Mr. Will, Ford was present at the to get information on the use of oil Elm Street for walking and cycling to and lubricants and wers work. Mr. Ford explained that for brought to se some of the up-to-date several months of the year, the road installations in the Smith & Stone is practically impassable and that a cinder path put in sometime ago had On June 28th, Mr. Fuenzaliba, a washed out. He suggested that the of hill be cut down and the road graded, using the cut-off from the hill to fill in the low spot near the creek. Smith & Stone had done this on the factory side of the creek with good results. He had consulted the county engineer, who was of the opinionthat this could

be done for a cost of less than \$300. Council adjourned and went to kim Street to look over the situation. On their return to the Council Chambers. a motion was brought by Crs. Armstrong and Thompson that immediate steps be taken to grade the street and that the county engineer be consulted for advice. Mayor Cleave said that he hoped in the next few years to see when Frances Orpha, a bridge built over the creek and to Mr. and Mrs. Norman have the road properly opened up. and that he heditated to put much work on the project until the town was in a position to do the job right. After some further discussion, the that the road could be graded in such a manner that the work would be complementary to the later work of building a bridge and fixing the road for motor transport.

A delegation composed of Orale Reid, Herb, Cleave and P. W. Cleave was present to ask for a grant to the Esqueeing Agricultural Society, President Reid thanked Council for the interest they had taken in Pall Pair work by improved fencing and water facilities at the park and said that this year's fair was going to be bigger and better than ever.
