ASTHMA
 Chapman's Drug Store will be glad to show you a leader in the Asthma field. Not merely to get you over an attack, but to build weeks' supply.—'Davis' Asthma up against trouble. Now \$3.00 (3 Remedies 7855).
ECZEMA
 Itching piles, insect bites, poortuda. Ask your druggist for 'Davis' Pruritus Cream', the new colorless, odorless, greasless, effective cream. 50c \$1.00 and economy size \$1.65. Try it for Baby's eczema.

'As We See It'
 (By J. A. Strang)
LAST WEEK'S HERALD GAVE the Victory Loan subscription total as being \$417,850.00. We are glad that the amount had that 50 at the end. No doubt there would be quite a number that purchased a fifty dollar bond and everyone doing so can have the satisfaction of knowing that their fifty was the one that made that last fifty possible. Naturally when thinking of purchasing bonds we like to think of buying at least one thousand dollars' worth at a time, but when these bond drives come along twice each year many of us haven't a thousand dollars lying around to invest in each loan so we do the next best thing and buy whatever we can afford. Maybe it is merely a one hundred dollar bond each time or perhaps it may be only a fifty dollar one. We are apt to think that our little fifty or one hundred looks very small when compared to the objective which was twelve hundred million. However, taken collectively those smaller-sized investments amount up to quite a huge total. Often too, the purchaser of the fifty dollar bond, may have needed that money for something else more so than would the person that could buy the thousand dollar bonds. Locally we can be proud of the results of the bond drive and the same goes for the grand total for the Dominion as well. It was interesting to read of the purchases of huge amounts by the larger concerns of the Dominion, but it was also interesting to know that the small-

LUTHERAN CHURCH WILL USE EDGEWOOD PARK FOR CAMP
 Arrangements have been made by the camp committee of the Lutheran Church of the Canada Synod to hold their annual summer camps for boys and girls at Edgewood Park, Eden Mills, this year. At the annual sessions of the Canada Synod at Ayton, the camp committee will recommend the purchase of this property as a permanent camp site for the summer camps of the Lutheran Church.
 The Lutheran summer camps were organized nine years ago and since that time have conducted camps for boys and girls of the Lutheran church of the Canada Synod (Ontario and Quebec) at the Woodstock Y.M.C.A. camp site at Fisher's Glen on Lake Erie. Lack of sufficient time at that site to accommodate the wishes of all groups in the church desiring to hold summer camps led to the committee's recommendation of Edgewood Park as their own site.
 Edgewood Park has been used for some twenty years as a recreational park, with a dance hall, ball diamond, swimming pool and a number of summer cottages. The plans of the committee include converting the dance hall into a dining hall and recreational hall, using the outdoor picnic area as handicraft centres, and the cottages as director's office, camp hospital and staff quarters. By popular request the committee will continue its policy of having the campers sleep in tents in preference to cabins.
 Purchases were so numerous. Perhaps this was the last Victory Loan that may be needed. We sincerely hope that it may be.

HALTON PRESBYTERY ELECTS OFFICERS AT CARLISLE MEETING
 Rev. D. A. Fucey of Bronte was elected chairman of Halton Presbytery for 1944-45 at the meeting held at Carlisle United Church recently. Rev. R. F. Mercer, Appleby was returned as secretary and Rev. R. O. Todd, Georgetown, will be the new treasurer.
 Hearty thanks and best wishes were extended to Rev. J. S. Boie, Millgrove, on his acceptance of an invitation to become Minister of the United Church at Port Dalhousie. Rev. J. B. Moore and Mrs. Henry Caldwell of Acton were elected as the Presbytery's Commissioners to the General Council meeting in London in September. The alternates are Rev. J. O. Totton and Mr. R. F. Sanderson.
 The Presbytery placed itself on record as being opposed to the plan to amalgamate several Boards of the United Church, but it accepted the other two reports sent down from the General Council.
MINISTERIAL DISCUSS SUBJECT OF RELIGIOUS INSTRUCTION IN SCHOOLS
 When the North Halton Ministerial met at the Acton parsonage on Monday afternoon, the chief question under discussion was the Ontario government's proposal for religious instruction in the schools. Rev. W. G. O. Thompson, Georgetown, spoke in favor of the plan while Rev. C. C. Cochrane, Georgetown, voiced a number of important objections. Definite action was left in the hands of the various Protestant Church bodies.
 Hearty votes of thanks were given to the retiring officers: Rev. C. C. Cochrane, president and Rev. S. R. Colebrook, Norval, secretary. The election of officers for 1944-45 resulted as follows: President, Rev. J. B. Moore and Secretary-Treasurer, Rev. John Riddell.

