

**IN MILKING, TOO,
MODERN MACHINERY
Eliminates the Drudgery
of Hand Labor**

Why do by hand, work that can be done quicker, easier and cheaper by machine? Why put up with the drudgery and the time- and money-wasting disadvantages of hand milking, when you can enjoy the convenience and profit-making advantages of doing this wearisome daily task by simply installing the Massey-Harris Rite-Way Milker in your barn? Ask your local dealer for particulars.

**MRS. TIMOTHY REED DIES IN
GLEN ALLAN**

Sarah Matilda McKane, beloved wife of the late Timothy Reid, died at her home in Glen Allan, on Friday November 23rd. Until she went to Glen Allan to live, about 17 years ago, the late Mrs. Reid had lived all her life in this district, and many friends will mourn her passing.

Born at Linwood, she was a daughter of the late James and Marjorie McKane. When she was quite young, the family moved to a farm in the Union District. Upon her marriage to the late Mr. Reid, they made their home on the 9th Line. Mr. Reid predeceased his wife 23 years ago. After his death, Mrs. Reid moved to Georgetown and resided on Emery Street two years, before going to live in Glen Allan.

Always active in church work wherever she lived, Mrs. Reid was a member of Norval Presbyterian Church. Surviving to mourn her loss are one brother and four sisters: James McKane, Cheltenham; Mrs. H. G. Clark, Toronto; Mrs. R. C. Gibson, Hamilton; Mrs. G. S. Fraser, Hamiota, Man.; and Mrs. B. Petch, Georgetown.

The funeral was held from the home of her nephew, A. H. McKane, 5th Line West, Chinguacousy, on Monday November 26th. The Rev. C. C. Cochran officiated at the service, and interment was in Greenwood Cemetery, Georgetown.

The pallbearers were six nephews: Robert and William Reid, James McKane Jr. A. H. McKane, Clarence Anderson and Frank Petch.

**SHORT COURSE IN AGRICULTURE
PROPOSED FOR HALTON
DISTRICT**

It has been announced by Agricultural Representative J. E. Whitelock that a 3 weeks' short course in Agriculture is likely to be held in Milton during the month of January. Already fifteen young men of the district have indicated their intention of attending, and indications point to a worth while attendance. No decision has as yet been made with regard to a course in Home Economics for Junior Homemakers. If a sufficient number of young ladies are available, the local Department is prepared to make necessary arrangements.

It is now six years since Short Courses in Agriculture and Home Economics have been held in Halton, and eight years since the last courses were held in Milton. While labour is still very short on Halton farms, it would seem wise to again make these courses available to rural young people, many of whom found it necessary to discontinue their schooling in order to help out in the production of needed foodstuffs during the war years.

We understand from Mr. Whitelock that he is planning to adjust the hours of the Short Courses, so that the young people will still be able to assist with the morning and evening chores. Those interested would be well advised to contact the Department office in Milton at once, in order that plans may be completed to ensure the renewal of this worthwhile activity which has been of benefit to many hundreds of Halton young people who attended these annual short courses in pre-war years.

NORVAL JUNIOR FARMER RALLY

Dr. G. E. Reaman, of the English Department, O. A. C. Guelph, in an excellent address to a large gathering of Halton and Peel County Junior Farmers recently suggested as future guide posts for a better world, the following "four horsemen": science, common sense and experience, hope and a philosophy of life. The subject developed as a parallelism to the book "The Four Horsemen of the Apocalypse".

He stressed the controlling position which science has acquired in our modern world and how we must harness it to make it beneficial. "After all common sense is the best psychology to follow in life", he said, and it follows that experience develops from the use of it. Hope for the future is a must, he pointed out, as is a belief in the abilities of the individual, a belief in other people and a belief in God. The latter applied nationally would make for world peace and security, he said.

Mr. J. E. Whitelock, Agricultural Representative, introduced the guest speaker of the evening.

The meeting which was held in Norval Parish Hall, was a special rally, and other county and neighbouring clubs were invited to share in the benefits of the evening. Douglas Currie, president of the Norval Juniors, was chairman for the program, which opened with a sing-song led by John Bird.

Members of the Georgetown Girls' Pipe Band, attractive in their kilts, gave several pipe selections, and danced. Miss Isabel Archdekin, Streetsville, and Miss Grace Beerman, Georgetown, were soloists. Mr. Joe Lyons, Streetsville, added his valued talent in following the address of the evening. Lunch was served, and the remainder of the evening was spent in dancing.

Plenty of OPPORTUNITIES

Do you want to get ahead? Look around you... the pulp and paper industry offers plenty of opportunities and believes in promotion from the ranks. A broke hustler became president of one company, a former reel boy is president of another.

Men who started as labourers are today general superintendents, mill managers, department superintendents, woodland resident managers, chief clerks, and so on.

Wet machine operators, woodchippers, grinders, oilers, firemen, 4th and 5th hands on paper machines, sulphur burners, and core cutters are now superintendents. These are but a few of the instances which show that the industry offers full scope for initiative and energy.

Study your job. Put on your thinking cap! Promotion awaits you in a growing industry.
