**LIMEHOUSE**

(Last Week)

The August meeting of Limehouse W.I. was held at the home of the President, Mrs. Ellerby, and program was in charge of the convener of Agriculture and Canadian Industries, Mrs. McVey. The roll call was answered by naming something each member had in her kitchen which was Ontario made. The motto: "Cheerfulness a recipe for a happy life," was taken by Mrs. Smethurst. Mrs. McVey read a short description of the manufacture of cotton and passed samples to show the cotton pad and the different stages of manufacture.

Business included acceptance of an invitation to meet with Georgetown at their September meeting, and to purchase a bank book for a member's new baby. Several members handed in enough names for an autograph quilt block, and were intending to contact more people. A committee was named to prepare for a bazaar later in the Fall which was made up of the executive with Mrs. Kirkpatrick as convener. A little gift of remembrance was purchased and presented to a helper who had moved away. Each member was to hand in for the next meeting an apron for sale at the bazaar, an article made from a feed or flour bag, and one pot holder. A display of pieced and named quilt blocks brought in enough for the fall fair display at Milton. Following the National Anthem Mrs. Ellerby served refreshments.

**WAR FROM THE AIR ON  
INFANTILE PARALYSIS**

An entire city will be the proving ground to test, with the most deadly fly-killer yet discovered, the potent chemical DDT, whether eradicating flies will wipe out infantile paralysis. Robert D. Potter, science editor, writes about it in The American Weekly with this Sunday's (August 19) issue of The Detroit Sunday Times.
