The bride is a graduate of the Gueiph General Hospital and the groom is a fourth year student at the Ontario Agricultural college.

Out-of-town guests were present from St. Catharines, Sheibourne, Creemore, Prince Albert, Toronto New York and Vancouver.

NEW INDUSTRY

In Nova Scotia, Irish moss is the basis of a flourishing new industry. This species of seaweed resembles parsley in appearance, contains a gelose which is extracted from the moss. Until 1939 when imports were cut off, this rare and highly important product had been imported from Ireland and since then production has already reached 1,000.000 pounds a year.

The gelose which comprises 90 per cent. of Irish moss, goes into a wide ariety of products in common use such as cosmetics, canned meats, cream cheese, shoe polish, ice cream, certain inks, dyes and leather dressings. A familiar use is the substance which prevents the chocolate in ohocolate milk from sinking to the bottom. Numbers of fishermen in Yarmouth county, Nova Scotia, now are employed in the simple task of rak-

NEW GLUE

Produced from coal and claimed to be 50 per cent. stronger than any other glue, resin or plastic, has been announced. The coal glue, according to the report, is resistant to water and is not subject to attacks by insects or lungi. Among uses cited for it are: laminating metal to metal and for paper, fabric, plastic, nylon and natural and synthetic rubber products. An important war use mentioned is laminating timbers for warships.

All over Canada, in cities, towns, villages and on farms, hundreds of thousands of men and women watch for the postman to bring dependents' allowance cheques as other people look for pay-day. They are people of all ages whose breadwinners are away on active service. They include returned men not yet back in civil life.

And soon there will be hundreds of thousands more back from the war. They will receive cheques to help them buy civilian clothes, to go to college, to get technical or vocational, training, to start in business for themselves, or to set up as farmers or fishermen. ..

The banks have to be prepared to cash all official cheques for these and a dozen other purposes-and to do so anywhere in Canada without charge. In fact, the banks supply Canada with the nationwide machinery to facilitate a grateful country's plans for restoring service men and women to civilian life.

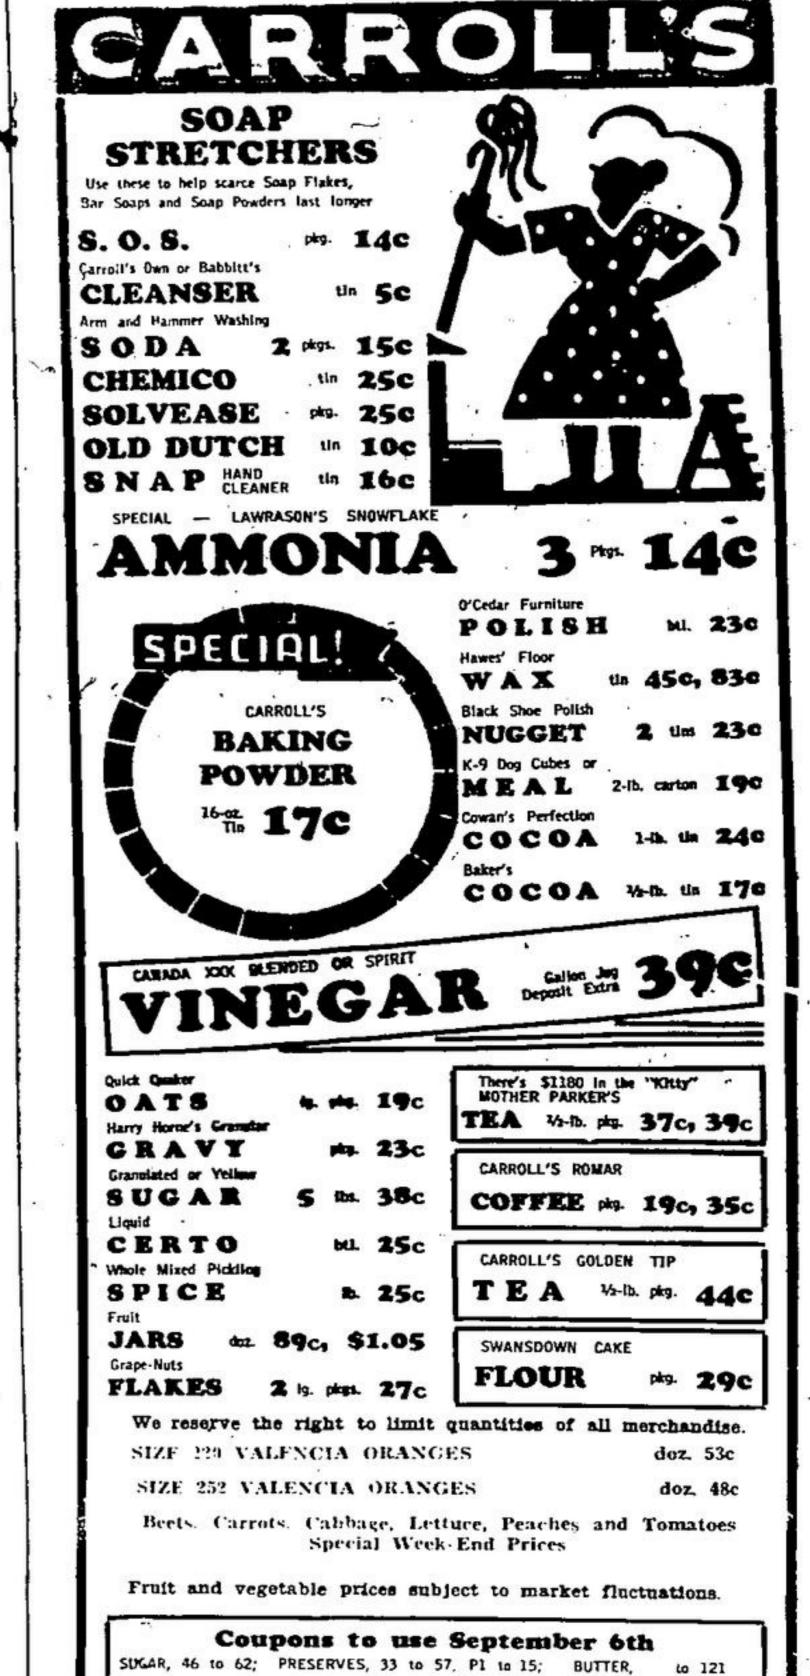

This is a tremendous task. It will entail a vast amount of bookkeeping. But you can be sure that your banks will take It in their stride without impairing regular banking service.

The first thing to look for on the synthetic tire you buy is the name of the maker. On GOODYEAR tires you will find The Greatest Name in Rubber! A name that stands for 40 years of research, experience and tire-building technique . . . your best guide to tire value. When you go Goodyear you go farther for less cost-per-mile of service.