THE MIXING BOWL
 By ANNE ALLAN
 Hydro-Home Economist

 Hello Homemakers! Let's all dig and grow more in year 1944—provided we can store any surplus. There is still time to work a small plot somewhere, where the soil is good. Measure your row and then sow about one half ounce of seed 'fifty feet' (or one packet). This, however, should be considered from the storage methods available, since one packet of seed will produce, approximately one to two bushels of greens or such vegetables as carrots and beets, depending upon the type of soil and the weather. Enthusiastic growers should remember that green vegetables have a short season and a second planting in three or four weeks time is a better idea.
 From one pound of good seed potatoes you may get seven to eight pounds of potatoes. The average family of four should store 550 pounds of potatoes for the year, if they are able to keep them in a well ventilated room at a temperature of 38 deg.
 The good gardener calculates on two to three pounds of tomatoes from each stalked tomato plant. Tomatoes are a valuable product and economical to can.
 We mention the above facts to encourage you to keep good records of length of row, amount of seed in packets, date when seeds planted, date and treatment of plant disease, date of first picking, date of last picking, estimate of production and notes on desirability and quantity. A notebook and pencil are all you require to do the job that should be started now.
RHUBARB HONEY CHIFFON PIE
 3 1/2 cups rhubarb, cut in 1/4 in. pieces, 1/2 cup corn syrup, 1/2 cup honey, 1 tablespoon granulated gelatine, 1/2 cup cold water, 1 tablespoon lemon juice, 2 egg whites, baked 8-inch pie shell (deep).
 Cook rhubarb gently with corn syrup and honey until soft. Add gelatine dissolved in cold water and lemon juice. Cool, and when partially set, add egg whites beaten stiff but not dry. Pour into baked pie shell. Serve garnished with whipped cream.
RHUBARB AND PRUNE RELISH
 4 lbs. rhubarb, 2 lbs. prunes, 2 lbs. sugar, 2 lbs. corn syrup.
 Cover prunes with water and leave 24 hours. Cut rhubarb in small pieces and sprinkle over it 2 lbs. of corn syrup. Let stand over night. Place prunes, water and rhubarb, with the syrup, in kettle. Add to mixture and simmer 1 hour. Add 2 lbs. sugar. Boil gently 1/2 hour longer. Yield: 6 - 8 eight-ounce glasses.
ALL-IN-ONE DISH
 1 cup uncooked spaghetti, 4 sliced breakfast bacon, diced, 1/2 cup chopped onion, 1/2 lb. round steak, ground, 2 tpsps. starch, 1 (10 1/2 oz.) can tomato soup, (condensed), 1 can water (10 1/2 oz.), 1/2 teaspoon salt, 1/8 teaspoon pepper.
 Cook spaghetti till tender in 2 quarts boiling water to which has been added 2 teaspoons salt; drain. Cook bacon; add onion and meat; cook till brown. Add corn starch, blend well. Add soup, water, salt, pepper, and spaghetti. Simmer gently on electric element for 5 minutes. Serve with hot toast.
Take a Tip:
 Paint brush conservation: curled brush ends should be immersed in boiling water for a few moments and allowed to dry. Paint-hardened brushes can be fixed if they are placed in a bath of paint remover and left for several hours. Then brush on a smooth board.
The Question Box:
 Mrs. M. R. says: I thought the oven was the cause of my cakes burning on the bottom, but I decided it was my thin black pans, so I've been turning an old chipped enamel pan upside down to deflect the heat. Note: this is a good conservation tip.
 Mrs. J. C. asks: How do you keep a large cake moist?
 Answer: We cut it so that it fits into the bread box, wrap it in wax paper and then put a couple of slices of fresh bread in the box each day.
 Anne Allan invites you to write to her c/o of the Herald. Send in your suggestions on homemaking problems and watch this column for replies.

Your WASTE PAPER MAY SAVE A LIFE!

 Canada Needs 20,000 TONS OF WASTE PAPER EVERY MONTH
 BLOOD PLASMA

A NEWS ITEM in the Globe and Mail states that since the beginning of this present year Victory Bonds to the value of \$45,000.00 have been stolen in the city. Most of these thefts were from homes throughout the city. Bearer bonds are handy and can be sold if the need arises with less trouble than can registered bonds. However, the bearer ones are very handy for the thief and it might be a good idea to mention once again that if your bonds are of the bearer variety, be sure they are stored in a safe place. Placing them in the top drawer of the desk or dresser isn't the best place for them by any means. The ideal place for them is in a deposit box in your local bank. If you are unable to rent one of these we understand that arrangements can be made to have the bank store them for you anyway. Many of us have gone without certain commodities that we really wanted in order to purchase our bonds. After having done this it does seem foolish to leave those same bonds lying around the house where they may be very easily picked up by somebody or where they may very easily be lost or damaged by fire.

