

**LIMEHOUSE**

(Intended for last week)

The June W.I. meeting was held at Mrs. Jamison's on Thursday, with the program in charge of Mrs. Smethurst, the historical research convenor. The meeting opened by singing "One Wide River to Cross," followed by a Thanksgiving prayer. The roll call, an item of interest about Gibraltar school at Limehouse, brought stories of accidents, fights, comical sayings, twelve former pupils are in the service, fifty-six pupils handled by one teacher, and a forty-year-old picture of teacher and pupils was on display. Mrs. A. W. Benton read current events, Mrs. W. Mitchell the motto: "Dare to do right, Dare to be true; the failures of others can never save

you," and Mrs. Smethurst an interesting tale about early days in Sodam—now known as Halkonville in Nassageweys. Mesdames Noble and Meredith obliged with a suitable vocal duet, "Seeing Nellie Home." A number of business items were transacted including the ordering of eight cases of jam for overseas, a donation of \$5 to the Georgetown Rehabilitation Committee, and the short course, "The Furnishing of the Living-room" was chosen for the autumn. Stewarttown branch to be invited. Mesdames Wright and Mitchell were appointed the financial committee for June. Those appointed to compile a Tweedsmuir Village History included Mesdames Smethurst, Mitchell, Kirkpatrick and Ellert. The members appointed Mrs. E. Sanford and Mrs. E. Miller as delegates to

Word of whose promotion from the rank of Major was received last week. Lt.-Col. Barber is the first Georgetown man in the war to reach this rank in World War 2.

the memorial hall committee. The hostess served refreshments following the National Anthem. The sympathy of the entire community is extended to Mr. Jos. Scott and family at the time of the sudden passing of Mrs. Scott on Saturday. Mrs. Edwards and little daughter, of Paris, is visiting her cousin, Mrs. Spitzer. Mrs. R. Lane is spending a few days in Toronto. Mrs. Fred Brown is under the doctor's care at present. We hope that she will soon be well again.

**MITES INTO MONSTERS**

A very powerful electron microscope, capable of magnifying 50,000 times, has been installed in McGill University, and will be used in scientific study related directly to the war effort. The only other machine of its type in Canada is at the National Research Council at Ottawa. The instrument, which weighs 45 lbs. is contained in a console cabinet standing about six and a half feet high. Engineers, who installed the microscope described it as a "great instrument."

**Hand Milking is on the Way Out**

Freedom from the tiring and tiresome job of hand milking twice a day has been gained by thousands of farm families through the use of a modern milking machine.

One person can milk up to 20 cows in an hour with a milking machine—it keeps a good hand milker busy to milk 7 to 9 cows in the same time.

This saving of time and labor is important, especially when good farm help is hard to get, but at any time milking is a disliked chore that the family is glad to have taken off their hands. The hours of time saved with a milking machine does mean something in dollars and cents but it means a lot more in making farm life easier and more pleasant. Everybody welcomes the relief from the milking time blues that a milking machine brings.

The modern, practical and economical way to do things is to use machines instead of muscles wherever possible—that is why hand milking is out for dairymen who have experienced the comfort and convenience of a mechanical milker.

Among the time and labor saving machines your local Massey-Harris dealer has to offer is the Rite-Way Milker—the modern milker with the natural action. Ask him for particulars about this machine that does so much to make dairy farming easier and more profitable.

**YOU CAN LIVE WITHOUT HYDRO but..**

Can you remember when making toast meant holding bread over red hot coals? ... and wash day meant hours of rubbing on a board? ... and oil lamps had to be cleaned and trimmed every day? Lots of people do remember those days when it took hours of toil to perform tasks that can now be done electrically in a few minutes. In a comparatively short period of time they have seen electricity grow from a small beginning into one of the most important and beneficial services in the world to-day.

To bring the electrical way of living to more and more people, Hydro has harnessed Ontario's great water power resources to provide this Province with an abundant supply of low-cost electricity enjoyed by few places elsewhere in the world. This is largely because citizens of Ontario co-operated to organize and support Hydro, and have built it up

through steadily increased use of its service. Hydro is completely self-supporting. It operates on a service-at-cost basis, and the more it is used the less it costs.

Here is how Hydro rates have dropped with increased use:

Year	Average Annual domestic use	Average cost per kilowatt-hour
1914..	270 kilowatt-hours	5¢
1924..	960 "	1.9¢
1934..	1716 "	1.5¢
1943..	2220 "	1.19¢

As you plan your post-war home remember that you will want more and more electrical comforts. When you build or remodel, be sure that your home is wired adequately, with plenty of wall and other outlets in every room. Plan wisely now to take full advantage of this Hydro of yours.

**"IN OUR MAIL BAG"**

Belgium, Mar. 25, 1945.  
Dear Editor:  
For the first time in many months I received a copy of the Herald wrapped around a box of chocolates sent by my wife. To choose between these two gifts is a very hard job, although chocolates are to be eaten and papers are not, then again you can read papers and not chocolates, so there isn't a great deal of difference.  
My latest letters have told me of the sad news concerning Hedley Shaw. I was the last home-town boy he met. One winter's night, while on patrol in Holland, we made contact across a small canal and I recognized his voice. It was a thrill for both of us out there to meet that way. We spoke for a few seconds in whispers and then parted. Unfortunately we never met again.  
Yesterday morning I walked into Bill Hillier in this convalescent depot, and of course we have spent some

time together discussing everything in general. Georgetown is the main subject though.  
My mail is coming through very good and I have received several parcels from the different clubs and organizations, all of which I am very grateful to receive.  
In another two weeks or so I should be back in A1 shape again (as long as you are still breathing you are A1)—joke. All joking aside, from the moment I was wounded I have received the finest care possible, the Canadian Nursing Sisters are doing a wonderful job and we that have had them help us in so many little ways, know it and appreciate it.  
I have written much more than I intended to, so I will close, hoping to receive more Herald's in the future.  
Yours truly,  
Wheldon Emmerson.

**GLEN WILLIAMS**

(Intended for last week)  
Mrs. Bernard Poole and children Bernard and Robert, moved to Toronto last week where they will join Pte. Poole who is stationed there at present.  
Guests of Mrs. Laura Poole on Sunday were: Mr. and Mrs. James Windell of Detroit and Mr. and Mrs. Tom Poole and son Leroy of Lambeth. It was a grand visit as Mrs. Poole had not seen her sister for some time. Also present were Pte. and Mrs. Bernard Poole and sons, Mr. and Mrs. Herb Hancock and son, and Mrs. Joe Norton and son.  
The Dominion was never so filled by overflowing with "promises" and it just occurred to us that if 20 per cent of them come true Canada will be the Promised Land.

—Don't forget that Georgetown Fall Fair will be held on Friday and Saturday.
