

"As We See It"

By J. A. Strong

ALTHOUGH IT WAS almost impossible to get a decent seed bed prepared during the seeding this spring yet the grain and gardens look well and those nice showers that we had last week seemed to be just the proper remedy to make everything grow. The country looks well right now and there is every promise of a good crop. Potatoes are doing well and they can't be ready to use too soon this year as the old ones seem to be scarce. Strawberries look promising and while some of the raspberries were winter killed yet it looks as though we may have a decent crop of them after all. Sherry apples especially are loaded and it looks as though there will be plenty of crabapples. However the

BY-LAW No. 438

OF THE TOWN OF GEORGETOWN
A By-law for the regulation and controlling of the emission of smoke within the Corporation of the Town of Georgetown.

WHEREAS by Section 407, sub-section 45 and Section 423, sub-section 5 of the Municipal Act, being R.S.O. 1937, Chapter 266, it is provided that By-laws may be passed by the Councils of Local Municipalities for prohibiting and regulating the emission of smoke within the limits of the Corporation; AND WHEREAS a request has been made to the Council of the Corporation of the Town of Georgetown to pass a By-law controlling the emission of smoke within the limits of the Town of Georgetown;

AND WHEREAS the Council of the Corporation of the Town of Georgetown has deemed it advisable to accede to this request;

NOW THEREFORE THE MUNICIPAL CORPORATION OF THE TOWN OF GEORGETOWN BY ITS COUNCIL ENACTS AS FOLLOWS:

1.—Every owner, lessee, tenant, agent, manager or occupant of any premises in, or of a steam boiler in connection with which a fire is burning and every person who operates, uses or causes or permits to be used any furnace or fire, shall prevent the emission to the atmosphere from such fire of opaque or dense smoke for a period of more than six minutes in any one hour.

2.—Every such person shall prevent the emission of opaque or dense smoke at any point other than the opening to the atmosphere of the flue, stack or chimney.

The provisions of this By-law shall not apply to a furnace or fire used in connection with the reduction, refining or smelting of ores or minerals or the manufacture of cement or to dwelling houses, except Apartment houses.

Any person convicted of a breach of any of the provisions of this By-law shall forfeit and pay at the discretion of the convicting Magistrate a penalty not exceeding, (inclusive of costs), the sum of FIFTY DOLLARS (\$50.00), for each offence and on default of payment of the said penalty forthwith, the penalty and costs may be recovered under the provisions of the Summary Convictions Act.

No penalty shall be imposed under this By-law until ninety days after notice from the Corporation of the existence of this By-law given as provided by the said Act.

THIS By-law shall take effect from and after the 1st day of June 1943.

BY-LAW read first, second and third time and passed by the Council this 1st day of June 1943.

sugar crop isn't improving and we may have to learn to eat our fruit without sugar and like it. It seems easy enough to eat strawberries raw unseasoned but when canned without sugar they don't go over so well. Anyway it looks as though we are again going to have plenty to eat in this well favoured country of ours.

LAST WEEK'S POST had an article in it about the Sheep Rock project which is under construction in Northern Ontario and which is worth reading. The idea is to drain a lake up there in order to get at the high grade iron ore that is stored away directly under the bed of the lake. The lake being 150 feet deep means that the operation is quite an undertaking. Then when the water is drained off there is still forty feet of soil to get rid of before getting at the iron ore. Of course it is one of those operations that comes under the head of Big Business and runs into a good many million dollars. Cleveland interests are putting up some cash and Canadians are also investing in it. Hydro is putting in a 150 mile power line to furnish power and the first car of ore is expected to be on its way to Lake Superior by the fall of 1944. Unlike the power development scheme in Northern Quebec this project is not secret at all, in fact it has had a good deal of publicity. The ore at Sheep Rock is of superior quality as compared with the usual iron ore. This then accounts for the unusual interest taken in this huge project.

FATHER'S DAY seemed to get by much the same as any other day. We often wonder what the originator of some of these special days for some of these special days is. It seems strange that we have to have a special day set apart for Mothers and for Fathers doesn't it? Most of us have a deep respect for our parents every day of our lives and really need no special day set apart in which to honour them. As for Mothers and Fathers a special day is about the last thing that they themselves would want. Picking up an Exchange the other day we noticed almost ever Adv. in the paper specialized in some gift that the merchant advertising thought suitable for Fathers day. It seems to be too bad that a special day can not be set aside without somebody trying to make a special profit out of it. Commercializing these special days seems to be far cry from the original discoverers motive in having these days celebrated doesn't it?

A NEW AIR MAIL SERVICE is being introduced next month we understand for overseas and this should mean a much better service than we are at present having. Lately the regular mail has been coming through much more promptly and we have been getting boat letters recently in sixteen days after having been written which is quite fast. The Air-Graph service should be even better now also as we understand those letters are being finished here in Canada now instead of in the U. S. A. However we like the boat mail much the better. There is more news in them and they are usually longer and then they are much more easily read. Our letters going overseas are getting through in less time now also so that the service must be better both ways. The submarine menace seems to be checked considerably as compared to what it was sometime ago and that is really good news.

BRAMPTON

C. H. Wiggins has been appointed as District Deputy Brand Master of I.O.O.F. for this district. The appointment was announced in Toronto yesterday.

Huge Lancaster bombers built at Malton will shortly roar across the Atlantic in the new Government trans-Atlantic service to be established next month.

An attempt to show air force men that a heavy caterpillar tractor could go anywhere and do anything that an army tank can, netted Lucien Brule, Spadina Rd., Toronto 10 days in jail, a fine of \$10 and costs and suspension of his driving license for three months in Brampton Police Court Monday.

\$115,000 was paid in taxes here last Saturday, which is \$6000 more than in same period last year.

