IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LINDGREN, D. D., President of the International Sunday School Association of Canada

Lesson for October 31

Lesson subject and Scripture texts for the week of October 31st: (See the International Sunday School Association's Lesson Book)

BIBLE TEACHINGS ON ABSTINENCE (International Temperance Sunday)

LESSON TEXT—Leviticus 10: 1, 2, 11; Numbers 21: 4, 5; 1st Cor. 1: 13-14; GOLDEN TEXT—Isaiah 1: 16, 17; James 1: 4

Total abstinence from all alcoholic liquors is the only sensible and effective policy for Christian people. Some, who want to use alcohol themselves, like to stress the Bible's teaching of temperance. They point to the use of wine on the part of people in biblical times, although they fail to note that more often than not it was non-alcoholic. (See "The Bible and Wine," published by Loizeaux Brothers.)

Another thing they ignore is that we live in a different day with a mechanized society, when alcoholic beverages are offered through high pressure advertising and in highly distilled and potent form.

What we are most interested in is what the Bible teaches about the matter. We note that—

Abstinence is Necessary

I. For Spiritual Obedience (Lev. 10: 1-2, 11).

In the religious life of a nation one expects the leaders to set the example for the people to follow. Two things we may rightly demand of those who serve the nation in its religious life: (1) a vision of God and obedience to that vision in life and service, and (2) the exercise of sound, God-guided judgment in the affairs of the people.

But note what happens when the prophet and the priest turn to wine and strong drink. They err in vision (Isa. 28: 7). That is, they have no clear concepts of divine truth, and lead the people into error. Further, we see that "they stumble in judgment."

To every true servant of God comes repeatedly the opportunity and the need of rendering judgment, that is, of advising and counseling those to whom he ministers. If his mind is befuddled by the use of alcohol (or, for that matter, by any other kind of worldly indulgence) he will "stumble," and cause his people to stumble.

A sad incident is related in Leviticus 10: 1, 2, of the sons of Aaron. We are not told directly that they were intoxicated, but it is implied in the fact that there is an immediate injunction against the use of wine by the priests (Lev. 10: 8-11).

II. For National Order (Prov. 31: 4, 5).

It is a notorious fact that the liquor interests strongly influence the political life of a nation. (See "The Fracking of the 18th Amendment," by Ernest Gordon.)

While political leaders may make strenuous professions that government agencies are not influenced by the liquor interests, it is common knowledge even to those who are slightly informed that the two are closely associated.

The result of that unholy alliance is rightly described in Proverbs 31: 5—"They . . . forget the law, and pervert the judgment of any of the afflicted." Much of the sad disorder in the body politic is traceable directly to the door of the makers and sellers of alcoholic beverages.

It is a depressing and disturbing thing when the leaders of a nation are known to lean on alcoholic stimulants—the broken reed on which man can only be pierced. The destructive influence of their example can be imagined.

III. For Personal Usefulness (Luke 11: 13-16).

John was to be born into a life of such blessed usefulness to God and man that he was to be a "joy and gladness" to his parents, "great in the sight of the Lord," and instrumental in turning "many of the children of Israel . . . to the Lord."

Such a life is worthy of emulation on the part of every young man and woman. What is the secret of it? Undoubtedly, fine Christian parentage had much to do with it.

Other elements also entered in, such as rearing and training, but of great importance was the fact (v. 15) that he was not to be driven by the false stimulants of this world, but by the infilling of the Holy Spirit of God. No "wine nor strong drink," but being "filled with the Holy Ghost"—there, young people, is the secret of a happy and useful life.

Note that John was to be "great in the sight of the Lord" (v. 15)—nothing finer or more distinctive could be said about a man. That greatness simply could not exist along with indulgence in "wine nor strong drink." Being filled with the Spirit precludes the use of intoxicants.

Let us bear that in mind when we are tempted to be led astray by the smooth arguments of those who talk "temperance" as a ground for indulgence. Our boys and girls—yes, our men and women—need a constant warning against the evils of alcoholic liquor. (See Alcohol, a Deceiver, Depraver and Destroyer, published by Moody Press, Chicago.)

Active Service Notes

Pte. Clayton Bradley, Camp Borden is home on a few days leave.

Cnr. Herb Arnold of Toronto is home on a few days leave.

C.C. Alf Collins of the Merchant Navy, Montreal, was home for the week end.

Pte. W. H. Penick has been transferred from St. John N. B. to Prince George, B. C.

Pt. Lieut. Ian Mackenzie from Prince Edward Island visited his parents the latter part of this week.

Cpl. Robert Bridges of Newfoundland is spending a furlough with his wife, at the home of her parents, Mr. and Mrs. Alex. Kern.

AC7 Gordon Martin, Toronto, was home on leave last week-end. Word was received this morning that he is to leave for a training centre in New Brunswick.