ACTON
 It took some heavy work in the last few days to put the Sixth Victory Loan over the top in Acton and district and it was not until Monday night that the objective of \$225,000 was in at headquarters and it was known again that Acton and district had made its objective in every one of the six Victory Loans that have been launched. Figures in Acton and district at the close on Monday night were \$228,000.
 A group of local fishermen returned on the week end from an eight-day fishing trip to Hollow Lake with plenty of evidence to back up tall fish stories.
 Following the death of the late postmaster J. Chester Matthews, Miss Fern Brown, who has been assistant postmaster for a number of years here, has been made acting postmistress. We understand no permanent appointment to the position will be made until after the close of the war.
 Another of those brief messages starting "Regret to report" brought sorrow to homes in Milton and Acton yesterday, when word was received that Sgt. Air-Gunner Gordon Keith McLellan was reported in this brief message killed while on active service. —Free Press.

MILTON
 A letter was read from the Milton Hydro-Electric stating that the price of hydro had been reduced by 10 per cent on order of the Ontario Hydro-Electric Commission.
 A Re-make Fashion Review, under the direction of Mrs. H. M. Alken, was held in the town hall last week. The many attractive costumes that were modelled showed the possibilities of what could be done with used clothing.
 The tragic news of war's casualties has come to another Milton home with the word that Flying Officer Francis (Frank) Charles Bowring has been killed in action in Italy on Thursday, May 11th.
 Bill Kelman, while changing the course of a creek near Hornby last week found a frog with five legs, three back legs and two front ones.
 Decorated with spring flowers, St. George's Anglican Church, Guelph, was the scene of a pretty wedding May 6, when Florence Bernice, daughter of Mrs. Florence E. Bishop and the late W. T. Bishop, became the bride of L. Albert Morley, son of Mr. and Mrs. George Morley, Milton.—Champion.

BRAMPTON
 Crashing into a concrete bridge railing when his automobile headlights failed, Edward Carme, Altona farmer, suffered head wounds which required twenty-two stitches, police reported.
 Word has been received that Lieut. "Ted" Conover, son of Col. R. V. and Mrs. Conover, has been wounded in active service in Italy.
 The popular lacrosse bush league will again operate. At a recent meeting in Snelgrove the entry fee from six teams was accepted. Inglewood and Caledon are playing home games in their respective villages while Norval, Brampton Reserve Army, Nortonville and Cheltenham have made arrangements to play their home games in Brampton Rose Bowl.
 Peel raised a grand total of \$4,033.460 in Sixth Victory Loan bond sales, by far the best in their history.
 It is Flying Officer Robert Charters now and congratulations to a very courageous and likeable young officer. —Gazette.

The Road Ahead...
 Canadian Agriculture, giving as it has such abundant evidence in these days of prodigious war needs, of its ability to furnish ever-increasing quotas, is yet going to be faced with greater production programmes in the days following the liberation of the occupied territories of war-torn Europe.
 There is perhaps no other single factor that has so greatly assisted the Canadian farmer to accomplish such record achievements as that of modern machinery. United with the farmer, in the job of continuously improving and increasing the efficiency of his methods of production, is the Implement Engineer.
 Massey-Harris, always a leader in the introduction of time and labor saving equipment, has made another notable advance with its self-propelled combine which has revolutionized harvesting methods.
 The self-propelled principle introduced in the Massey-Harris Combine opens up a world of possibilities in the future trend of farm machines for the road ahead.

MASSEY-HARRIS COMPANY LIMITED
 GOOD FARM INVESTMENTS SINCE 1887

These days, when tea must yield the utmost in flavour, quality is of supreme importance. Ask for..

"SALADA" TEA

Then ROOM FOR EVERYBODY...

PRODUCTION MEN—keeping in constant touch with sources of raw materials, suppliers of parts, government and military authorities.

THE ARMED FORCES—with responsibility for training and supply, for troop movements, for operations on land, air and ocean battlefronts.

GOVERNMENT OFFICIALS—to touch with every phase of our production and military program—with foreign governments—with national and international war agencies.

YOU—depending on your telephone for quick, essential communication at work and at home.

But telephone lines can carry this wartime load only if we all use existing facilities sparingly, and keep our calls just as short and business-like as we can.

Additional equipment is severely limited by material shortages; co-operation must take the place of construction if essential calls are to go through promptly.

On Active Service Giving Wings to...
