

RAPID RECONVERSION: Where weapons of war were being forged two short months ago, workmen at Ogden Shops in Calgary now are repairing powerful Canadian Pacific locomotives. The gigantic crane, largest in Canada, is seen lifting the first engine to enter the shops since 1943, even while huge machines used for the manufacture of naval rifles and artillery were being loaded onto flatcars for shipment in the lower picture. The C.P.R. repair plant will soon be back on its pre-war schedule of turning out 28 engines each month, after setting up a record of producing munitions worth \$25,544,880 during the past year and a half.

HALTON HOG PRODUCERS CONSIDER PROPOSED SCHEME

A meeting in the interest of the Ontario Hog Producers' Marketing Scheme was held in the Princess Theatre, Milton, on Thursday evening of last week. This scheme is proposed by the Ontario Hog Producers' Ass'n for the marketing of hogs produced in Ontario. At the suggestion of Col. The Hon. T. L. Kennedy, Ontario Minister of Agriculture, the proposed scheme is being submitted to Ontario hog producers for approval or rejection as the case may be. If a sufficient percentage of Ontario hog producers express approval of the scheme, it will then be passed under the Ontario Farm Products Act.

Some 200 Halton hog producers attended the meeting referred to above. Mr. Paul Fisher, president of the Halton Federation of Agriculture, was the chief speaker and in his comprehensive and interesting address dealt with Marketing Schemes in general. It was pointed out by the speaker that to date twelve other schemes were now in effect under the Ontario Farm Products Control Act and all of these had proved beneficial to the producer and he expressed the opinion that given good leadership, similar benefits would be gained by Ontario hogmen.

Others who spoke briefly included Messrs. Percy Merry of Hornby, and Bruce Reid, local directors of the Halton Hog Producers' Committee. It was announced at the meeting that Agricultural Representative J. E. Whitehead had been appointed as registrar for Halton Hog Producers and deputy returning officer for the Ontario Farm Products Control Board in the taking of the vote. It was further announced that any Halton farmer who owns one or more hogs had the opportunity of registering at the Department office in Milton any time up to and including Tuesday, Nov. 27. Balloting may be done in person or by mail and is now in progress but the final date for balloting is Saturday, Dec. 8th.

PLANNING for EXPANSION OF RURAL TELEPHONE SERVICE

To keep step with farm progress and to extend service to more farm families, the telephone industry is working on important new devices and methods.

Plans are already under way for resuming the rural telephone expansion program suspended in 1940, when equipment and material became urgently needed for the armed forces. Surveys are being made to determine the needs and to provide the facts for carrying out plans to expand farm telephone service.

The goal is to bring the telephone to the greatest possible number of farm families.

UPHOLSTERING

For excellent workmanship and service in re-upholstering and re-designing of your Chesterfield Suite

PHONE IS FOR ESTIMATE
(Calls taken until 11 p.m.)
We also take orders for new upholstered furniture in latest designs.

CARD OF THANKS

The cigarettes and parcels sent to me by friends and organizations in Georgetown while I was serving overseas were sincerely appreciated.—Tpr. Ray Harley.

SAVING CANADIAN FORESTS

The Canadian Forestry Association recently advocated a programme to develop and maintain one of Canada's greatest natural resources—its forests. The Association suggested that this

can be done in the following ways:

1. Forest management;
2. Forest surveys and inventories;
3. Protection of forests from fires, insects and fungi;
4. Forest research;
5. Forestry education;
6. Reforestation;
7. Prairie tree planting;
8. Colonization;
9. Farm

10. Recreation forests;
 11. Municipal forests;
 12. Forest legislation
- Such a programme, according to the Canadian Forestry Association, can do much to increase the value and permanence of the Dominion's forest resources.

CANADA UNLIMITED - *The Formative Years*

Lawn Social of the 1840's—by Jack Martin O.S.A., C.P.E.

The Gracious Sociability of the Past

IT IS NOT LONG—not greatly beyond living memory—that the idea of responsible government took root in the fabric of this forming nation.

Look back through the swiftly turning years. Picture the lawn social of the middle 1840's, years when restless minds and burning energies were forming the mould of a "Canada Unlimited" . . . Milady voluminously gowned, is still mildly

shocked at the idea that the governor should bow to the wishes of an elected assembly. Her top-hatted consort, too, is probably vaguely troubled at this new notion of freedom. Nonetheless, it is the spirit of the time.

A pioneer land is getting ready to become a Nation. Men of enterprise like Eugene O'Keefe are laying the cornerstones of ventures yet to grow great. There's an awakening realization of latent power. Canadians are seeing a vision—of a Canada Unlimited.

These hundred years have justified that vision! Through prosperity, through adversity, through smiling years of peace and troubled years of war a Canada Unlimited has emerged. And the next hundred? The will is there. The men and women, the power and the resources are there to make a greater land than was ever dreamed of.

And to each of us in this year of grace comes an opportunity to re-affirm our faith in the future by our purchase and holding of Victory Bonds and War Savings Certificates.

Canada Unlimited

1846
One of a series depicting the growth of Canada as a nation, produced by O'Keefe's on the occasion of their 100th anniversary.
1946