Mr. and Mrs. Walter Evans have just received a cable from their son, Pilot Officer Jack Evans, to say he had arrived safely overseas. P. O. Evans received his commission shortly after being "struck" at Portage-la-Prairie in September.

LAC Edward Bourdell, husband of the former Stella Lane, and son of Mr. and Mrs. Norman Bourdell, 100 Mill St., South, Brantford, is reported seriously ill overseas according to a telegram received by his wife last week from the R.C.A.P. Ottawa. Two enlisted in the R.C.A.P. about two years ago after training at Oat. Lachute, St. Thomas and St. Hubert, he went overseas in December 1942.

Omair Diggins has recently been promoted to the rank of Flying Officer. P. O. Diggins has been overseas two and a half years now. He writes home that he is constantly taking operational flights over the continent.

P. O. Diggins was quite famous in his civilian days as a gold-medalist tennis player. He has been in the R.C.A.P. 3 years and his promotion dates back to June.

In a recent letter home, P. O. William Murphy wrote that he had had the good fortune to accidentally meet Sgt. James Kelly on the street at Bourne-mouth, England. P. O. Murphy overseas since June, hadn't seen any boys from town since his arrival, and it was a really pleasant surprise to run into an "old" school pal. Kelly and Murphy went over on the same boat, but as soon as it docked were separated.

A Weekly Editor Looks at Ottawa

(By Jim Greenblatt)

Only a couple of local color items from the nation's capital this week. One concerns the fact that at a local liaison officers meeting (for the Consumer Branch, Wartime Prices and Trade Board, like you have in your own town) the ladies sat in a resolution to the Prices Board asking that boys' pants be manufactured with double seats; and that certainly sounds like an economy idea, because boys don't wear 'em out on the cuffs. After two months absence from an internment camp a young Luftwaffe Nazi was caught by an alert detective in the Ottawa Union station. Asked what he thought of Hitler now, he replied: "What do you think of Churchill now? That's what I still think of Hitler!"

The R.C.A.P. is quite disturbed about some farmers, hunters and gun-toting youngsters taking pot shots at racing pigeons in flight. Please think twice before doing it again. They are either on the fly carrying messages, photographs, etc., for the armed services, or being trained by civilian pigeon fanciers for a war job. Right now the R.C.A.P. Signals (Pigeon Division) is out to recruit 1,000 new birds. Incidentally, since April, it is against the law to keep or fly pigeons without authority.

But many employers wonder where all that Unemployment Insurance money paid in has wound up at. Well a recent report by the commission shows they have a balance in the coffers of \$143,857,000. Benefits paid out since January, 1942, when they first became payable, total \$1,150,714.

A knotty problem has come up for the National Research Council perhaps, or any person with an enquiring mind. It was unearthed by none other than the House of Commons barber who wonders where red-headed males have gone. Twenty years ago they claim one in ten was red-headed; today they've dwindled. Only real red head among the 245 members of the House of Commons is said to be Robt. McCubbin, Liberal of West Middlesex. Now you take a guess.

In these days of rationing when we speak of the "privileged" class, nine times out of ten we're referring to the infant population. When sweet spreads were rationed, Moms were permitted to exchange the baby's sugar coupons for those of corn syrup; using both you could change an "D" coupon, baby can have 7 lbs. of corn syrup a month. Now comes "C" coupon by which they can get evaporated milk, through their own local Ration Board. We've got to protect our future citizens.

A little barn talk: How to figure number of tons of hay in a mow, just multiply the length by depth and di-

vide by 450. A study of the apple maggot has shown that cultivation tends to increase the number of adults which emerge from the soil, but frequent rains during the emergent period get about the same results. Best time to cut, haul and prepare wood for fuel for use in the following year is the winter months. Wood should be dried well because when green it contains 35 per cent water. Much of the heat is used in evaporating this and is lost. A ton of timothy hay has 16 lbs. nitrogen, 6 and one half lbs. phosphoric acid, about 30 lbs. potash. This is more than is returned to the land by a ton of ordinary green farmyard manure. If no fertilizer is applied, continuous timothy depletes the soil. About the same condition exists with other grasses.

Here's co-operation. The Canadian Motion Picture War Services committee has informed the Department of Munitions and Supply of the voluntary decision of 1100 Urethane artists Canada to effect a 30 per cent reduction in the use of coal this winter. That answered an appeal to Canadians for help in the conservation and distribution of our fuel supply.

Nearly every Canadian family has some one near and dear in the armed forces overseas. Thus the appeal of the Post Office Department should be heeded about the deadline for mailing Christmas parcels by November 1st. Last year they handled 8 and one half million pounds of Christmas parcels, and expect a lot more this year. You are asked to pack well, wrap well, address properly and keep out inflammable stuff.

