Georgetown

FACED with the difficulties created by wartime shortages in labor and machinery, Canadian farmers carried on with the equipment that was available, and it is a tribute to their energy and enterprise that they have attained the tremendous increases needed to serve the needs of the United Nations.

To assist them in their greater production programmes, Massey-Harris and its dealers set new and higher standards of service to farmers. In the maintenance of equipment in the hands of farmers, they have prolonged the use of machines beyond their normal life period, and by reconditioning and rebuilding, they have put back into service machines much needed to compensate for the shortage of new ones.

In the supplying of parts—always a feature with the Company—Massey-Harris and its dealers have, during these difficult days of shortage, rendered such an outstanding service as to earn the reputation of being—"The Best Farm Machinery Service in Canada."
