

## WORTH WHILE

### Wasn't it?

• Citizens of Ontario have responded splendidly in support of necessary restrictions in the use of electricity. Inconvenience from "dim out" conditions, darkened store windows and partly lighted streets have been patriotically accepted in order to save power for the tools of victory. The additional voluntary savings of power by Ontario people also contributed substantially to the victories in Europe.

Your Hydro, which had the responsibility of carrying out the orders of the Dominion Power Controller in Ontario, is grateful for the co-operation of Hydro users.

One trying phase of the war is passing. Now, by conserving and concentrating our efforts for final victory, we may look forward with confidence to an early day when abundant power will be available for peacetime use. The added strength that we have built for war can then be used to bring greater light and safety to more Ontario streets and homes, and take over innumerable tasks on farms, in our homes, and industries.

Plan now to take full advantage, after victory, of the added leisure, convenience and safety that abundant electricity can bring to you.

**THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO**

### Dr. Arthur Ranney Laid To Rest in Georgetown

A graveside service was held in Greenwood Cemetery, Saturday afternoon, September 16th, for Dr. A. E. Ranney, North Bay, and formerly a well-known native of Georgetown. Venerable W. G. O. Thompson conducted the service for a former faithful St. George's Church parishioner.

Relatives and friends gathered in St. Brice's Anglican Church Friday morning, September 22nd, to pay final tribute to Dr. A. E. Ranney, M.O.H., who passed away at St. Joseph's General Hospital in North Bay a short time after midnight on Wednesday. Members of the immediate family, many friends, North Bay Council and members of the North Bay Medical Association thronged to the church at 10.30 o'clock Friday morning to attend the funeral services.

A solemn silence prevailed over the gathering as Rev. S. V. Hatt paid verbal tribute to the long years of faithful service performed by Dr. Ranney during his 19 years as medical officer of health. "North Bay has lost a faithful servant in the death of Dr. Ranney," Rev. Hatt said. "His death is a loss to his family to the church, and to the medical association. His personality will go on living among those who know him—his hopes and ambitions for North Bay will be realized; his memory will ever be vivid in our minds," Mr. Hatt said.

Pall-bearers for the funeral were Dr. J. R. Hall, Dr. S. W. Bromley, Seth Bush, B. G. Gosse, Harry Reynolds and Robert McKee. Honorary pall-bearers were Doctors G. W. Smith, D. A. Campbell, K. Y. Sinclair, L. L. Crowe, E. J. Brennan and I. Joyal.

Out-of-town relatives who attended the funeral services were Mrs. Arthur Ranney, Jr., of Niagara Falls, Ont.; Mrs. Harry Ernst, Buffalo, N. Y.; Capt. Malcolm Ranney, Halifax. Dr. Ranney's eldest son, Arthur Ranney, was confined to hospital in Niagara Falls, and was unable to make the trip to North Bay.

Medical Officer of health for the City of North Bay for 19 years, and one of this community's most respected pioneer residents, Dr. Ranney died on Wednesday morning following a lingering illness brought on by a heart ailment about eight weeks ago. He was 68 years of age. Born at Georgetown, County of Halton, he was the son of the late Mr. and Mrs. Malcolm Ranney. He was educated at public schools at Georgetown, and is a graduate of Trinity University and Trinity Medical College.

In 1901, Dr. Ranney took charge of the Muskoka General Hospital, where he remained for one year. He married the former Ethel Calvert of Toronto in 1902 and the next year moved to North Bay, where he made his home up to the time of his death. His widow, three sons, Arthur of Niagara Falls; Capt. Malcolm of Nova Scotia, and Frederick William, North Bay, and one daughter, Mrs. H. Ernest, Buffalo, survive him. Also surviving are six grandchildren.

Succeeding the late Dr. E. Brandon as North Bay's medical officer of health, Dr. Ranney assumed that post in 1927 and served until his death.

An earnest crusader in the cause of high standards of public health, Dr. Ranney worked untiringly in the combatting of tuberculosis. It was largely through his ceaseless efforts that various clinic services came to North Bay. Dr. Ranney appeared regularly before city council in his endeavors to improve upon health standards in North Bay.

Dr. Ranney was a member of the Ontario Medical Association and the North Bay Medical Association, upon which two groups he has served as president. A public speaker of some distinction, he was frequently called upon to address medical conventions in Toronto. One of his greatest ambitions was to witness the clean-up of the Chippewa Creek health menace. A staunch Anglican, Dr. Ranney was a member of St. Brice's Church at the time of his death. He had been a member of the Church of St. John Divine in former years.

#### CHILDREN'S UNDERWEAR

Working under government instructions, manufacturers are turning out enough underwear to meet the essential needs of Canadian children. But, with the limited number of skilled workers available, they cannot keep up with the tremendous demand.

Underwear requirements by the armed services, particularly for winter weight garments, are extensive and large labour forces must often be diverted from the production of children's and other underwear to the manufacture of garments for the fighting men and women.

Mothers are urged to buy only what they need, so the available supply may be distributed fairly.

Foreign Secretary Anthony Eden said in the House of Commons that the American people could rely on the full support of the British Government in the announced aim of President Roosevelt to bring to justice all Japanese responsible for the execution of American flyers who bombed the Japanese homeland.

King George I of England was nicknamed "Farmer George" because he expressed the opinion that Hyde Park should be used for growing turnips.

### YOUR EYES

If you attach as much importance as we do, you will be a patient of ours.

We have kept up-to-date by taking post-graduate courses, using good equipment and have over twenty-five years' experience in eye examination.
