

PLANT SHOWS FOR MANY WORKERS

The work of the National Film Board in developing motion pictures for Canada has been outstanding. Up to a few years ago, production of films in this country was limited to the very few which were produced for advertising and educational purposes. It is improbable that "Features" will be produced here, at least for a long time to come. This is a natural result of the relative size of our population compared with that of the United States and Great Britain. So our field of activity tends to be the "short" or "documentary" film. In this field Canada is turning out some of the finest work. For general public showings, the series "Canada Carries On" and "The World In Action" are distributed and shown not only in Canada but all over the world. They compete for bookings with the product of other countries and are accepted on their merits. These shorts have earned applause from people of our neighbour nations and are giving them valuable information about Can-

TOPS AT MIKE

A new departure in movies has been the establishment of "Industrial Circuits" on which films are shown to groups of employees. The first of these circuits went into operation in January 1943 and now there are forty operators from coast to coast. They set up their projectors in industrial plants, lumber camps and mining centres and each month 900,000 Canadians see their films. Further services of the Film Board include supplying films for community groups, such as service clubs and farm organizations. These are shown in halls and meeting places throughout the country. Reporter: "And now that your son is a big movie star, does he ever come back to the old farm?" Pappy: "Yessirree, every summer. Every one of the five summers he's been away." Reporter: "And did he bring his wife with him?" Pappy: "Every time. And they was five as purty girls as you ever laid eyes on."

TOPS AT MIKE

Shakespeare production on stage and radio, summer stock, and barnstorming through Canada and the United States are all part of the histrionic past of Jane Mallett. She's shown before the milke in New York, and for the past eight years has been shining in Toronto, her native city. She may be heard on "Stage 45," over the CBC Trans-Canada network, Sundays, at 9 p.m., and in "This is Our Canada," on Fridays at 8 p.m. (From a pastel by Dorothy Stevens.)

SON OF LORNE ERWIN SURVIVOR OF HMCS TRENTONIAN

ERA Jimmy Erwin, son of Mr. and Mrs. Lorne Erwin, Toronto, and nephew of Edward Fred and Robert Erwin of Georgetown is a survivor of the torpedoed corvette, HMCS Trentonian, and is on survivor's leave at his home in Toronto. The attack occurred in the afternoon, about 120, according to Jimmy. He was on duty at a depth-charge thrower on the portside when the torpedo hit. There was a loud explosion. Then the bridge ordered them to beat stations. By that time the ship was sinking by the stern. There was no panic of any sort. They walked to their boats and carley floats and then awaited further orders. When the bridge ordered "Abandon Ship" he jumped over the side with several other chaps. They never got the float away, it all happened so suddenly. He and several other survivors floated afoot in the water for 40 minutes until picked up by Royal Navy motor launches. Luckily the water was smooth, and the weather fine. In ERA Erwin's opinion, it was the life-jackets that saved the day. Each man was wearing one when the incident occurred and, consequently, no lives were lost through drowning.

UNITED W.M.S. HEAR CHINA MISSIONARY

Mrs. H. J. Mullett, missionary to West China, was guest speaker at the United Church W.M.S. Easter Thank Offering, Tues. afternoon April 3rd. Mrs. Mullett was on the staff of the University at Chengtu while in China. Her husband, Dr. Mullett, a United Church Dental Missionary, was interned by the Japanese when Hong Kong fell, but was repatriated on the Gripsholm in 1943, after two years in an internment camp. Just recently he returned to China to resume his work there at West China Union University. Mrs. A. M. Nielsen presided at the meeting, and Mrs. C. Hayes conducted the worship. Miss Mary Moyer, accompanied by Miss Molly Hepburn, rendered a lovely solo, "Abide With Me". Mrs. Mullett's address on "The Women of China" was most inspiring. She divided the women of China into three groups. 1. A negative group, those whose husbands ruled China during the Mahouh regime. They are fine women, she said, but have not the spirit to assume any leadership in the new China. 2. A destructive group—women whose husbands ruled China in the early days of the Republic, and were addicted to opium smoking, lengthy feasting, idleness, and used their power for their own ends. 3. A constructive group. The spirit of these women is that of the new China. "There are," said Mrs. Mullett, "twenty thousand girl guerrillas in the interior of China, conducting an educational programme among the illiterate peasants in the country district, and organizing them into a resistance force against the Japanese invader. Only twenty percent of the population is literate. But there is great hope for China in the fact that eighty per cent of her leaders are Christian."

REPEAT PERFORMANCE OF SACRED CANTATA

A repeat performance of the sacred cantata "Olivet to Calvary" was held in the United Church last Thursday evening, with a fairly well-filled Church. The beautiful music was again very well sung by the combined choirs under the conductorship of Miss Lynda Stewart, ATCM.

"BEAUTY IN THE BASTILLE"

Greedy for adulation, wealth and power, famous French charmers collaborated with the Nazis, and now are in the hoosegow to account for their conduct when the enemy took over Paris. The story of these lovely traitors is told in "Beauty in the Bastille" starting in The American Weekly with this Sunday's (April 15) issue of The Detroit Sunday Times.

THE ROYAL COMMISSION ON EDUCATION

which has been appointed to enquire into and report upon the system of education in Ontario will hold its first sessions in the Senate Chamber of the University of Toronto at 10 a.m. and at 2 p.m. on April 11, and on April 12, 1945, under the Chairmanship of the Hon. Mr. Justice J. A. Hope.

Such briefs as are submitted on or before April 10, 1945, will be given preliminary consideration at the first sessions. Briefs submitted after April 10, 1945, will be considered at subsequent sessions of the Commission.

The sessions are open to the public.

All organizations interested in any of the problems related to public education are invited to submit briefs to

R. W. B. Jackson, Secretary,
Royal Commission on Education,
Parliament Buildings, Toronto.

HE CAN DROP A TREE ON A HANDKERCHIEF...

• JIM is a feller. He and thousands of other hard-working woodsmen have been going full out to meet wartime demand for pulpwood. It is needed for pulp to make paper, for explosives, plastics, rayon, millions of paperboard shipping containers and a host of other war uses.

Hats off to Jim and all the fellers across Canada who have been doing a grand job of cutting with fewer men. We're proud of the work they're doing in an industry which means so much to Canada and all free nations throughout the world.

***THE PULP AND PAPER INDUSTRY OF CANADA**
