The Effect of the "HOURS OF WORK AND VACATIONS WITH PAY ACT 1944" ON BUSINESS AND INDUSTRY IN ONTARIO

ON JULY 1st, 1944, the "Hours of Work and Vacations With Pay Act, 1944" becomes effective in the Province of Ontario.

While it is the purpose of this Act to provide improved conditions for all workers employed in industry in this Province, it will be obvious that the provisions of the Act cannot be permitted, at this time, to interfere with the all-out capacity effort required in producing material for war.

The Industry and Labour Board, which will administer the Act, therefore, considers, in view of the present acute manpower shortage and the vital demands of war, that the application of the Act should be postponed and working conditions in force at present should not be arbitrarily changed.

The Board therefore authorizes the continuance of Existing Working Hours in all industries operating on priority War Material in the Province of Ontario.

Industries engaged in Agriculture, Horticulture, Fishing and the Production of Foods and Farm Products; Dairying Industries including cheese and butter; Firms engaged in the building and upkeep of roads, construction, transportation, textiles and other undertakings which can be considered essential to the full maintenance of the war effort, shall be considered in the category of War Industries insofar as their present working hours are concerned.

Preparation of the groundwork for the operation and application of the Act will go forward immediately but the Industry and Labour Board wishes it to be understood that these preparations will not be permitted to interfere in any way with existing working conditions in vital industry as long as the present crisis exists.

HON. CHARLES DALEY
Minister of Labour
