Active Service Notes

Pvt. Clarence Kennedy was home for the week end from Niagara-on-the-Lake.

Sgt. Donald Jourdain of Prince George B. C. is home on furlough.

Pt. Sgt. H. Hurley has been transferred from Darlington Seaplane Base to the Base at North Sydney, N. B.

Comrade A. Gibson, President of Post 275, Canadian Legion of Pergus, Ont., paid a friendly call at the Legion here on Monday.

Mrs. Jack Hemphill has received word that her husband, overseas for two years now, is in hospital with a broken foot.

Pte. Harry Shortill who enlisted in the army three months ago, and has been stationed at Orillia during that time, has received his discharge from the forces as medically unfit.

AC Bill Preston, Wireless Electrical Mechanic, paid a surprise visit to his mother, Mrs. Kathleen Preston last week end on his way back to his station at Bourin, Manitoba from Deseronto where he, with three others from Bourin, were picked to take a special course on mechanics.

Peter Heavey, son of Mr. and Mrs. H. R. Heavey, has enlisted in the R.C.A.F. and leaves on Friday to commence his duties. "Pete" has been in Toronto for a number of years, and was employed at the John Inglis plant, prior to going in the air force.

Saturday, June 12th, brings 30th birthday greetings to Cnr. C. E. Stapleton of the Leamie Scouts overseas. This is the second birthday Eddie has celebrated overseas. Cnr. Stapleton enlisted on November 3rd, 1941. He was first stationed in Toronto, then in Kitchener and later posted to Camp Debert, Nova Scotia. He left for overseas in March, 1942.

HUNDREDS OF BOYS FROM SEVEN PROVINCES NEEDED ON CAMPS

Many Camps Will Be Operated to Help Relieve Shortage of Farm Labour. Hundreds of Ontario High School boys are urgently needed for individual placements on Ontario farms which are short of help, and to fill up the camps which will be operated throughout the Province under the auspices of the Ontario Farm Service Force, states Alex McLaren, director of the force, in an appeal to the youth of the Province to volunteer for this important war-time service. Five camps for high school boys, three operated by private farming interests and two under the jurisdiction of the Ontario Department of Agriculture, are already functioning, with a total of approximately 200 boys occupying them and working on farms nearby. These camps are located at Burlington, Leamington, Harrow, Brantford and ... This ... So far, however, ... camps are far from being filled to capacity, and over 400 more boys can be accommodated and are urgently required for essential farm work.

One of the largest of these new camps will be in Essex, and 200 high school boys will be required to fill it up. The requirements of the other camps are as follows: Leamington, 60 boys; Burlington, 20 boys; Holland Marsh, 100 boys; Elmhurst, 50 boys; Harrow, 50 boys. Help for farmers in these areas will be urgently required early in June, and the boys who volunteer will be kept busy until after July 15. Applications for places in these camps are now being received, and should be sent at once to the Ontario Farm Service Force, Parliament Buildings, Toronto.

In addition to the 400 or more boys required for the farm labour camps, which are operated under Y.M.C.A. supervision, hundreds of boys can be placed on individual farms throughout

NOTICE

TAKE NOTICE that after the publication of this Notice in four successive issues, the Municipal Corporation intends to pass a By-law providing for the sale of a portion of Union Street to the Barber Floral Company.

DESCRIPTION OF LAND

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the Town of Georgetown in the County of Halton and Province of Ontario, being composed of a triangular part of Union Street, as said Street is laid out and shown on registered plans numbers 37 and 34 for the said Town, and which said parcel or tract of land and premises may be more particularly described as follows:—COMMENCING at the point where the easterly limit of Union Street is intersected by the southerly limit of King Street; Thence south 75 degrees 5 minutes west one (1) foot; Thence southerly in a straight line one hundred and thirty-two (132) feet more or less to a point on the said easterly limit of Union Street distant one hundred and thirty-two (132) feet measured south easterly along said limit of Union Street from its intersection with the said southerly limit of King Street; Thence North 16 degrees 20 minutes west along the said easterly limit of Union Street one hundred and thirty-two (132) feet to the place of beginning.

Crop Report Says Season Late But Fair Quantity Seeding Done

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches under date of June 3rd:

GENERAL—Owing to the backward season, crops are late throughout the Dominion. In the Prairie Provinces wheat seeding has now been virtually completed and the sowing of coarse grains are well advanced. Germination is satisfactory, but crops are late and warm weather is now required to stimulate development. Early-corn crops show a healthy, even growth. Moisture conditions generally are satisfactory, except in the Peace River District. Slight frosts have occurred at scattered points, but little damage is reported. Sugar beets are progressing favourably, with a slight increase in acreage compared with last year. In the Province of Quebec, seeding of grain is under way and planting of field and root crops is general in most districts. The season is from two to three weeks later than normal. Hay lands and pastures show good growth. Fruit trees are blossoming well and strawberry plants show promise of a good crop. Moisture is ample and warm weather is required to stimulate growth in Ontario, operations on the land have been greatly curtailed by excessive rainfall and cool weather, and the season is from three to four weeks later than normal in some sections, seeding of Spring grains is fairly well advanced, but in other areas the work is just getting under way. The average seeding of Spring cereal grains is expected to be reduced materially and substitute crops of corn, roots and buckwheat will

be planted. Pastures are in good condition. In the Maritime Provinces, the season is from one to three weeks later than normal, but seeding and planting are now well under way except in low-lying areas. In British Columbia, below-average crops of tree fruits are indicated generally. Soft fruits and vegetables are making progress, but the season is backward, owing to lack of sufficient warmth.

