## MONEY NEWS

(Intended for last week)

Last Thursday evening nearly a thousand people of all ages from far and near found their way to the home of Mr. and Mrs. Lindsay Neelands to attend the great Community Garden Party held in the interests of the British War Victims' Fund. The Lorne Scott's Regimental Band was present to render good band music, and a troupe of good entertainers from Sunnyside were on hand to delight the large audience with their programme. All was going well and everyone having a good time, when just before intermission was announced, the weather man seemed to be displeased with something or some one and sent a shower of rain. This was soon followed by another, and heavier one. People had to scurry for shelter, and the programme was discontinued. Like real soldiers the band continued to play in the rain until they and the music were thoroughly soaked before they decided to call it a day and seek shelter. People rushed to their cars to get away home, but considerable difficulty was experienced by many in getting their cars started on the water-soaked ground.

It was all very disappointing, especially to those who had worked so hard and planned so well to make a great deal of money for the fund. However a council of war was held and it was decided to hold another garden party in the same place on Friday evening of this week, August 30th. No admission will be charged. The band will again be present, and a short programme will be given. There will be a cup reading, bingo and the draw for the lucky number tickets. Let us all hope that the weather man will be in a better mood this time.

Miss Joy Eyrle is spending a few weeks at the home of her brother, Mr. Stanley Eyrle.

Miss Barbara Marklock of Campbellville is visiting her aunt, Mrs. Gilbert McDowell.

The frequent rains are delaying the threshing of Alake in this locality.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

(Copyright by Western Christian League)

### Lesson for August 29

Lesson subject and Scripture texts assigned and complete lesson plan prepared by the Board of Christian Education, U. S. A.

### ISRAEL'S SIN AND RESTORATION

**LESSON TEXT—Exodus 13: 1-10; 14: 1-27, 30.**  
**GOLDEN TEXT—The Lord is long suffering and of great mercy, forgiving iniquity and transgression.—Isaiah 54: 10.**

God is righteous, and cannot look with approval or in forgiveness upon sin until His mercy has been stirred and set free to act by repentance. Then His whose wrath is hotly kindled against man's transgression shows Himself as the tender and gracious God, "keeping loving-kindness for thousands, forgiving iniquity and transgression and sin."

This grace of God is fully revealed in Christ and the redemption which He brought to man, but is prefigured in the experiences of Israel under the law.

**I. God's Wrath Kindled (Exod. 13: 1-10).**

There are those who would have us think of God as a benevolent old gentleman who is easily hoodwinked by clever sinners who can talk fast to cover their iniquity. Even if He does see it, He is supposed to be so unheeded that He overlooks their sin.

Such folk had better read these words: "That my wrath may wax hot." The wrath of God is a real and awful affection of the divine nature and it is revealed against man who sins against His holy law.

The special sin of Israel on this occasion was idolatry, which is the setting up of some material symbol to represent the invisible God.

Moses had been with God in the mount for 40 days. He had been the Lord's representative in their midst. His presence had evidently been the chief stabilizing influence.

Having their eyes set on a man, or a material object to take His place, they had lost sight of the invisible God. So they proceeded to establish this idol which would provide a center of worship. At first it was evidently intended to remind them of God, but soon it led them out into heathen revelry (Exod. 32: 6, 17, 18).

Whatever a man puts between himself and God, even though he may at first intend it to be but a reminder of God, will lead him away from God. Ritual, symbols, theology, scholarship, all good in their place, may become the idols which separate present-day man from God.

**II. God's Mercy Invited (Exod. 34: 1-9).**

Aaron had only a weak "alibi" to offer. The golden calf had practically made itself (see Exod. 32: 24). How quick man is to justify himself instead of admitting his guilt. No doubt our excuses sound just as silly as Aaron's in the ears of God.

Moses knew better. The sin was dealt with in drastic fashion. When one deals with a wild ravenous beast, there is one remedy—"shoot to kill." Not only were the leaders of the wickedness slain, but the ground gold of the calf image was put into water, which all Israel drank. Thus were they all marked as sharing the guilt of the idolatry.

There is a lesson here for us. America is far from God. We need to seek His face in repentance. But let us remember that we (that is, Christian men and women) are a part of America. It is our guilt, and we ought to be on our faces before God, pleading for God's mercy upon our land.

Moses was now ready to seek the Lord's mercy for his wayward people. He is the intercessor, the intermediary. God had a man who had compassion and love in his heart, and the Lord heard him. Loving-kindness and tender mercy flowed forth in place of flaming anger.

