The Editor's Corner
 WEEKLY EDITORS FROM ONTARIO AND
 QUEBEC MEET

We, along with some 150 weekly editors and their ladies from Ontario and Quebec, attended the two-day conference held at the General Brock Hotel, Niagara Falls last Friday and Saturday. No conference of this division of the Canadian Weekly Newspaper Association was held last year due to wartime restrictions, but it was unanimously felt this year that a conference be planned because of the many new problems in the weekly publishing field.

The famous Ontario beauty spot was at its loveliest. Even the sun which according to all reports, had not made an appearance there for nearly two weeks, very obligingly came out to shine with summer warmth. The gardens and parks were beautiful with tulips and other spring flowers set against the fresh green of grass and trees. Yes, the fruit blossoms were past their best, but the exotic magnolia trees in full bloom more than made up for them, with their almost unreal beauty. And of course, one never tires of looking at the majestic falls. Niagara was a grand setting for a meeting of the so-called "Fourth Estate".

It was good to renew friendships with other editors and to meet some new ones. Naturally we had especially looked forward to meeting two other lady editors in the province, Mrs. Duncan of the Warton Echo, and Mrs. Marsden of the Elora Express. We enjoyed their informative talks entitled "Women in the Editorial Chair" and "Women as Business Managers" very much. We gleaned a good deal of information and inspiration from other interesting items on the program too, so we feel our time was well spent.

We were privileged to hear several distinguished speakers, among whom was the Hon. John Bracken, who addressed the Association Dinner on Friday night.

The two days spent at the conference came as a welcome break in routine to nearly all the editors, most of whom are having to work harder now than ever before, due to labour shortage. It helps a good deal to know that others in your line of business are facing exactly the same problems as you are, and to learn and discuss ways and means of solving them. It was a good conference, and one of the most necessary ones ever held.

PERMITS NOT NEEDED TO EXPAND BUSINESS

Amendment of the Wartime Prices and Trade Board order, regulating opening of new business enterprises, expansion of old ones and changes in ownership has been announced by the Board.

Permits are no longer required when an existing business changes ownership, acquires additional floor space or moves to other premises. Permits are still required for the formation of a new business not carried on before November 2, 1942, for changes in the class of business carried on at that date and for changes in the classes and kinds of goods and services dealt in at that time.

Scarce goods will continue to be distributed under the terms of the Board's equitable distribution policy which requires suppliers of scarce commodities to distribute only to customers who made purchases in 1941. New entrants into business, therefore, will not be entitled to any share of scarce goods.

Making the announcement, Prices Board Chairman Donald Gordon said: "When the original order was passed in November, 1942, there was a need of a general curtailment of civilian activity to permit a rapid expansion of war production. The Board felt that existing manufacturing and distribution facilities were adequate to handle available supplies of civilian goods and that new productive activities should be devoted to meeting wartime needs.

"War requirements are still heavy and have first call on Canadian production," Mr. Gordon continued, "but the rate of expansion has declined. Shortages continue in many lines of civilian goods and are unlikely to disappear for some time."

SPRAY TO KEEP DOGS, CATS FROM SHREWS

aware of its presence. The spray evaporates and should be renewed after rain. In good weather, spraying every two weeks is sufficient. The name of the material is nicotine sulphate and it may be bought at any seed or drug store. The spray is prepared by mixing one-half teaspoonful of the nicotine sulphate with one gallon of water, which makes the mixture strong enough for all ordinary circumstances.

Right Now THE NEED IS DESPERATE

20,000 TONS OF WASTE PAPER ARE REQUIRED EVERY MONTH TO MAKE ESSENTIAL CONTAINERS FOR MILITARY SUPPLIES

WHAT IS WANTED
 You can remedy this critical paper shortage by saving every scrap of Waste Paper, namely: wrapping paper — store bags — cardboard — cartons — corrugated board — old magazines and books — envelopes and letters — newspapers. These represent the raw material for making vitally needed Paper containers.

HOW TO DO IT
 Tie securely in separate bundles. (The little time you take will save thousands of man hours.) These dispose of it through your local voluntary Salvage Commission or other War Voluntary Organization, or sell it through any known trade channels, your pedlar, dealer or others. The important thing is your Waste Paper moving to the mills.

MURDER BY SKELETONS AT THE FEAST
 Four grim messengers of death, garbed in skeleton costumes, mingled with the merry-makers at the Mexican governor's masked ball. Read in The American Weekly with this Sunday's (June 4) issue of The Detroit Sunday Times how the party, when revelry was at its height, turned into a bloody shambles. Get Sunday's Detroit Times.

Popcorn has become popular as a crop with many prairie gardeners and commercial corn growers. The shortage and high price of peanuts is said to be one of the reasons.
