THE BLACK MARKETEE

You might place him, I think, pretty high on the list of crooks who the foes of their country assist.

When they find in the war, with its stress and its strain, A chance for iniquitous personal gain, A menace and curse, it's abundantly clear,

And a rotten bad hat is the Black Marketeer.

While others are risking, anear and afar, For victory all that they have or they are, Each trying and doing his best and his bit,

COMMUTING BY AIR is being planned for you by men who think of tomorrow

TOMORROW'S HELICOPTER COMMUTER! . . . Step from your office building terrace into your Helicopter and commute to your hunting lodge on a mountain lake 200 miles away! That's more than a commuter's dream, for the Helicopters already designed will make it possible for you Tomorrow! You can take off and land vertically . . . and fly so fast that your own hide-out in the woods will be only minutes away!

Yes—the Helicopter Commuter, promising a broader and more enjoyable way of life, is only one of the many wonders being planned today by MEN WHO THINK OF TOMORROW.

All these things will be ours some day. But there's one all important job that comes first—winning the war.

Only when the war is won can we expect our gallant sons and daughters home and enjoy with

them the great things envisioned for our future by MEN WHO THINK OF TOMORROW. So, let's intensify our war effort . . . keep up production rates . . . buy more and more Victory Bonds and War Savings Certificates . . . do everything we can to help speed this war to a quick, victorious end. Let's all be MEN WHO THINK OF TOMORROW.

THE HOUSE OF SEAGRAM

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war to a victorious end. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Composites, Navigation Instruments and many other wartime products.

"What else WOULD I DO?"

Of course, I'm buying Victory Bonds—double what I bought last year. And that doesn't make me any hero, either. There will be lots of time to buy the things Mother and I are doing without, once we lick Hitler, and Bill's back home again—if he comes back! Until then, I'm putting Victory first. What else would I do?

Keep on buying **VICTORY BONDS**

GEORGETOWN

TEL. 82, r 4

He's artfully scheming the law to outwit. And his pockets to line, with a gratified leer. As he lobs up his takings, the Black Marketeer.

In various guises and places he's met And everything's fish that comes into his net; He's up to his neck in a lucrative graft Begotten in cunning and cradled in craft.

A "fair share for all" is the plan he would queer, O, jail is the place for the Black Marketeer.

It isn't too easy his capers to check. For he's eyes in the back of his head for a 'tec. And 'twill take something more, one

imagines, than fines To make him abandon his knavish designs. A term in the jug, howsoever severe, Is surely the due of the Black Marketeer.

ORTONA

Italy — December, 1943
Ortona's gates are gates of steel! What dauntless bosoms shall aspire To force Ortona's gates of steel And pierce Ortona's walls of fire?

Ortona's homes are forts of death! —What valiant feet, their goal to win, Shall dare to tread Ortona's streets, Her forts of death to venture in!

Canadian hearts shall force the gates. Undaunted face the withering breath From blazing wall and flaming street And win those fortress — homes of death!

Ortona!—soft melodious name In music of Italian tongue—Ortona town! but yesterday A name unknown, its fame unsung

Today that name a symbol stands Of rescued Freedom—and the price—Of Europe ransomed from her chains By valour and by sacrifice!

To Canada a deathless name, A name of mingled grief and pride, Of pride in her heroic sons, Of grief for those who nobly died! —Sir Thomas White.
