### C.Q.M.S. JOE EMMERSON AND PTE. GORD. LANE EXPECTED HOME TONIGHT

As we go to press, word has come from the Public Relations Branch M.D. 2, that C.Q.M.S. Joseph T. Emmerson, Lorne Scots, whose wife, Mrs. Lena Emmerson resides on Main St., and Pte. Gordon W. Lane, son of Mr. and Mrs. R. Lane, are arriving in Toronto from overseas, tonight, May 23rd. Pte. Gordon Lane is a veteran of Dieppe, where he was wounded. Word has also just been received that W.O. Johnny Wilson, liberated prisoner-of-war has arrived in New York.

HUGHES CLEAVER

Liberal Federal candidate for Haldon County

To the Electors of Haldon County:

As there are only three issues of the weekly press between now and election day, I will endeavour to cover as fully as I can the platform of the Liberal party in three letters, dealing this week with agriculture, next week with labour and in the final week with health, Family Allowances, Unemployment Insurance and other social security measures.

I should at once state that the Liberal party makes no special appeal to any group or class in Canada. We believe that Canada can only be prosperous if all of the three main groups, namely agriculture, labour and capital, are fairly treated, and are prosperous. The Liberal party favours no one class, but on the contrary seeks the prosperity of all three classes. We seek the support of men of good will in all three groups. As to agriculture no one can deny the fact that this industry is not as prosperous as it should be. It is true that agricultural income has advanced sharply during the last few years, but here are the facts. 30% of our people are engaged in agriculture. If this industry were fairly treated, it would be receiving approximately 30% of the national income. During the fifteen years prior to the war, agriculture received on the average less than 15% of the national income, which is barely half of what it should have received. As a result we have a depressed agriculture. I can take you to any township in this county and you can buy any farm with a good set of buildings on it for less than what it would cost you to build the buildings. Is any further proof required of the depressed condition of agriculture? While it is true that in some instances farmers are themselves to blame through being inefficient farmers, yet these exceptions do not prove anything. Our task is to see that in the overall picture agriculture receives its fair share of the national income.

Our farmers produce quite large surpluses of food stuffs which are worthless unless marketed abroad. The Liberal party has always encouraged foreign trade and this is why our farmers have been more prosperous under Liberal governments than under high tariff governments, but from the experience which I have gained through ten years of service as your Member, I firmly believe that foreign trade is not enough. I believe that all Canadian food products which we sell abroad should be finished products. For example, we should sell bacon to Britain, instead of grain to Denmark to produce bacon in Denmark for the British market.

The present Liberal policy is that by maintaining floor prices for staple farm products, by taking the tariff off farm implements, by making proper credit facilities available for farmers through amendments which have been made to The Bank Act and by trade agreements, we will restore agriculture to her proper place in our economic life. All of these provisions will be of very material assistance, but personally I have some doubt as to whether these provisions will yield the full results which are desired. I believe it may be necessary to subsidize labour of agriculture to the same extent that we subsidize our labour of industry through tariffs. Only the future will tell whether I am right or wrong, but we do know that if agriculture is prosperous this industry alone will employ a half million more men than it today employs on farms. Our Prime Minister, in his recent answers to questions published in Maclean's Magazine, stated very clearly that the Liberal party is pledged to a policy which will assure to agriculture its proper share of the national income.

In closing I would like to emphasize the fact that there is one thing which farmers can do for themselves. I refer to organization. Agriculture should be fully organized in order that the industry may be properly directed as to what products it should produce and in what quantities and in order that the industry may be able to intelligently convey to the government in office the needs and problems of the industry.

Yours sincerely,

HUGHES CLEAVER,

### Assessment Appeals Township of Esqueving

Take notice that a Court of Revision will be held in the Council Chamber, Stewarttown, on TUESDAY, the 5th DAY OF JUNE, 1945, at 10 a.m. to hear appeals against the Assessment Roll of 1945.

### Liberal Working Plan for Full Post-War Employment...

**For Veterans**—\$750,000,000 to get them started in good paying jobs in industry, on the land or in business for themselves as each of them chooses.

**Housing**—\$400,000,000 to finance the biggest building scheme this country has ever known.

**Family Allowances**—\$250,000,000 a year to lessen the burdens of parenthood and to equalize the opportunities of young Canadians for success and happiness.

**Export Credits**—We've got to have exports if we're going to have jobs. Your Liberal Government has arranged to finance war-wrecked countries who will be good customers later.

**Industrial Development Bank**—Your Liberal Government has set up machinery to help enterprising Canadians develop new business.

**Farm Loans**—One man in every three in Canada works on the farm. To help them get better equipment, your Liberal Government has arranged that they can borrow the money they need for better working and living conditions.

**Price Controls**—The Liberal Government's policy is that when farmers and fishermen prosper, so do other Canadians. It has therefore taken action to put a floor under the prices of farm and fishery products.

**Reduction of Taxes**—Your Liberal Government believes in jobs first. To this end, taxes will come down to free spending power.

These are just some of many steps in the Liberal Government's Working Plan to ensure full employment after the war. In addition it has stimulated tremendous private savings in Victory Bonds and War Savings Certificates; put through Unemployment Insurance, set up a special Department of Reconstruction staffed by experts. In fact all its policies are directed to the same end—a "high and stable level of employment and income."

**JOB!** Jobs with bright futures for the young men and women coming out of the Armed Services with the best part of their lives before them! Jobs for all! Jobs with big prospects and good, reliable money that will keep its buying power! After all the hard work, sacrifice and self-discipline which has brought us through the war, the people of this country have earned a brighter future in a better, juster, grander Canada than we have ever known!

**LOOK** how much Canadians have accomplished, here on the home front, even without the energy and initiative of all the vigorous young people now in uniform, and their zest for daring! What is there Canada can't do with them back on the home team? Why, with their help, we Canadians are headed full speed for the greatest period in our history!

**THE** all-important question today is the civilian staff-work and leadership which we call "government." The Liberals have a working plan. It's big and bold! Parts of it are outlined for your judgment in the left-hand column. It has been designed with the aid of the keenest minds in every phase of industry, agriculture, labour and learning. The plan will work. In fact it is already bringing results. It will continue to do so! The Liberals can tell you this with confidence because they have had successful experience in operating nationwide plans.

**VOTE** for your Liberal candidate. Make sure the team which made this plan for full employment shall see it through—and win the peace!
