

## CUSTOMERS' Suggestions CORNER

For Rural Telephone Service

### ONE CUSTOMER WRITES:

"I've seen systems that will prevent our neighbours discussing of great length their troubles with chocolate pie fillings, turned cabbage, etc."

We're afraid there is no "system" that will keep people from following the age-old custom of chatting with their neighbours.

But we all know how crowded rural lines are right now and we do urge you to keep those friendly telephone "visits" down to a minimum. It will help to improve telephone service all-round.

## As We See It

by J. A. Strang

The regular schedule of the National Hockey League, which was completed on March 17th was a remarkable year in Pro. hockey. The attendance at the games was the largest ever all around the circuit. The race was much closer than usual and it is interesting to compare the team standings with that of last year.

The Montreal Canadiens won the honours for the third time in succession, but they didn't have the lead that they had other years. In 1944 they finished first with 83 points, in 1945 with 80 and this season they again led with 61 points. They were ahead of the second team in 1944 by 26 points, in 1945 by 13 points and this year by only 5 points. Turning to the other extreme in the standing we find that the New York Rangers were as consistent as was Montreal. The Rangers were at the foot of the class in all the last three years. In 1944 they had a total of 17 points, in 1945 the total was 32 points and this year they again were at the bottom with 35 points.

The Toronto Maple Leafs proved to be a disappointment this season. You will remember that they won the Stanley Cup last season and were expected to head the League in the regular schedule this year but they failed badly and finished the season out of the play-offs, for the first time since the Gardens was built.

In 1944 the Leafs finished third with 60 points, in 1945 their standing was again third with 52 points while this year they finished in fifth place with 45 points. It is interesting to notice that in 1945 they were in third place with only 28 points behind the top team while this year they were down to fifth place yet only 16 points behind the top team.

Another notable feature of this season's games was the return of so many players from service overseas. All of the teams took back several former players and most of them made good. Some seemed to be slow in hitting their former stride while others fitted right in over-night. Again this season a good many older players checked out of the high time and several more will not be in the line-up when another season has rolled around. Many of the retiring pro players go back to their former ways of making a living while some take on coaching jobs, others may try for the job of becoming refer-

ees. The teams in the N.H.L. deserve credit for the way they gave their former players, returning from active service, every opportunity to again make good in Pro Hockey. It really has been an interesting season and we expect that the standing of some of the teams will be quite different another year.

Watson's and Miss R. Evans' classes. Mr. Clifford Taylor read the Scripture lesson. Mr. Porter took as his sermon theme, "The boy Jesus in the home." He pointed out how we today may increase in wisdom and stature and in favour with God and man.

## CANADA UNLIMITED - The Formative Years

The Telephone—by Jack Martin, O.S.A., C.P.E.

## The Wonder of the Age

YOU CRANKED A HANDLE and put a little gadget to your ear and listened—then lo and behold! A voice spoke to you!

That was the telephone of the '80's, given to the world by the labours of Alexander Graham Bell in his Brantford workshop. But to the rural women of the day, it was more than miraculous. It was deliverance from the bleak isolation

that they had thought would always be the lot of a farmer's family.

No longer in times of sickness would children have to suffer and perhaps die for the want of prompt medical attention or advice. No longer would the dawn to dusk toil of women be unrelieved by the sound of a friendly voice.

In the cities, businessmen were quick to make use of this new means of communication. In rural areas the telephone was among the first of many inventions that were to bring the comforts and conveniences of urban life to the farmhouses of Canada.

Thus, the telephone was a great unifying element that brought Canadians together to work side by side for the common good: It fostered the co-operation that was the foundation of the national spirit of the pioneers and which, in the future, can and will be the inspiration for the greater development of a Canada Unlimited.

Today in our purchase and holding of Victory Bonds and War Savings Certificates, we have another unifying element with which to build a shining future for our nation.
