

APRIL SHOWERS AHEAD!

BETTER HAVE YOUR

Umbrella Repaired

Umbrellas are definitely among the things that are getting pretty scarce. That's why it's so important that we make the most of those we have. If your Umbrella needs recovering, if it needs a new cord, tip, ferule or rib, bring it to McBean & Co's.

We'll gladly give you an estimate on repairs. It may take three weeks to fix it, so, don't delay.

The monthly Camp Fire meeting of the 1st Company of Georgetown Girl Guides was held at the home of Lieutenant Anderson, Wednesday evening with nineteen girls in attendance. Several amusing games were played and a rousing sing-song was held with the girls grouped around the fireplace. At the close of the evening lunch was served by Lt. Anderson, assisted by Belle Tennant and Dorothy Olney.

During the past month several Morse Code examinations have been tried and Guides passing successfully were Ruth Brandford, Doris Roberts, Joyce Bedell and Mary Wood. These Guides have now passed the most difficult milestone on the way to their Second Class Badges and it is hoped that all troops will soon master the art of signalling by Morse.

The handicraft work is coming along very well and some of the girls have made coloured belts which are a great credit to them. Two of the younger Guides have displayed to the Company beautifully knit bonnets and booties and with work of this nature being accomplished now it will be quite easy for the girls to earn their needed work badges when they have passed their Second Class test.

Germany's three "secret weapons" in this war have been the magnetic mine, the acoustic mine and the newest one, the magnetic torpedo. The first two were quickly defeated by British Scientists and it is expected they will deal quickly with the new weapon.

First Objective

IN these decisive months all Canada's effort is concentrated on one great objective—the attack that is to destroy the Nazi menace and all that it represents. Years of work have gone into its preparation. The best of our young men are staking their lives on its success.

We in Canada must support and strengthen this attack with all our effort. This one purpose must command our work, our minds and our hearts.

We must not permit any scramble for private gain or individual selfish ends, to distract us from our main task. If we concentrate on seeking, individually or jointly, higher prices,

higher pay or higher profits, we shall be diverting our attention from the main task at this critical time. We shall also endanger the stability of prices which we in Canada have achieved after great difficulties—a stability that is essential to efficiency and fairness in war, and to peacetime prosperity afterward.

Our young men are fighting for a Canada and a world in which all men can have faith, hope and security. Each of them wants to come back to a job—or a farm—with a future. We at home must keep secure for them a strong and stable foundation on which alone a post-war period of promise and achievement can be built.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.
