The delegation from Georgetown on arrival at Brampton Legion Hall, joined the representatives of Zone 26 from Brampton, Acton, Oakville, Park Credit, Milton, etc., and the parade moved off from the hall headed by the Brampton Band and the Legion colors and followed by the Ladies Auxiliary and members of the Canadian Legion to the cenotaph where a wreath was deposited by Col. G. B. S. Cousins, the past Zone Commander, acting in the absence of Zone Commander T. Drew.

Coming to attention before the cenotaph over three hundred and fifty veterans of the last war and members of the armed forces now on duty, paid their respects to those who have made the supreme sacrifice in the last war as well as those of this war.

After depositing the wreath, prayers were offered by Capt. J. R. Sloan, the "Last Post" sounded, two minutes silence observed then "Reveille".

After this service the parade reformed and moved on to the cemetery for Decoration Service. The salute at the graves was taken by Col. Cousins assisted by Judge Robb and Mr. Gordon Graydon, M.P. from the library steps.

The services at the cemetery opened with the singing of the Hymn "O God Our Help in Ages Past"; prayer by Captain J. R. Sloan; decoration of the graves by Branch Presidents; placing of wreaths; the "Last Post" sounded; two minutes silence observed; "Reveille". An inspiring address was delivered by Capt. J. R. Sloan and the services concluded with the gathering singing the Hymn "Abide with Me"; the depositing of Poppies by Legion members; Benediction and the National Anthem.

Immediately the parade being dismissed at the Legion Hall, the Brampton Branch served sandwiches and coffee.

A special meeting was then called for all the presidents of the different branches, regarding the calling of a special meeting for the purpose of electing a Zone Commander for Zone 26, to fill this office for the balance of the year.

It is with regret that we hear that Comrade "Teddy" Drew, the present Zone Commander is at present a patient in the Christie Street Hospital, Toronto. ## THE PSYCHOLOGY OF FEAR

(Continued from Page Three)

known. The question arises: Can man plan the future? Can a man, by taking thought, add one cubit to his stature? Man is certainly able to plan for the immediate future, but his range of successful planning appears to be limited. He has, by taking thought, added to his knowledge and physical powers, but he certainly has not added to his moral and spiritual stature. The worse-than-brutal cruelties of the present war testify to that. Man's inhumanity to man has made countless thousands mourn.

And all this has been brought about by fear—not the four fears of the Atlantic Charter, but by man's fear of man, combined with racial and intellectual pride. "In politics, what begins in fear usually ends in folly," said Coleridge; and he Scripture declares that "Pride goeth before destruction,"

