FOG BOUND EYES SPOIL WORK

Eyes that blur, mist, see double, tire easily — are faulty eyes. They misread blue-prints and instruments. They spoil material. They waste time and money. They slow down production, as well as make your work difficult.

HOCKEY

The ban was placed on home-racing in the U.S.A. recently, coupled with the rumor at that time that big league baseball might also be discarded, gave rise to a good deal of discussion about the continuance of Pro Hockey. Most of us will agree that hockey should be continued both for us at home and for the boys overseas as well. The Saturday night broadcast of Pro. hockey games being perhaps the most popular program that covers the whole Dominion. No doubt different towns listening in have different favorites according to the players on each particular team, as all teams have mostly Canadian players. But no matter what team we may be pulling for we wouldn't want to have hockey banned even in war time. The broadcast itself is a nice change from so much war news. These are anxious days for those of us who have boys in the thick of it in Germany and a program like the Hockey Broadcast helps us forget, for the time at least, that there is a war on.

The regular season which has recently been completed has been an interesting one. It might be of interest to compare this season's standing of the first four teams with that of the standing last year. Last year Canadiens had 83 points, Detroit 58, Leafs 50 and last year Chicago was in fourth place with 49 points. This year Canadiens had 80 points, Detroit 67, Leafs 52 and this year Boston managed to slip into fourth place with 36 points. You will notice that Canadiens slipped a little this year, as compared with last, while both Detroit and the Leafs improved their standing slightly. Last year Canadiens won both the N.H.L. Championship and the Stanley Cup and apparently were headed to repeat again this year. However, nearing the end of the regular schedule, they slipped slightly and as a result were not in top form for the semi-finals. They not only expected to win the championship and the Stanley Cup but they also were out to break all records for scoring in a single season, and which objective their Rocket, Maurice Richard, did attain. One wonders had Dick Irvin been satisfied with slightly lower results earlier in the season, even had he advised his players to go easy on the corn syrup along in February and given them a easier time of it, then his team might have hit the semi-finals at their peak instead of at the ebb, as they did, the results might have been different. Last year the Leafs and Canadiens met in the semi-finals and the Leafs only were able to win the first game of the series. This year they managed to win the first two games right in Montreal, were beaten in the third game won the fourth and again were beaten in the fifth and won the sixth. It was an exciting series. The fourth game was tops in our estimation. Montreal seems to become more excited over their team success than do the Toronto fans. Last year you may recall the way that Elmer Ferguson, of the Hot Stove League failed in his efforts to sell us any popularity that we might otherwise have had for the winners. He missed a good opportunity we thought. However, this year it was different and we thought Elmer Ferguson great in defeat. Of course it is quite an asset to know how to win, but maybe it is even a greater asset to know how to lose.

ADMISSION 50c

IN MANY WAYS BETTER THAN

You will want cash if you plan to improve your home when the war ends...

You will want cash if you plan to improve your live stock...

