MASAGAWAYA NERVE BENEFIT OF MOTHER

In failing health for the past three years, but able to be about the home until three weeks before her death, Mrs. Thomas Near passed away on Wednesday, June 23rd, at her home at lot 28, concession 6, in Masagawaya Township. She was in her seventy-seventh year.

Born in Eryn township, Mrs. Near was before marriage, Margaret Ellen Sinclair, a daughter of the late Donald Sinclair and Christina McKee. Following her marriage fifty-eight years ago she went to reside in Masagawaya Township and this has been her home continuously. Her husband predeceased her seven years ago. One daughter, Mary, at home and two sons, Alexander, Reeve of Masagawaya Township, and William M. of Kitchener and three grandchildren, Margaret, Billie and Audrey Near of Kitchener remain to revere the memory of a beloved mother. In their bereavement sympathy of many friends is extended.

Mrs. Near was a member of Knox Presbyterian Church, Acton, and the funeral service at the home on Friday was in charge of their minister, Rev. Forbes Thomson. She took an active interest in the affairs of the commu-

nity in earlier years and not only in the home but in the neighborhood where her kindly helpfulness was often bestowed, will her passing be missed. Pallbearers were Messrs. Clarence Wilson, Duncan Moffat, Victor Watson, Andrew Fulton, Mac McLaughlin and Mansel McEla.—Free Press.

PLANES BUILT AT MALTON FLY OVER THE ATLANTIC

Huge Lancaster bombers built at Malton will shortly roar across the Atlantic in the new Government trans-Atlantic service to be established next month. Many from Georgetown and district work on these planes and they are pleased with the announcement.

The wings of Canadian air service now travelling from Newfoundland to Victoria, will soar over the Atlantic Ocean before another month is done. Minister Howe told the House of Commons last week.

The Minister announced that arrangements of a Canadian Government wartime transatlantic air service, to carry mail to and from the Canadian armed forces in the British Isles and to transport members of the forces. Government officials and technicians engaged in production of war materials.

"The new service is not a commercial or a permanent one," said Mr. Howe.

"It will carry no fare-paying passengers."

Mr. Howe said outside the House that the service would be conducted by Canadian-built Lancaster bombers, the first of which is scheduled to come off the assembly line at Malton, Ont., shortly.

Development of the air-mail service for the forces was forecast last year by Postmaster-General Mulock, following a visit to the United Kingdom. Col. Mulock said pressure on other air services across the ocean for the transport of mail to the forces was heavy, and the Dominion must consider establishing its own service.

MILTON

One of the heaviest thunderstorms of the year visited Milton and District shortly after six o'clock Tuesday night, when the rain fell in torrents, flooding several cellars, and putting two transformers out of commission. There were no electric lights all night. Many citizens had to go to bed in the dark.

Mr. and Mrs. William Claridge celebrated their twenty-fifth wedding anniversary at the home of Mr. and Mrs. Ivan Claridge, Martin St., last Saturday afternoon, when a large number of relatives and friends were present from Toronto, Orangeville, Brampton, Alliston, Georgetown and Hazeltonville.

T. H. Court of Milton, was among 40 Bell Telephone employees in Central and Western Ontario who recently received the Ontario Safety League's award for more than ten years of safe driving.

Miss Agnes Christine (Ales) Alexander, daughter of the late Mr. and Mrs. William Alexander, and Charles Harold Bennett, son of Mrs. Bennett and the late Frederick John Bennett of Ottawa, were married at the home of the bride's cousin, Mr. and Mrs. P. W. Cook, Milton, on Saturday.

ACTON

Mr. R. W. Lowrie received word this week that his son, Mr. Stewart Lowrie is listed among the Canadian civilians in Changi Camp at Singapore. This information came to Mr. Lowrie from the Dept. of External Affairs at Ottawa and the contact was made through the International Red Cross.

The annual awards to the pupils of Acton Public School were made yesterday by the Duke of Devonshire Chapter of the I. O. D. E. The winners were chosen for the effort on a selected piece of patriotic work in the various grades. These subjects used took the form of art, posters, booklets, essays, etc.

E. Hufnagel has enlisted in the R. C. A. F., and is stationed at Manning Pool, Toronto.

Arthur Castle and Leroy Warren both of Toronto, were sentenced to a year in the reformatory in Police Court in Milton yesterday. They were charged with breaking, entering and theft at Acton Creamery a few weeks ago. Both lads are just eighteen years of age.

The "Acton" Bomber will be christened at Malton. Six municipalities across the Dominion will send representatives to the unique ceremony being arranged. New Glasgow's entry won the double award for its class and Dominion top prize.—Free Press.

BRAMPTON YOUTH ARE ACQUITTED

A jury at Milton recently acquitted John Brownridge and Donald Orr, two Brampton youths charged with obstructing officers during an investigation into the death of Pte. H. U. Dupont at Georgetown, Dec. 6. They also were acquitted on a charge of attempting to remove bloodstains from a car.

"There is no evidence to go to the jury in this case," Judge O. W. Morley said. "I ask you to make a finding of not guilty. Jurors are not obliged to accept the evidence of accomplices," he said, when terming the testimony given by Markell and Gardner as that of an accomplice.

John Brownridge was acquitted when the crown offered no evidence on a charge of falling to remain at the scene of an accident. Crown Attorney W. I. Dick asked to have this case deferred until the December sittings as two crown witnesses were unavailable. The judge ruled the case would proceed when F. B. Gardiner stated he was prepared to present the defence. The court proceeded, and the jury brought in a verdict of not guilty when the crown failed to present evidence.

In discharging the two boys, the judge said: "It is only because of the rules of evidence, as far as I can see, that you have been found not guilty. You are both fortunate and I hope it will be a lesson to you. In the first place you young men were out late at night joy riding and that's not helping the war effort. It is up to every citizen to save gasoline and tires and on top of that a soldier was killed in this accident. This would not have happened if you had stayed at home."

Britain continues to save money for the War Effort. Liverpool's Wings for Victory Week reached a total of £16,750,000 (£74,419,875). Its Warship Week figure as £14,000,000 (\$65,921,198.)

CARE OF CROWN ESSENTIAL FOR POTATO INCREASE

Department of Agriculture Asks for Increase in Yield per Acre.

With a decreased acreage of potatoes being grown in Ontario this year, it is apparent that the ten per cent increase which has been asked from Ontario growers will have to be obtained by improved cultural methods so as to obtain increased production per acre, says R. E. Goodin, fieldman for the Crops, Seeds and Weeds Branch of the Ontario Department of Agriculture. Reports received to date indicate that acreage may be about the same as last year, but that growers accustomed to small acreages may cut down in many cases owing to high costs and scarcities of seed, labour and machinery. Thus the aggregate acreage grown is likely to be considerably less than in 1942, which was almost the lowest in the past sixty years.

The use of fertilizer at the rate of 1,000 pounds per acre is recommended by Mr. Goodin, who points out that liberal applications of fertilizer pay good dividends.

"We cannot afford to let leaf hoppers and blight have a large share of our potato crop this year," says Mr. Goodin. Several groups have already organized to spray or dust on co-operative or custom basis with power machinery. At least two prominent machinery companies have several power sprayers now available and making efforts to have power dusters released. In addition, two row hand dusters are available, and information regarding these can be secured from this branch.

Plans are being made to have regulations passed to assist in prevention, eradication and control of bacterial ring rot, and it is expected that an order will soon be passed making these effective. Inspection of seed potatoes will be available without charge to farmers, and application should be made at once to the District Inspector, Seed Potato Certification, O.A.C.I., Guelph.