PROVINCE OF ONTARIO—Growth of fall wheat has been retarded by cool, wet weather and there is some evidence of winter-kill and damage from excessive moisture. Work on the land is proceeding slowly in most districts and seeding of Spring grains is only about 50 per cent completed. Warm, dry weather is badly needed. In some areas farmers are planning substitute crops of corn, roots and buckwheat on land normally sown to Spring grains. Hay has made good progress and a heavy crop is forecast. Planting of corn and some roots is under way in a few sections. Early potatoes have suffered somewhat from rot. Sowing of sugar beets has not yet commenced; the contracted acreage is approximately 15,000 acres as against 23,000 last year. Orchards and small fruits generally show promise, although peach buds suffered winter damage. Transplanting of tobacco will be general within the next few days, which is about a week later than normal; growth in greenhouses was backward and many plants are below average. Pastures are in good condition and some cattle have been turned out.

If you're a smoker do not strew your ashes across the carpet, furniture and hearth. If late at night avoid all bangs and crashes. And don't spend fifty minutes in the bath. Remember when you wash, don't leave your washing in drooping wreaths that wick dirt and will. For other folk it's most unpleasant smelling barefoot about in puddles you have spilt. If friends come in, keep hours and voices seemly. If you take meals be punctual to the dot. You'll find that it annoys a cook extremely to waste a meal or try to keep it hot.

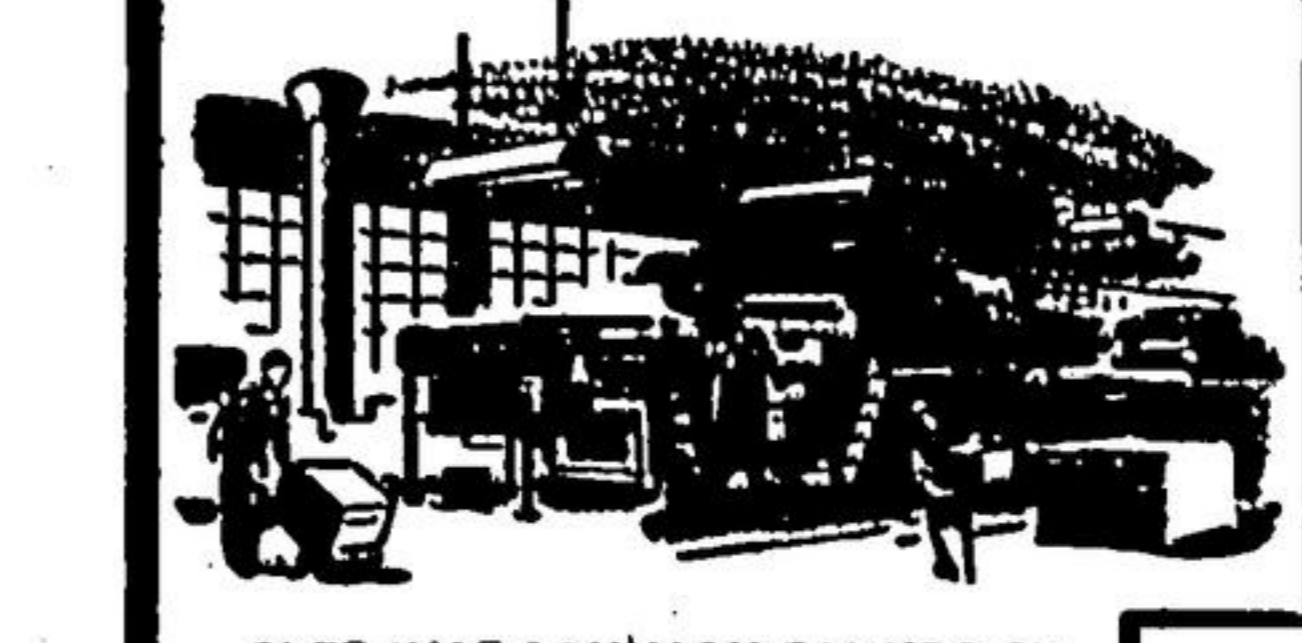

If you're a girl who needs a lot of warning Before you wake—then get a clock that chimes. You can't expect that every single morning Your hostess wants to call you twenty times. We know that it is very trying To leave your home to follow duty's call. Girls from the East and West are dally "Why-ing" They ever left their own home town at all. But if you keep yourself and room in order You need not worry that you're far away From home, for you will be the PERFECT BOARDER. The guest that anyone would like to stay

IMPORTANT FACTS ON PULP & PAPER WAR EFFORT

HOW PULP & PAPER HELPS THE RATIONING OF FOODS

NO OTHER INDUSTRY COULD FILL THIS NEED

RATIONING OF FOODS MEANS FAIR DISTRIBUTION TO ALL. WITHOUT PULP AND PAPER WE COULD HAVE NO RATIONING.

OVER HALF A MILLION POUNDS OF PAPER WERE USED IN PRINTING THE RECENT FOOD RATION BOOKS. 13,000,000 WERE PRODUCED.

FOR GASOLINE RATIONING another 466,000 lbs. of paper were used to produce 3,380,000 books and 10,000,000 application forms. Without paper the fair distribution of goods—the rationing of butter, tea, coffee, sugar and gasoline—would be impossible. This is just another essential use of paper in time of war.