Dear Madam: As you will see I am now overseas, and have been for two months. I can't say I like it much. It takes a lot of getting used to, although it is my original home here in England. I went to Canada in 1929. I doubt if there could be any place better to live. Well I see quite a few Lorne Scots here. I haven't seen anyone I knew yet. I meet someone nearly every day that I know in Canada.

After all it's a small world. It was quite a change to see green grass and leaves on the trees, and flowers outdoors, after leaving snow just a week before. I wish there was something to write about, but there is not. I have only had one copy of the Herald since I came over. I guess there will be more on the way. I haven't seen any bombing yet, although there have been numerous alerts. There were two last

Your Income Tax

MINISTER OF NATIONAL REVENUE CANADA

FELLOW CANADIAN

I would like to remind the two million taxpayers of Canada of their obligation to file a 1942 Income Tax Return before the 30th of June.

This year, the forms have been simplified so that they can be completed with a minimum of time and effort.

The Income Tax dollars that Canadians pay are necessary in our present struggle. They are an investment in our future peace and security. They are fighting dollars....Victory dollars.

Income Tax is fair to all, as each person is taxed in accordance with his ability to pay.

There is no easy way to win a war. Almost half the costs of this war must be paid by taxes. I know that the Income Tax is not a pleasant burden, but I also know that to win the war, Canadians are willing to fulfill their obligations....to pay the price and to shoulder their responsibilities with the same unshakable spirit as shown by those who have gone from our shores to fight.

Minister of National Revenue.

night but I just woke up in time to hear the last all clear. I would like to see a copy of the Herald with the Active Service Hat. I seem to have missed the last ones.

It would be quite a problem to find anyone here. Seems to be so near and yet so far. I just got to know where the R. H. L. I. is stationed and now they are moving somewhere for the summer. I know several boys in that unit. There are several men from Georgetown as you know, but I don't think I would know them. I saw Wind-

Very truly yours,

IMPROVED UNIFORM INTERNATIONAL SUNDAY LESSON

By HAROLD L. LYNDQUIST, D. D. (Editor of the International Sunday School Lesson)

JOHN'S COUNSEL TO CHRISTIANS

LESSON TWENTY-THREE John 4:11-23 John 5:1-14
GOLDEN TEXT—Matthew 1:10 I pray that in all things they may prosper and be in health, even to the day of their death.—II John 1

Christians need guidance, especially in their home and church relationships. The apostle John, under the inspiration of the Holy Spirit, wrote the two personal letters known to us as II and III John. They abound in sound spiritual, practical advice. Note that these two words belong together, for what is truly spiritual cannot help but be tremendously practical and perfect for the direction of thought and life.

In these letters five admirable lessons are taught. Let us give heed to them. They are appropriate to our day.

I. Set an Example Before Your Children (II John 4-6)

We may not like to admit it, but our children are largely what we make them by their training—or lack of it—in the home. Parents have the grave and at the same time precious responsibility of being what they want their children to be. We set the mold of their thinking and acting, not only about material things, but mentally and spiritually, which is far more important.

Above all we must teach them by precept and example to love God supremely, and to walk after His commandments. Father, mother, have you done your duty? Are your children "walking in truth" (v. 4)?

II. Be Guarded Against False Teachers (II John 7-11)

We are not to countenance false teaching even by entertaining such teachers, or having close fellowship with them. To create the impression before the world and the Church that they are "not so bad," by appearing as their friends, is to partake of their evil works (v. 11). This is a serious matter, and one which is a problem in the Church today.

Such teachers may easily be recognized. They are aptly described by Dr. Douglas: "In all ages the Church has been plagued by those who want to substitute something for pure Christian faith, or to embroider it with bright ideas of their own conceiving. Such people may try to strip religion of its supernatural aspect and reduce it to a merely rationalistic system. They may seek to subtly loosen the moral standards of the Church because their own lives are deficient when measured by such standards. They may try to minimize the teaching of the cross because it stands for sacrifice." Watch against them, and stand against their destructive teaching.

III. Be Diligent in Putting Forward True Teachers (III John 5-8)

The door which should be closed against false teachers should be opened wide to those who are faithful teachers of the truth.

This refers primarily to the hospitality of the home, and reminds us of a grace which has been all but forgotten in these days of small apartments.

Whether we are able to open our homes to God's servants or not, we can show a Christian spirit of genuine hospitality in helping to bring them forward (v. 6) in their work. This may be done by gifts of money, by kindness shown in time of need, by a real interest in their work, by recommending them to others who wish to hear the truth.

Do everything possible, then, to hinder the false teacher, and be just as diligent to put forward the ministry of the true man of God.

IV. Do Not Trust Proud, Self-Seeking Leadership (III John 9-11)

A man may be orthodox, and intensely loyal to the denomination, and at the same time be a wicked man whose example is to be shunned. No word is said against the teaching of Diotrephes. He was not condemned for being careless about the affairs of the church, or unfaithful in his attendance and devotion to its interest as he saw them.

The sin of Diotrephes was pride—a desire to be the boss of the church, "No. 1 man" in its affairs. Lacking the true spirituality which always results in humility, he opposed the apostle. Not only did he refuse to receive him, but used pressure on others who were willing to be hospitable.

V. Emulate the Life of the Man of Good Report (III John 12)

A good man! No words of praise could possibly surpass such a testimony. The world is full of brilliant, skilled, wealthy and prominent people, but there is an appalling dearth of good men and women.

How refreshing to meet, and how delightful to know, such a man—a woman. Like Demetrius, they have not only the witness of the Church, and of the truth, but also of "all men." But last week we said the world hates real Christians. It does, but it also respects them, and is forced to bear witness to their reality and goodness.

Professed fellowship with God is Christ which does not result in goodness of life may well be scorned.