Note that God has not changed. He is the unchangeable One. His wrath is still hot against man's sin, but man has repented, and moved out of God's wrath into His love and grace. That too is always being shown to His obedient children.

**III. God's Covenant Renewed (Exod. 34: 27, 28).**

Moses had broken the first tablets of commandments. The people had sinned and were not then ready to listen to any word from Jehovah. But now they were prepared to receive it, and God renewed the covenant as He again gave Moses the law.

There is no need for despair in the heart of the one who deals with God. The missed opportunity for obedience and blessing may be gone forever, but God is still on the giving hand ready to meet the returning prodigal, ready to give beauty for ashes (Isa. 61: 3) and to restore the years that the locust has destroyed (Joel 2: 25). Amazing grace!

In the keeping of these commandments, Israel was assured of the blessing of God. As we pointed out last week, the real fulfillment of the law came in Jesus Christ, who did not set aside its requirements, but met them all, for all who believe in His name.

## Weekly Report Crop Conditions

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal, dated August 19th, 1943.

General—In the Prairie Provinces light to heavy rains over many districts during the past week have benefited late-sown crops and warmer weather is now required to hasten ripening. Cutting of oats and barley is becoming general. Fairly good yields are expected where moisture conditions have been satisfactory, but in the dry areas of Saskatchewan and Alberta, yields, although of generally good quality, will be light. Stem rust is prevalent on oats and has appeared on barley in Manitoba. Seaweed damage is reported in parts of Saskatchewan and Alberta. Sugar beets are making good progress. In the Province of Quebec, grains are making satisfactory progress, although some damage from excessive moisture reported; cutting has commenced and average yields are indicated. Rain has continued to delay harvesting of a heavy crop of hay, and quality has been affected in many districts. Pastures are in very good condition. Canning crops are below average. Roots are doing well. The tobacco crop will be considerably below normal, owing to damage from rain and to cool weather. Apples promise an average yield. Warm, dry weather is needed in Ontario, continued intermittent rains have retarded harvesting, which is about two weeks later than normal in most areas. Indicated returns for Fall wheat and Spring grains are considerably below average. Corn, roots and tobacco continue to make good progress generally. Grapes and early apples are promising, but less-than-average yields are forecast for most other tree fruits. In the Maritime Provinces, haying operations have been delayed by adverse weather. Digging of early potatoes is under way; other roots are doing well. Grains are well headed and prospects for the apple crop are good. In British Columbia, favourable weather conditions for crop development have continued during the past week. Apples are still normally picking of early varieties of pears and plums has commenced. Root crops are doing well.

Canadian soldiers Overseas have married an estimated eight thousand English and Scottish girls.

Preparations for the landing of troops in North Africa involved alteration to use as troop carriers, floating work-shops, etc., all of which was completed in a short time and in the utmost secrecy.

Waste paper collected in the United Kingdom from November 1, 1938 to August 31, 1942 amounted to nearly 2 and one quarter million tons. It would have required 450 ships, each of 5,000 tons cargo capacity, to transport it.

**COAL WILL BE SCARCE NEXT WINTER!!!**

Prepare your home now for adequate warmth with smaller fuel consumption

**TO SAVE COAL CHECK THESE POINTS**

**HOW TO GET MORE HEAT**  
Pipes and furnaces must be clean, and grates in good order. If one or two rooms are hard to heat, you are wasting fuel. A minor adjustment can probably remedy this. Have a competent man check your heating system, and make necessary repairs. Insulate your furnace and pipes when necessary.

**HOW TO AVOID HEAT LOSSES**  
Storm windows and doors must fit snugly and be weatherstripped. Lack of storm windows can cause as much as 20% heat loss. Caulking should be done around windows, doors and in cracks in brick work (some hardware stores have caulking guns for rent). Broken glass should be replaced, and loose panes putted. Small expenditures on such work will save much fuel.

**HOW TO SAVE STILL MORE**  
You can save fuel and money by having your home properly insulated. It is a proven fact that in many homes lack of adequate insulation (including storm windows) results in unnecessary consumption of fuel—up to as much as 50%. Watch for later instructions on how to fire your furnace properly.

**HAVE YOUR HOME INSPECTED FOR HEATING AND INSULATION DEFECTS**

Get advice now! Skilled workmen and supplies are scarce. If you delay in getting your home ready for winter you may not be able to get the services you need.
