

Another Hydro Rate Reduction For All Rural Consumers

A further Rural rate reduction from 4c to 3½c per kilowatt hour on the first block of energy used in any one month by Hydro Rural consumers, will go into effect on all bills rendered on or after May 1st, 1945.

This Rural rate reduction will mean a saving of approximately \$300,000 a year to Hydro Rural consumers.

The New Uniform Rate Structure Will Be:

- 3½c. per kilowatt hour for first block of energy. (formerly 4c).
- 1-6½c. per kilowatt hour for second block of energy.
- ¾c. per kilowatt hour for all additional energy.
- No service charge on Farm Service . . . a service charge of 56c gross per month on Hamlet Service.

The more Hydro you use the less it costs on the average per kilowatt hour. Increased use therefore brings lower costs. The important revisions in Rural rates, made effective in January, 1944, have resulted in a greater use of energy, enabling the Commission to further reduce the cost of electricity to Hydro Rural consumers in Ontario.

April Showers Ahead!

Better have your Umbrellas Repaired

- Umbrellas are definitely among the things that are getting pretty scarce. That's why it's so important that we make the most of those we have. If your Umbrella needs recovering, if it needs a new cord, tip, ferule or rib, bring it to McBean & Co's.
- We'll gladly give you an estimate on repairs. It may take 3 weeks to fix it, so don't delay.
