CORDIALLY INVITED

## Introducing PEERLESS PETE

1. PETE SWEATS IT OUT  
2. PETE GETS A SHOWER  
3. PETE GETS ON-PLU-S-O  
4. PETE GETS A BEAUTY BATH  
5. PETE GETS A NEW SUIT

PEERLESS PETE represents a drop of Peerless Motor Oil. His adventures—as seen by our artist—will take Pete all the way from the time when B-A specially selected him from their own wells, through the famous 5-point Clarkson process, up to where alloyed against wear, he does a better job in your car, truck or tractor! Watch for more adventures of Peerless Pete!

High Vacuum Distillation... removes all asphalt, "heart cuts" all into different B.A.K. grades giving easier starting in cold weather lower oil consumption in hot weather!

Forced Treating scrubs and washes out carbon fractions useless for lubrication. It is chiefly in this process that B-A Peerless Motor Oil gets its unusually high V.L. (Viscosity Index).

M.E.K. De-Waxing, at sub-zero temperatures. This removes all the wax, which in our Canadian climate, may adversely affect the "pour point" of lubricating oil in cold weather.

Catalytic Clay Filtering removes the last remaining vestige of impurities which might cause engine failure... gives Peerless Motor Oil its brilliant, sparkling, amber colour.

"Alloying" protects the molecules of Peerless against lubricating oil's natural tendency to oxidize forming harmful deposits in the engine of your car—protects against wear!

### SUMMER DRIVING TOUGH IN OIL

In the summer you drive longer distances more often... put more strain on the lubricating oil in your car's engine. It will pay you this year to switch to Peerless Motor Oil! "It's Alloyed" against the effect of heat. Drive to the sign of the big B-A and ask for Peerless Motor Oil!

"It's Alloyed!"

THE BRITISH AMERICAN OIL COMPANY LIMITED
