Norman H. Brown as Councillor for Ware III

As we have a war to win, I find it necessary to put my energy to more essential work, than soliciting votes from door to door, "Even if I lose". You too, are working to win the war and possibly trying to relax and

get some rest, at the time I might call. On Monday, December 6th, vote for who you think will be the best man for our Town.

whither bound?

In the year 1944 the Town Council will have to plot a more definite course than has been necessary in any year since 1918.

It is my humble opinion that 1944 will see the end of the war-at least with Germany and that it will fall upon the Council to provide as much employment as possible for the boys coming back.

This means new industries and it seems to me that a determined effort should be made to induce industries to settle in Georgetown.

That, ladies and gentlemen, is my platform and if I am elected I will work to that end.

Thanks in advance for your support.
