The TELEPHONE HAS SERVED THE FARMER WELL

For more than half a century, the telephone has served the farmer well... in business... in emergencies... in more pleasant living.

There was the farmer, for example, who wrote that his telephone enabled him to get better prices for his crops.

"It gets me to market in a few seconds," he said, "and at the best time."

Today, the number of rural telephones is at an all-time high. When materials and man-power are again available, it will be much higher. Telephone service for farms will be even better than ever before.

YOU CAN'T GAMBLE WITH

DEFINITION INFLATION

THE DICE ARE LOADED AGAINST YOU

Canadians are lucky. So far we've prevented inflation and avoided deflation.

It's not been just good luck.

Your support—everybody's support—of price ceilings, rationing and other controls alone has made it possible.

BUT NOW COMES THE REAL TESTING TIME.

The danger of inflation and its black shadow, deflation, will last as long as goods are scarce and insufficient to meet demands.

With the war over and plenty of money in our pockets it's easy to overlook the danger.

It's easy to think that paying just a little more to get something we want is unimportant now.

It's easy to think that what you do can't hurt—and to forget that careless, extravagant buying is a sure way to help a general rise in prices.

That's how inflation gets going.

BUT INFLATION IS ALWAYS FOLLOWED BY DEFLATION.

And deflation brings cancelled orders, bankrupt businesses, mortgage foreclosures, unemployment and distress—distress you can't avoid.

Until industry gets back to normal, price ceilings, rationing and other controls are our safeguard.

- SO—Keep on watching your buying. Don't rush to buy scarce goods.
- Keep on saving your money. Put it into Victory bonds and War Savings certificates.
- Keep on supporting wage and price controls, and rationing.
- Keep on fighting inflation and its black shadow... deflation.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation and unemployment later.