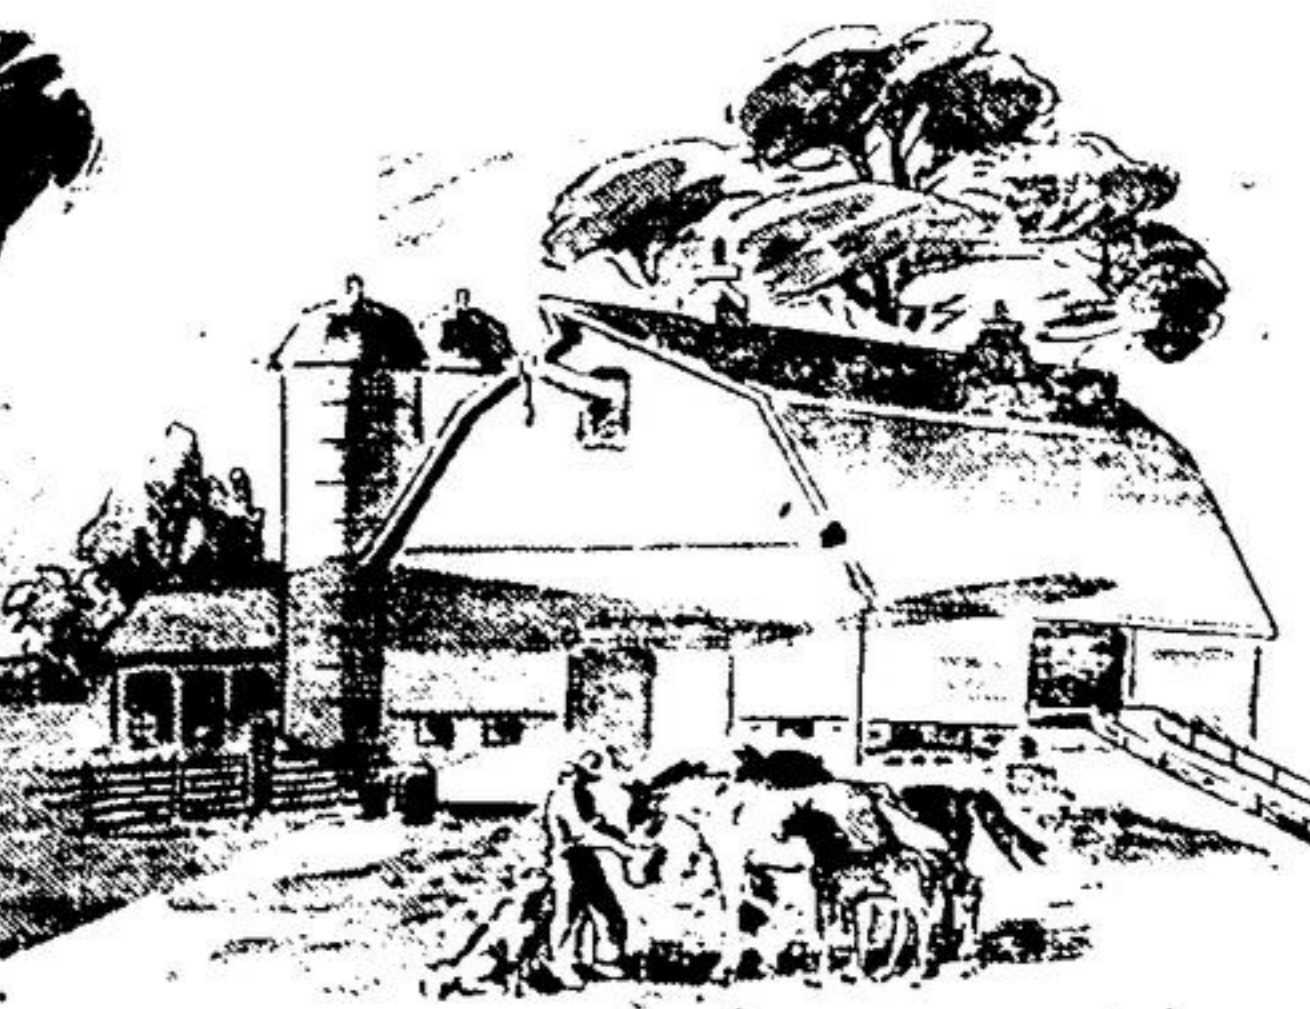

Managing a farm is in many ways similar to managing any other business. That is why reserve savings in liquid form are so helpful to a farmer.

Victory Bonds provide the handiest form in which savings can be kept with safety. Their security is without question. They represent money owing to you by the Dominion of Canada, just as dollar bills do. And... better than dollar bills... they earn interest for you every day you hold them; even when put away for safe keeping in a bank vault or in a safe. They pay double bank interest.

You can get cash for Victory Bonds if you need cash in an emergency. Any bank will buy them from you. You can borrow on them, without any formality. Simply take them to any bank and get the loan you need. The interest the bonds earn pays a large part of the bank interest on the loan.

So, realize this fact, Victory Bonds are better than cash because they earn interest.

Buy Victory Bonds to have cash where you need it, when you may need it. Buy Victory Bonds to help maintain your country's war effort.

You will want cash if you plan to build new barns or install new barn equipment...
