

Sgt. C. W. Douglas Sends Interesting Document From Italy

One of our readers has brought in a very interesting document, sent from Italy by Sgt. C. W. Douglas of Limehouse. Doug worked for George Leslie, 4th Line, Esquimaux, at time of enlistment. The document is a "Safe Conduct" certificate issued in Britain, and dropped by the thousands behind the German lines.

The certificate is signed by the Commander in Chief of Allied Armies in Italy, H. R. Alexander, and states: "The German soldier who carries this safe conduct is using it as a sign of his genuine wish to give himself up. He is to be disarmed, to be well looked after, to receive food and medical attention as required, and is to be removed from the danger-zone as soon as possible."

These passes are to enable and encourage the German soldiers to pass through our lines to the base, and are respected by our men. On the back of the certificate is the following, printed in German of course:

"Agreement from Capital 2, Article 8, Agreement No. 864, under the General Conference on July 27, 1929. Prisoners of War, in Allied hands, receive the same portions as Allied soldiers. The meals that are served are prepared by their own soldiers to their own custom of cooking in their country. In America or Canada prisoners of war receive for work inside or outside of the camp 80 cents a day. Half of the allowance goes into the bank which is paid after the war. The other half is paid in coupons with which prisoners can buy cigarettes, sweets and soft drinks in camp. The prisoner of war can have any kind of sports, concerts, listen to the radio and read newspapers for their entertainment. Mail from the prison camp to the homeland goes through the Red Cross and sent as fast and safe as possible. After the war prisoners of war are sent back to their homeland as soon as transportation can be arranged."

Sgt. Douglas enlisted in the Lorne Scots in June, 1941, and has been in Italy since the beginning of the campaign.

HYDRO Lightens The Way!

THEY WOULDN'T HAVE BELIEVED IT!

The gay nineties weren't so gay, by today's standards. Think how the folks then would have felt had anyone told them of the wonders of the modern motion picture theatre. They wouldn't have believed it!

In the transition from those days to this modern age we owe a great deal to electricity. Today—we are dependent upon it in hundreds of ways. It will do more for us in the days to come!

In the future Hydro will serve industry, the home and the farm in even greater measure than in the past. Plan now, to let Hydro lighten your tasks and make your living more comfortable in the brighter days ahead.

The worst inflation came AFTER the war the last time . . . to be followed by disastrous deflation, unemployment and confusion. For Canada to manage successfully the change back to peace, maintain employment, and meet the world's competition . . . we must continue to have stable economic conditions. To protect the individual from rising costs of living and later unemployment we must continue to prevent inflation.

To prevent a repetition of the conditions following the last war
PRICE CONTROL MUST BE MAINTAINED
 AS LONG AS INFLATION THREATENS US.

This can only be done if production is efficient and economical, costs are kept down and consumers refuse to pay more than ceiling prices.

One person can start it!

When one person demands more for goods or services he compels others to do the same—and Price Control goes out the window.

THIS IS ONE OF A SERIES ISSUED BY THE GOVERNMENT OF CANADA TO EMPHASIZE THE IMPORTANCE OF PREVENTING A FURTHER RISE IN THE COST OF LIVING NOW, AND DEFLATION LATER
