-Norval Lacrosse Club will meet for practice and organization on Wednes-day, April 10th at 8 o'clock at the clubhouse. Any juvenile and interme-diate players interested will be made welcome.

BALLINAFAD

Ballinafad Farm Forum members journeyed to Hillsburg Friday night, March 29, where they met members of the other four Erin Township for-ums. Tables were set in the basement of the Hillsburg Disciple Church and over 100 sat down to a delicious chick-en supper.
Mr. Steve Stothers, secretary Well-ington County Agricultural Committee, was chairman for the evening. Mr. Clare Burt, with Mrs. Graham at the piano led in a sing-song followed by a good program of readings and piano solos.
Professor Raymond from the OAC. gave an interesting address. The group was also entertained with moving pic-tures from the National Film Board.

GLEN WILLIAMS

Mrs. R. E. English has returned home after spending the winter in Lake Worth, Florida.

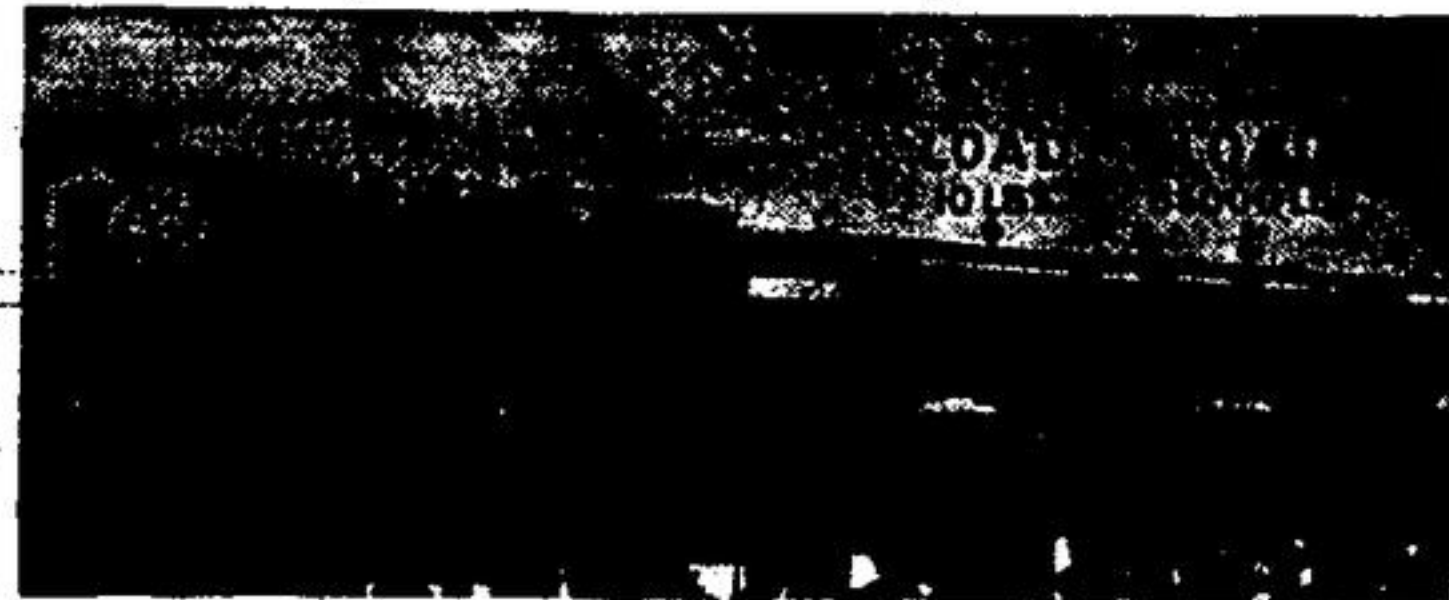

ELMER'S THREE STARS

OWEN SOUND AT GEORGETOWN - PLAYED IN GALT, MAR. 23
Owen again goalie Lorne Evans takes all the bouquets and let star for one of his grand games. Owen Sound's smooth passing and fast skating team had a large majority of the territorial play but could only push 3 goals past Evans. He was a Rock of Gibraltar and really sensational.
This 2nd star goes to Dolson, the smooth centre on Owen Sound's first line. He scored one goal, got one as-sist and set up several plays that would have been goals under ordinary circumstances.
The 3rd star goes to Beaumont of Georgetown. He skated more miles than any other man on the ice and many times was checking two men. His fore-checking was a treat to watch. He also scored one goal.
Honorable mention should go to the balance of the Georgetown team. They all worked hard and gave all they had. The defense was very steady and made few mistakes.
So they are ready for Preston. If they can take Owen Sound, they can take Preston. Yes, folks, we have a hard playing team to cheer on to the Intermediate B. Championship.

