FULL EMPLOYMENT AT FAIR WAGES is the Foundation of all True Progress

"The people of this nation are tired of the delay in correcting the weaknesses that have developed in our system . . . We must correct these obvious weaknesses in the economy we have, by rationalizing it—not by wrecking it. We must maintain the system which gives full play to individual initiative, and a fair return to all legitimate enterprise which provides employment; and the State, by just laws relating to workers, must see to it that at no time shall there fail to be provided the opportunity for a fair day's pay for a fair day's work for every one of our fellow-citizens in this Dominion who is able and willing to work."

John Bracken

We mean to see that every Canadian citizen able to work has the opportunity to work at fair pay.

- RATIONAL REFORM
- MAXIMUM PRODUCTION THROUGH THE FULL DEVELOPMENT OF OUR NATURAL RESOURCES
- FULL EMPLOYMENT AT FAIR WAGES

These are the pledges of the Progressive Conservative Party.

For full employment embracing all Canadians of every Province,

WE WILL:

- Help individual and co-operative enterprise to increase employment by revising crippling tax systems, by removing controls and regulations which slow down the expansion of legitimate enterprise, and by improving relationships between the Government, Labour and Management;
- Establish a National Development Board responsible for plans for full production and employment, as well

as the preservation of our natural resources;

- Increase our trade by establishing an Export Board, by aggressive salesmanship abroad, by continuation of mutual aid until no longer necessary and by provision of trade credits to economically backward countries;
- See that the powers of the Bank of Canada are used to supply ample credit for an expanding economy;
- Undertake a carefully planned programme of socially desirable projects, such as low-cost rural and urban housing, rural electrification, conservation and reforestation, the development of natural resources—all on a national basis.

These Progressive Conservative policies are carefully and confidently pointed at a practical national objective—the realization in our time of an age of plenty.

Only the Progressive Conservative Party, with its far-sighted policies for the co-operative development of every part of Canada to new heights of prosperity—a prosperity in which ALL Canadians shall share fairly and honorably—only this Party faces the challenge of the future with abiding confidence in the ultimate realization of the practical objectives embodied in its practical policies for full employment at fair wages.

The Truth About Drew's Immigration Policy

Don't be deceived by "Fantastic Nonsense"—Read the Premier's Own Statement on This Important Matter.

"In view of some strange statements that have been made about Ontario's plans for immigration, I think I should tell you exactly what they are. We have taken the position THAT NO LARGE-SCALE IMMIGRATION SHOULD BE PERMITTED UNTIL SUCH TIME AS THE RE-EMPLOYMENT OF OUR VETERANS AND MUNITION WORKERS HAS BEEN ASSURED. But with our confidence about the future of this Province and of Canada, and our faith in its expanding production and prosperity, we are convinced that immigration will be resumed throughout the whole of Canada, and we believe that when the time comes for such immigration we should have plans which will assure the very best type of new citizen in this province."
