**WHO HAS ALL THE MONEY HE WANTS?**

Joe Green is a steady worker with a steady job. He has always met his bills. But now, because of sickness, he suddenly finds he is short of ready cash... tomorrow he will go to his bank and arrange a Personal Loan.

You may find yourself in the same position as Joe Green. Anybody may! Personal loans through your bank make it possible for you to anticipate future earnings. This is an essential part of its services.

Such loans may be obtained to meet financial needs of many kinds; to lay in ahead a winter's supply of coal, to pay municipal or other taxes in time to earn the discount, to provide for home repairs, to send a boy or girl to college, to consolidate debts—indeed for any sound reason.

Bank credit runs through all personal life and commercial life. It operates silently and unobtrusively. You take it for granted. That is the way Canadian banking works.

**WORLD FOOD EMERGENCY**

Starvation threatens in the Far East and hunger in Europe. We are sending food. We must send more. The need is now—until harvest!

**We must help feed a hungry world**

A serious shortage of food in certain areas of the world was expected, but crop failures in many areas, and lack of distribution facilities, seeds, and tools in others created a food shortage of alarming proportions. Only immediate deliveries of staple foods can sustain the hungry millions.

**PRODUCE AND SAVE — MORE**

Since 1939, our per capita record of food exports has exceeded that of any other country. Food production has soared. Canadians have eaten well in spite of war. Today, the seriousness of the world's food situation calls for even greater efforts. We can increase our food shipments and still have enough for our needs.

**THIS IS WHAT WE CAN DO**

We can ship more WHEAT, FLOUR, MEATS, CHEESE, and EGGS if as great quantities as possible are made available for shipment during the next four months.

PRODUCERS! — DELIVER TO MARKET.  
CONSUMERS! — BUY LESS OF THESE FOODS — BUY ONLY FOR IMMEDIATE NEEDS—WASTE NOTHING—PLANT A GARDEN—SUBSTITUTE VEGETABLES FOR AS MANY OF THESE VITAL FOODS AS YOU CAN.

This will increase supplies at storage depots, thus freeing additional needed foods for the world's hungry. There can be no permanent prosperity for us... of anyone... while hunger and despair afflict large areas of the world.

**Share with the hungry!**
