Dear Mr. Dowle:

I was very pleased to receive your recent letter regarding the Red Cross Campaign and appreciate very much your kind words regarding our efforts here.

The success of our Campaign was due to the combined unselfish efforts and zeal of our Campaign Committee who left no stone unturned in their efforts to make the canvass a success and our citizens generally who responded in a manner in keeping with the very loyal traditions of this Community and in the spirit of her fighting SOMS OVETBERS.

Mr. and Mrs. A. H. Baird, of Palmerston, to Make Home Here Shertly

The following item is taken from the Palmerston Observer of last week: hot Rai-n'BA A-tBaT

A very pleasant social evening was held at the home of Mr. ands Mrs. A. H. Baird on Thursday, June 8th, when the members of the United Church Seasion and their wives gathered to bid farewell to them, before leaving to

take up residence in Georgetown. Mr. Baird has been an elder in the church for forty years, being ordained in Knox Presbyterian church here in 1904 by Rev. L. M. Aull and since church union in the United Church. A short program of music and games appreciation of the outstanding job was enjoyed and at an appropriate time Mr. and Mrs. Baird were called I was delighted to see, in going over forward by Rev. R. TO GET BEST HAY CUT IT EARLY

Hay which is cut early is more nutritious than that which is cut late. A chemical analysis by the Chemistry Division, Dominion Department of Agriculture, shows that red clover cut failed. They did not drive them out, when 50 per cent in bloom contained 26 per cent more protein, 7 per cent more calcium and 4 p.c. more phosphorous than red clover with 80 p.c. of the heads turned brown. Timothy well headed out contained 45 per cent more protein, 8 per cent more calcium and 40 per cent more phosphorus than timothy in full bloom. Alfalfa when 5 per cent in bloom contained 19 per cent more protein, about the same amount of calcium and 2 per cent more phosphorus than alfalfa cut when just

past full bloom. As considerable winter-killing occurred last winter in old meadows and in some parts of Eastern Canada, abnormally dry conditions have retarted the growth of hay very considerably this year so that the prospects are for a short hay crop. Under these circumstances it should be more necessary this year to harvest the hay so as to obtain the greatest feeding value possible. Red clover should be cut not later than full bloom, alfalfa in about one-tenth bloom and timothy just before bloom. As the having season may stretch over a period of several weeks. it is well to commence operations somewhat earlier than the maturities suggested in order to prevent the later cuttings from being too mature.

Outting early, curing with as little exposure to sun and rain as possible and storing under suitable conditions will assist in increasing the feeding value of a light hay crop.

ENTERING THE PROMISES

LESSON TEXT-Joshua 1:10; 26:1-5. GOLDEN TEXT-Be strong and of a good sourage; he not afraid, notther he thou dismayed: for the Lord thy God is with thee whithersoever thou goest,-Joshua 1:9.

The forward look is typical of God's people: They are always to go on. They are to be like Israel, to whom came the word, "Moses is dead," but "now therefore arise" and go"-under a new leader.

Our lessons for this quarter center around the experiences of Israel from Joshua to David, a period rich in historical data, much-of it with most helpful spiritual application. It affords a real opportunity for effective teaching.

Moses was now dead, but that. only brought forth

I. God's Provision of a New Leader (1:1, 2). God buries. His workmen at the end of their day of labor, but God's work goes on. The people had become attached to Moses and had learned to trust his leadership (even though they often murmured). With his death we might have assumed that there would be a letdown, but:

that was not in God's plan. The Lord works through men. Hegives them shilitles and uses them for His glory-often in a way which astonishes them and others. But let them not become proud, for God has someone to take their place when they are gone. They are not.

indispensable. Sometimes people talk as though all the great leaders of the church had died, or were dying. Yet God'has some obedient men who are

ready to step into the gap. . Joshua was ready, when God was ready, and he stepped into leader-

IL God's Promise of Victory (1:3-The promise given to Moses was: still good. God's promises are always good. They are the only really stable thing in a trembling universe. The question is, Are we ready to accept Him at His word?

If our love were but more simple, We should take Him at His word; And our lives would be all sunshine. In the sweetness of our Lord.

They were to step out by faith. The land was promised to them only as the sole of their foot should tread upon it. Israel never took out the full promise of verse 4. They

lacked faith. Do we? God honors those who believe Him and who move forward by faith to plant the foot of spiritual conquest in new territory. Some are doing it.

now. Are we? The enemies of God's people were many and mighty, but they were not. able to stand in the way of God's people when they were moving forward for Him. Here again, Israel because they did not take God at His word. The application of that truth to us is obvious.

III. God's Plea for Obedience and Courage (1:6-9).

"Be strong and of good courage." There is a side to the believer's character which calls for submission, for turning everything over to God, for being sweet and spiritual. All that is good and very desirable. but it can never be substituted for that other side which shows virile courage and fearless abandon to the cause of our God.

Joshua was made to realize as we must too-that serving God (and especially in a place of leadership) calls for a measure of high courage unsurpassed in any other pursuit of man. It takes all there is of a man to be a real follower of Christ-be sure of that!

This courage, however, is not to be confused with a foolhardy bravery which is reckless and unintelligent. No indeed, for it is based on the observance of God's law

Note (v. 8) the importance of meditating upon God's Word. This: (which is really a lost art in our day) means so absorbing the principles of the Word that our very lives are conditioned by them, and we are made ready to meet every problem in the light of its teaching. IV. God's Purpose for the Puture.

(23:1-5). Passing all the great and stirring experiences of Joshua, we have now a glimpse of his closing days. He was counseling the people regarding the future....

It is the mark of a great manthat he looks beyond the end of his own short existence and place for the future. Many there are whoare not concerned about what happens once they are gone. They have no vision, no concern about the contimulty of life, in fact they come: and go almost like the beasts of the