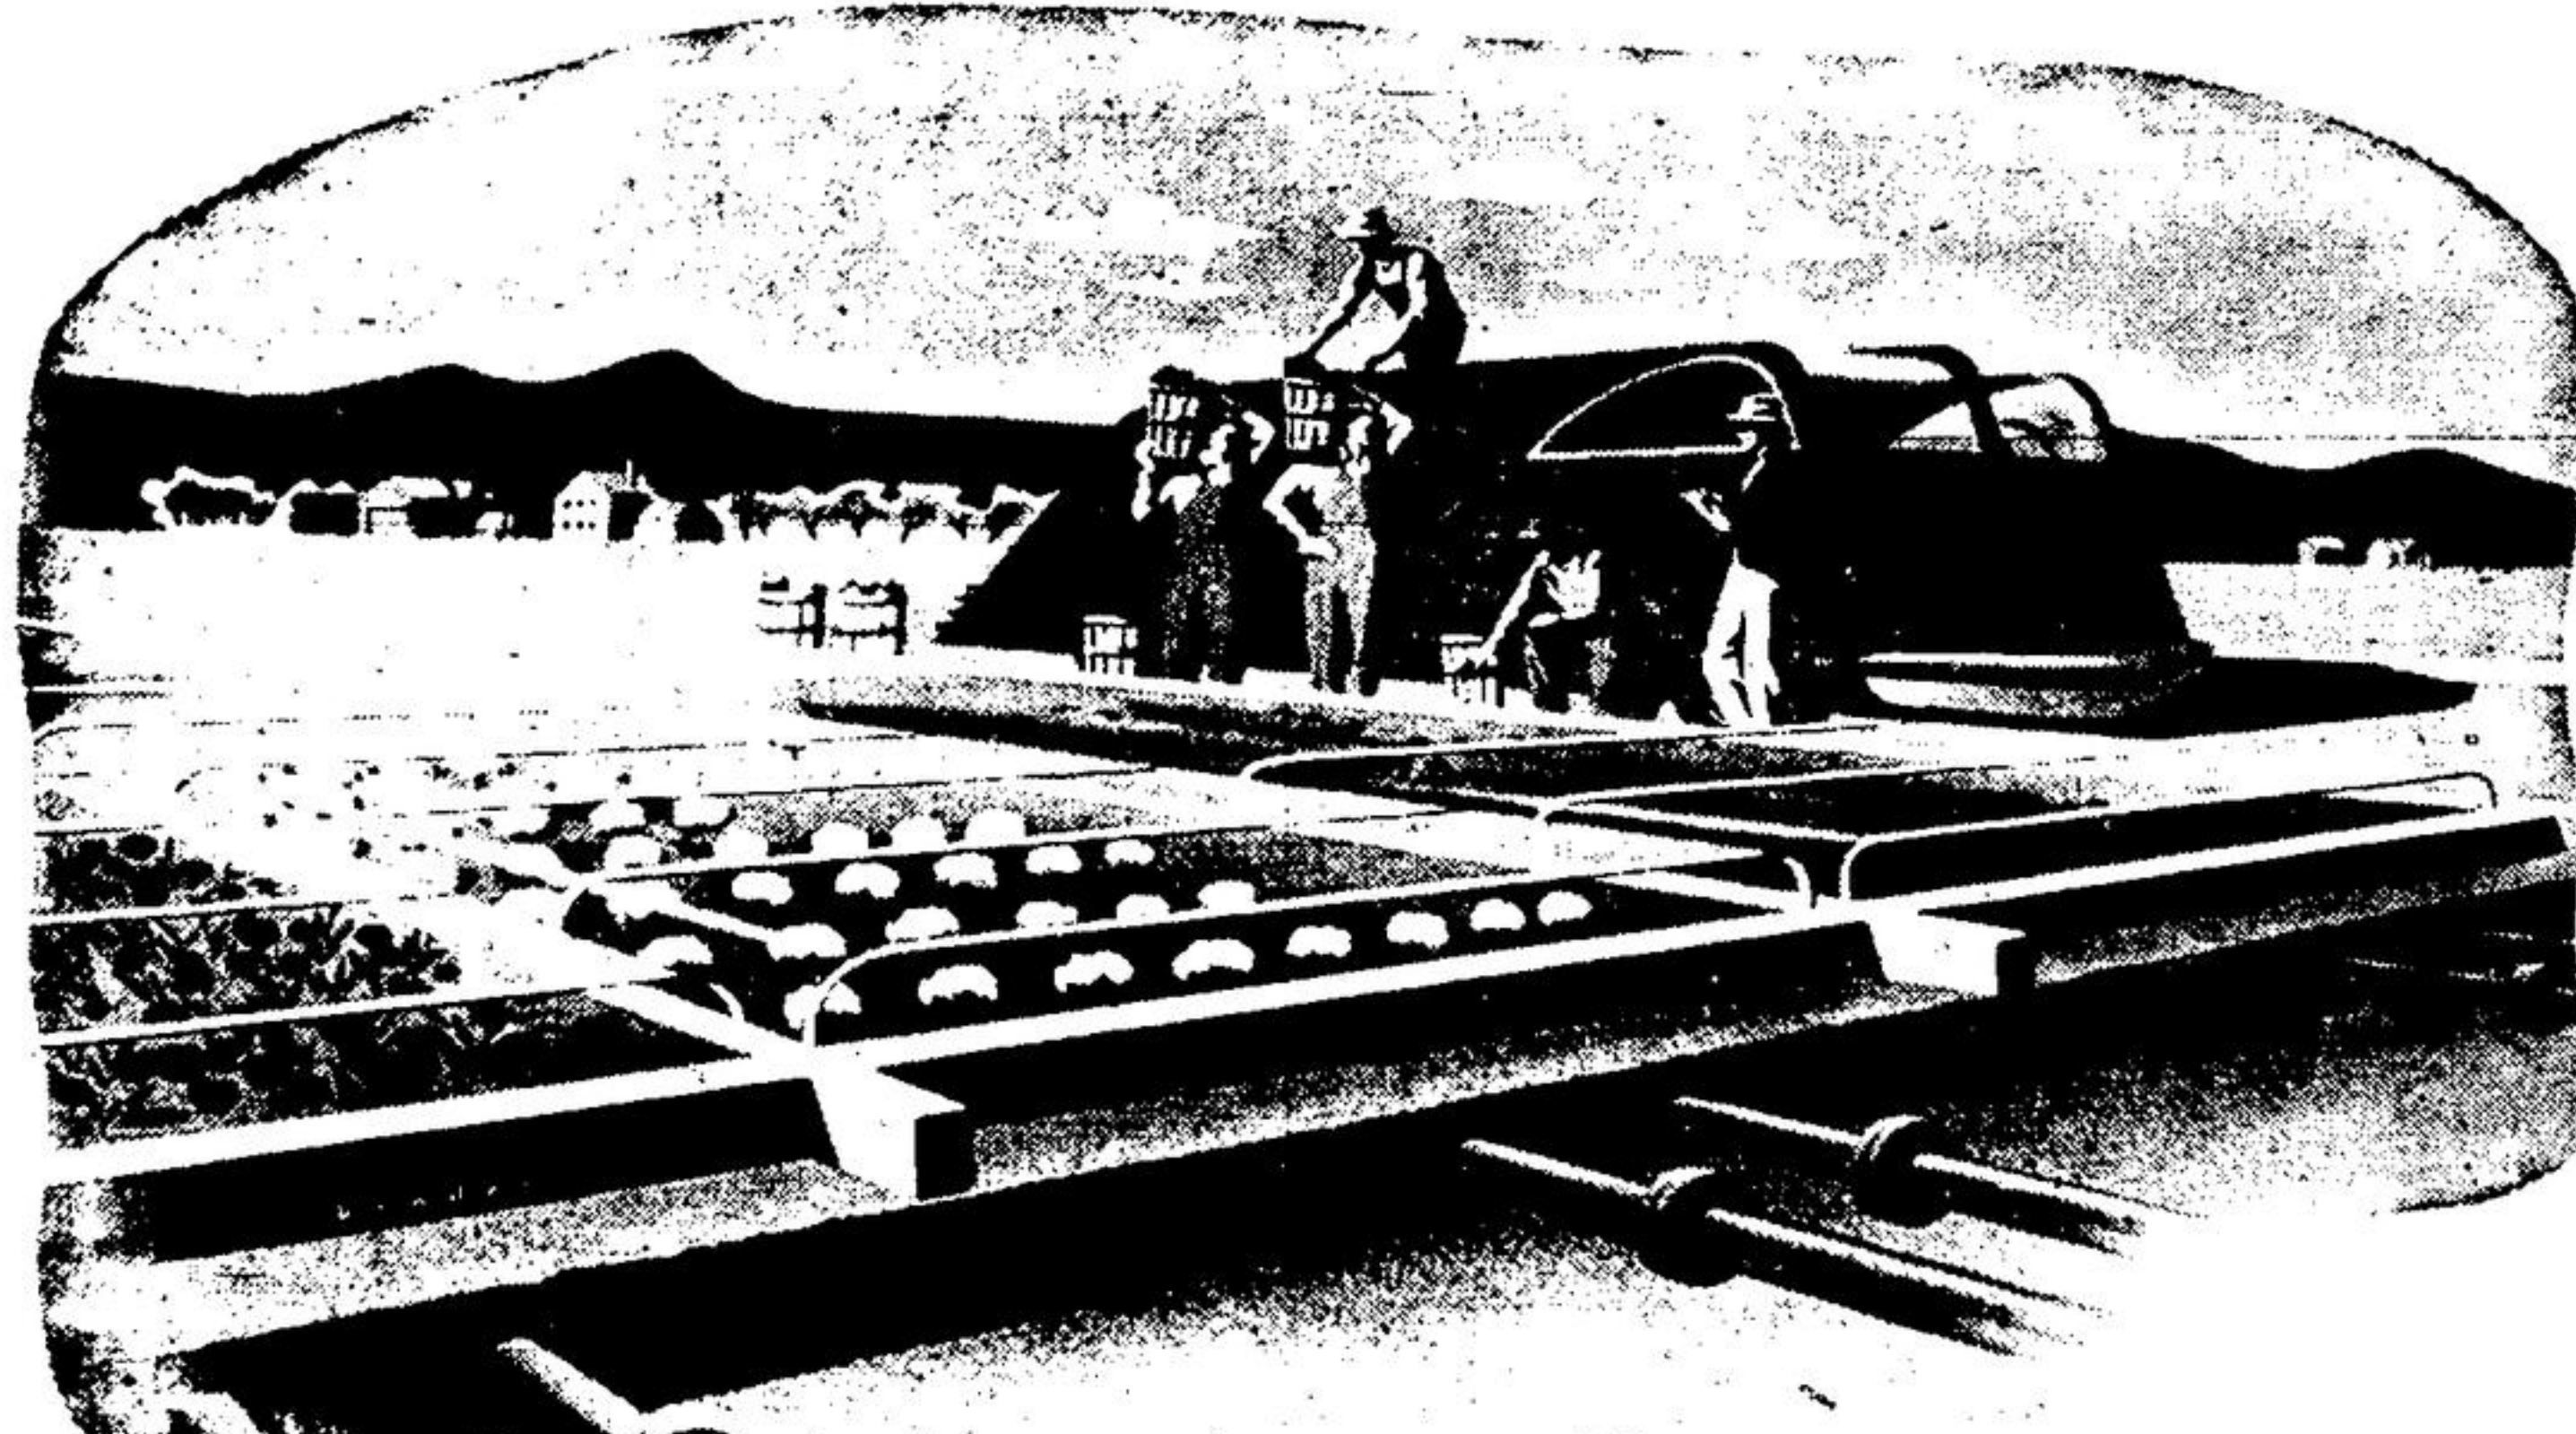

That is the whole story. In all our plans for the future there is one fear that, we must cultivate, and it is a fear which casts out all other fears—"the fear of God", which is "the beginning of wisdom." The beginning, not the end, for the end thereof is love, righteousness and peace.

# FRESHER, CHEAPER FOOD for your table by men who think of tomorrow

TOMORROW'S EVERGROWING GARDENS... Why should garden-fresh vegetables be available only in summer? Why should rich, ripe strawberries be a luxury in winter? Men who think of tomorrow are doing something about it. In Scotland, where seasons are short, it has been possible to grow six to eight crops of vegetables a year by heating truck gardens with underground steam pipes—under glass in winter, open to the air in summer.

MEN WHO THINK OF TOMORROW are planning to feed the world better than it has ever been fed before, to make it healthier than ever before. It is a glorious future to which we may look... but only after the war is won!

Are you working at your "war job" as hard as you can?

Are you saving and turning in wastepaper to help meet the serious shortage this country faces in the manufacture of containers for war materials?

Are you collecting and turning in every last drop of fat from your kitchen to help feed the hungry machines that turn it into TNT?

Are you heeding the Government's plea to

curtail your personal travel so that troops and supplies can move freely over our already congested transportation systems?

Have you added your blood to that of millions of others to provide life-saving plasma for our wounded?

And have you increased your purchases of War Savings Certificates and Victory Bonds to the limit of your ability... and are you holding on to them?

Only by working as hard as we can at these and scores of other "war jobs" will we be sure of Victory... and the ever-ripening fruits of Victory. Let us all be MEN WHO THINK OF TOMORROW!
