

Change of Ownership

The flour and feed business on the Guelph Highway operated by

WILLIAM BRYDON
AS THE

Georgetown Feed Mill

has been sold to

Russell and Cecil Upshall

taking effect as of Tuesday, Jan. 1st, 1946

The business will be conducted by the Upshall brothers under the old name, and offers the same line of produce as was handled by the previous owner

Mr. Brydon takes this opportunity to thank his customers for their business and hopes they will extend the same courtesies to the new management who were well-known farmers in the Brampton district.

YOUNG STAGE AND SCREEN STAR WHO IS A POPULAR OVERSEAS PROGRAMMES BROADCASTER IN BBC

Dulcie Gray, well-known young stage and film actress, has been heard in many British Broadcasting Corporation programmes, principally in the BBC Overseas popular daily program "Front Line Family," which features episodes in the everyday life of an ordinary English family. She also took the part of Mary in the broadcast serial "Dr. Thorne," and of Fanny in "Franklin Parsonage."

Dulcie Gray came to England from Malaya in 1937, with only ten pounds in her pocket. Soon after, she was left a third of an eighty-fourth share in a great-aunt's will. With this money she started a course in dramatic training, eking out her living by taking a dog out for walks for 5 shillings a week, teaching English to an Italian girl, painting pictures, and being painted herself.

While at the dramatic school she met the young actor Michael Denison and they were married in 1939. Together they went to Aberdeen where, until the outbreak of war when her husband joined up, they played juvenile leads with Stewart Granger, the film star and his wife. Until February, 1941, when she joined "Front Line Family," Dulcie Gray played leads in repertory shows. On leaving the cast of "Front Line Family," after 395 performances, she acted in Robert Atkin's Shakespeare productions in Regent's Park. She then played in Emily Williams' production of "The Little Foxes" and in "Brighton Rock." She has now signed a contract with Gainsborough Pictures Ltd. and has already made two films, "They Were Sisters" and "Wanted for Murder."

POST WAR PRODUCTS

There's a hint of what 1946 will have to offer, in the new merchandise which is beginning to appear in Georgetown stores. Refrigerators, washing machines and radios are promised for the near future—the new automobiles will be put soon—clothing supplies should soon be more plentiful.

Remember that your local merchants are always ready to serve you and will have these new products for sale as soon as they are available.

Mrs. L. Ellis

C. G. I. T.—Mrs. C. S. Jeffery.

Mission Band Superintendent—Mrs. A. Speight.

Baby Band Superintendent—Mrs. H. Clarke.

FILIAL GREETINGS EXCHANGED

A unique exchange of comradeship greetings took place during the recent holiday season between Georgetown Branch 120, Canadian Legion and its fellow branch in New York City. A Christmas card was sent from the local branch to New York (U.S.A. No. 120) Post, and the following letter was received in reply:

Dear Comrades:

It is with pleasure that we acknowledge receipt of your Christmas greetings.

Our "Post 120" being located in the U.S.A., we do at times feel quite detached from the Canadian Legion branches in Canada and it is with a feeling of friendly neighbourliness that your card was received.

If we can be of service to you thru being located in New York City, please do not hesitate to let us hear from you.

Wishing you a happy new year,

H. H. Foote,

Adjutant

Heating Is No Problem

If your furnace is in good repair a few dollars spent now can give you more heat at less cost. Our good stock of furnace parts ensures prompt and speedy service. Place your order now for a new furnace—they will be available for immediate installation soon after the New Year.

AN EARLY START

REALLY PAYS!

ORE and more we are convinced that the poultry raiser who starts his "main crop" of chicks in January or February is the one who clears the most money.

January and February-hatched pullets come into lay just as egg prices begin to go up. They are in full lay right through the highest prices of the year. They reach full production of A-Large size just when premiums for size are widest. And early cockerels should be ready for market when demand and prices are strongest.

With the fall British egg contract prices already set at the same level as last fall, this looks like an extra-good year to start extra-good chicks extra-early.

"The Bray Chick Does the Trick"

Bray Hatcheries are ready, right now, to supply you with those extra-good chicks. In fact, we can even supply a limited number of started chicks. BRAY CHICKS have many years of careful selection for both meat and eggs behind them, and consistent care in pulletum testing, egg selection, and incubation. Before you choose your chicks, ask for our catalogue and price list; and remember, the scramble for shipping dates is already on!

Making it easier for more farmers to have TELEPHONES

Just as soon as materials become available, we will extend telephone lines along public roads where there is one applicant for service per half mile. The applicant will pay no construction costs. Furthermore, there will be no charge for the first 750 feet of pole line on his own property; a nominal non-recurring charge of \$5.00 per 250 feet will be made beyond that point. This notable reduction in construction charges to new subscribers will help bring nearer our goal of making telephone service available to the greatest possible number of farm families.