Cash income from the sale of farm products in Canada for the first six months of 1943 rocketed up to over \$538 millions as against \$348 millions in the same period of 1942, and \$358 millions in 1941. This increase was common in all provinces except Ontario, with the Prairie Provinces tops because of the sale of 1942 grains.

Greatest percentage was shown in the marketings of oats and barley. Hogs hit \$108 millions, dairy products \$110 millions. In the same period, however, the domestic consumption of fluid milk, butter, cheese, ice cream, etc., showed quite a decrease, most of it resulting from butter rationing.

Here's another interesting item for folks in agricultural spots. Stocks of creamery butter in store in one of the principal Canadian cities on October 1st totalled 50,930,412 lbs., an increase of 17 and one half million lbs. over the amount at the same date last year. However it must be remembered October 1st is taken as a peak date. There was a decline shown in cheese and eggs, but that is due to large shipments to the United Kingdom.

Ladies, the war is pushed back from your dressing-table slowly but surely, as the military situation slowly but surely improves. M. & B. has passed an order, brought about by improved shipping conditions, permitting the use of zinc oxide as an ingredient of talcum powder, face cream and other cosmetics, for the first time since late in 1941. Manufacturers will be allowed an annual quota of one-half of what they used in 1940.

They worried about the possibility of an "inflationary spiral" as the cost of living index crept up from 1192 on August 2 to 119.4 on September 1, for a wartime increase of 18.5 per cent. This was the 7th consecutive month showing a rise in the C. of L. index. Unless there is a decline in the index figure next month, the bonus will have to be adjusted upward. Maximum bonus payable is at the rate of 25 cents for each point rise in the index.

Quickies: Britain has asked for another 130,000 barrels of Nova Scotia apples, raising to 280,000 barrels the number to be exported from the province. The Labor Department has started a campaign to get the services of 150,000 farm workers for employment in essential industries during the lack season in agriculture. Canada's favorite munching pastime is saved, as the Prices Board has revoked its former order which would have prohibited the manufacture of hot dog rolls. Coal miners on R.O.A.P. ground crews can get leave without pay to work in the coal mines until March 31.

WITH THE ARMY

The gals of the C.W.A.C. are going to make good wives come victory. You can add a new item to the list of accomplishments that fit them for the job today and after the war: They're all learning the intricacies of ironing a shirt.

The Army is not going to be caught short of fuel wood this winter. Five special detachments of the Canadian Forestry Corps are being organized to take to the bush and cut cordwood. The khaki wood-cutters will confine their activities to the east, but other units may cut their own supply of fuel in other parts of the country.

Saskatchewan Hall, in other years the women's sanatorium at the University of Saskatchewan, has lost its femininity for the duration. Not only has it gone military, but it now houses 120 soldiers of the Canadian Army. They're attending the second Army University Course.

R.C.A. Cadet Corps Victory Loan Parade a Big Success Sunday

Sunday, October 25th, had been set aside as Royal Canadian Army Cadet Corps Sunday, and was being observed throughout Canada by parades in the various districts. The parades tied up well with the promotion of the Fifth Victory Loan, and in Georgetown many turned out to witness this parade.

About one hundred Cadets of Georgetown High School, the boys in their new R.C.A.C. uniforms, the girls in their tunics and scarves. A few Air Cadets and about 45 Cadets from Milton also took part in the parade through Georgetown streets.

Augmenting this fine Victory Loan Parade were the members of "C" Company Lorne Scots, under Capt. H. C. McCarty, and the Regimental Brass Band of the Lorne Scots.

At the saluting base with Col. G. B. Cousens, who took the salute, were Major Joseph Gibbons, and members of the Victory Loan Committee, County

Vice-Chairman, L. E. Fleck, Chairman R. Ross, Vice-chairman, W. P. Bradley, K. M. Langdon, W. Carpenter, and Mr. O. A. James, Cadet Instructor at Milton High School.

After reaching the Armouree the parade embusbed for Milton where they paraded through the town.

Private Marie Christie, of the Canadian Women's Army Corps, who designed for the costumes for the Luncheon on Broadway and trained under Valentina, the New York designer, has passed judgment on the C.W.A.C. uniform which she now wears.

"I find it very smart," she said. "The skirts are best, the lining for the greatcoats are smart and the details . . . you couldn't wish for anything nicer. Little stockings should be worn with woollens anyway and the kept (khaki peaked cap) has character."

Boy Scout Salvage Collection. THIS WEEK—West End of Town. NEXT WEEK—East End of Town. HAVE IT READY FOR THE BOYS.

Lend- TO REFILL THAT VACANT CHAIR. SPEED THE VICTORY. That boy of yours has been gone a long time. He and his fighting comrades are now surging forward to Victory.
