000 tons of vegetables, 50,000 tons of meat, 33,000 tons of bread, 7,000 tons of butter, 8,500,000 dozen eggs, 2,000 tons of coffee and tea, and 9,000 tons of evaporated milk.

ACTON

In Acton the objective is \$190,000 and for the section of Esqueping Township adjacent to Acton the objective is \$35,000 for the Fourth Victory Loan.

At a meeting last Thursday evening of Acton Fair directors, plans were made for the 1943 event to be held on September 17th and 18th.

Erin Township raised \$1631.58 in Red Cross Drive.
Mr. M. E. (Daisy) Buchanan is the first Actonian in the W.A.A.C. to go overseas for service in the combat area. She is a daughter of Mr. and Mrs. Andrew Buchanan, Acton, and word received by them a week ago announced her safe arrival somewhere in England.

Following a brief illness Mrs. John Thomas Mack passed away on Friday last at the home of her daughter, Mrs. John Lambert, Frederick Street. She was in her eighty-seventh year.

Friends will be pleased to learn that Mr. Howard Lambert is making satisfactory progress at Guelph General Hospital following a recent operation.

NATIONAL SELECTIVE SERVICE

Men Born From 1902 to 1924 Must Prove Compliance With Mobilization Regulations When Asking Permits to Seek Employment

By Order pursuant to National Selective Service Civilian Regulations, a change is now made in the issue of permits to seek employment.

After April 30, 1943, permits may be refused to any man born from 1902 to 1924, inclusive, who has reached 19, unless he presents satisfactory evidence of compliance with Mobilization Regulations, in one of the following forms:

- (a) A certificate of discharge from His Majesty's Forces during this war; or (b) a rejection slip issued by the Army on application for enlistment; or (c) a certificate of medical examination from the Registrar of a Mobilization Board; or (d) a postponement order certificate from the Registrar of a Mobilization Board; or (e) if born from 1902 to 1916 inclusive, a statutory declaration on form available in employment office, that he is not a "single person" under Mobilization Regulations.

Documents in (a), (b) and (c) above need be presented only the first time a permit is sought after April 30, 1943, unless asked for by a Selective Service Officer. Documents in (e) and (d) above must be presented each time a permit is applied for.

- (1) Male persons applying for permits by mail should forward with their applications the evidence required, except (a) above.
- (2) A Selective Service Officer MAY furnish a permit without first being handed evidence, where the applicant's services are required for immediate employment, or where a permit is asked for by mail, but in these cases the evidence must be presented to the Selective Service Officer later, usually WITHIN THREE DAYS of the issue of the permit.

All men born from 1902 to 1924, who have reached age 19, are urged to co-operate with your Employment and Selective Service Office. Bring your documents with you.

Department of Labour
HUMPHREY MITCHELL, Minister of Labour
A. MACNANARA, Director, National Selective Service

IMPORTANT FACTS ON PULP & PAPER WAR EFFORT

HOW THE PULP & PAPER INDUSTRY HELPS THE WAR LOAN

NO OTHER INDUSTRY COULD FILL THIS NEED

TO MAKE THE PRESENT WAR LOAN A SUCCESS, THE GOVERNMENT WILL MAKE LIBERAL USE OF NEWSPAPERS, MAGAZINES, POSTERS AND DISPLAY CARDS, ALL PRODUCTS OF THE PULP AND PAPER INDUSTRY.

TO PRINT THE ONE BILLION, ONE HUNDRED MILLION DOLLARS WORTH OF BONDS WILL REQUIRE 75,000 POUNDS OF PAPER.

WITHOUT PAPER we could have no war loan... the country could not function... the war effort would bog down. The workers in the pulp and paper industry have an enviable record in supporting previous loans. They can be depended on to do their bit in this one as well.

IN PEACETIME... CANADA'S GREATEST MANUFACTURING INDUSTRY