LEGION NOTES

A special meeting was held on Sun-day, March 24th, to formulate the de-sire of the Branch as to Renovation of the present premises.
Some ideas were advanced that to renovate would be time-wasting, and a very short-sighted policy. The meet-ing, however, was practically unani-mous for re-conversion of the present building.
Two committees were chosen, one to act as a Building Committee and the other as a Ways and Means or Finance Group in the same connec-tion.
Veterans are advised to inform DVA of any changes in address after dis-charge, in order to speed their dental treatment as well as facilitate other administration.

NOW THE LID IS OFF

EARLY in the war, a shipment of seven carloads was sent from the Canadian Car Munitions, Montreal, to the Western Cartridge Company, East Alton, Ill., by Canadian National Express. To all who saw the seven trains pass by, there was nothing unusual about them. Yet, high-ranking officers, the only C.N. Express men who knew what the contents were, couldn't sleep until each car had reached its destination. Until now it was a secret. It was dry lead aside - the most dangerous ship-ment ever handled by the Canadian National Express. The explosive, of which few persons have heard, is more potent than nitro-glycerine and five times as sensitive as TNT. A small one-and-a-half-inch shellac-coated, papier-mache tube five inches long containing eight ounces of aside was set in a sunflower-shaped Centre of sponge rubber and placed in an eight inch square wooden box, with cotton wadding, sponge rubber and felt-insulation. The wooden box was then set in the centre of a quarter-inch-thick steel case twenty inches square, cushioned with dry sawdust between layers of sponge rubber. The lid of the steel box was securely held by ten bolts and had two grab-iron handles for carrying. The total shipment of 70 pounds was enough for 200,000 25-pounder shells. The photograph shows the engine and two express cars of one of the trains crossing a bridge. The first car carries ten pounds of dry lead aside and the second a capacity load of 85,000 pounds of ordinary mer-chandise. The drawing indicates how the twenty cases, each containing eight ounces of the explosive, were placed and bolted to the floor of the car. This was the first and only shipment of dry lead aside by rail known. It is normally manufactured at the munitions plants where the shells are made. In this instance, had not the Canadian National Express handled the shipment, the production of shells would have been delayed for months.

ASHGROVE

The entire and old-time dance sponsored by the Women's Institute last Friday night in the school house was a decided success. Twenty tables of couples were played and some crock-ets. Winners for couples were Mrs. Clayton Dick and Mr. Claude Pickett and for crockets, Mr. W. O. Brown-ridge and Miss Jessie Alexander. The committee composed of Mrs. Frank Riddell, Mrs. Leslie Giffen and Mrs. W. Brownridge certainly deserve credit for everything going so well. Lunch and dancing closed this delightful evening.
Birthday greetings to Allan Brown-ridge who celebrated his fifth birthday on April 3rd and also to Mrs. Young of the eighth line who will be ninety four on April 11th.
Mrs. Stanley Gowland visited Mr. and Mrs. William McClure of Brampton over the week-end.
Miss Beulah Graham of the All Peo-ple's Mission in Hamilton will be the guest speaker at the Easter Thank-Offering of the W.M.S. in the church next Tuesday afternoon.

GEORGETOWN AT PRESTON, APR. 1

Thank goodness, that is over. Geor-getown team got one of their bad games out of their system. (We hope).
This Preston team had a great rep-utation but they are not to be com-pared with Owen Sound.
On the night's play they deserved to win but the Georgetown team as a whole gave a great exhibition of how not to play hockey. All the Preston goals were scored in scrambles around the net which meant the defensive play and the back checking of the for-wards on the Georgetown team was very conspicuous by its absence.
We commend the coach and management of the Red Shirts for their capable handling of the team throughout the season. In the Owen Sound series the coaching was of big league calibre. But in the Preston game we can't say so much for the man-agement. One question is: Why not use Kemshead more? He is too capable a player to only be playing about 10 minutes a game.
Our 3 stars for this game go to No. 5 and No. 9 of the Preston team and Beaumont of the Georgetown team. This was a hard game to pick stars as the game was so scramble but we stand with the selection above.
So come on Georgetown. Preston is just another team. Let's see you carry on to the championship.

Many Thanks

To Art Speight, Ken McMillan and the Board of Trade for making possible an all expense trip to Owen Sound for the recent hockey game. Also to the kind-hearted citizens who gave such generous private dona-tions to defray expenses of the trip.
On behalf of the Girls Pipe Band and myself, I again say—thank you.
