**SCHOOL PUPILS OF HALTON
 GUESTS OF COUNTY COUNCIL**

Annual Visit of Fifty-five Boys and Girls Have Banquet, Tour of County Buildings and Hear Addresses — Reports Given on High School Areas in County—Prizes for Essays Offered to Pupils on Visit.

Fifty-five boys and girls, entrance class pupils from school throughout the county, were guests of the Halton County Council in regular session at Milton.

Before the business of the day got underway, the children were welcomed by the Warden, Reeve C. H. Hillmer of Oakville and also by members of the Council who were introduced to the children one by one.

At noon the students were entertained at a splendid luncheon at St. Paul's Church Sunday School Rooms for which members of the Mountain Union Women's Institute were responsible. A short program followed at which Mr. L. Skuce, P.S.I., was the guest speaker. The topic of his address was "Success" and he took each of the seven letters in the word "success" to illustrate characteristics necessary towards successful living. It was a most inspiring address and was listened to intently by students and adults alike. Mrs. Mary Pettit, in her usual apt and humorous way, moved a vote of thanks to the guest speaker, Reeve Chas. Kirkness, A.C., expressed the appreciation of the Council and their guests, to the ladies of the Mountain Union W.I. for the sumptuous and appetizing meal which they had served and to which, Mr. Kirkness noted, everyone present had done full justice. He also thanked young Joe Nova for the delightful selections he had given them on his piano-accompanied. Mr. Kirkness told Joe "he thought he had a grand future ahead of him."

At 2 p.m. Council resumed and Committee reports were considered in Committee of the Whole with Reeve Kirkness in the chair. While this business was in progress the boys and girls were on a tour of inspection of the county buildings with Mr. Smith and Miss Maxted in charge. They visited the goal yards, the registry office, office of the Provincial police and the work of each department was explained to them as they went along.

Later in the afternoon with the students again assembled in the Court Room, His Honour, Judge Munro addressed the youngsters, explaining to them the various forms which the Administration of Justice takes, as it concerns the Civil Law of the County.

Crown Attorney W. I. Dick, also addressed the students, and he explained to them the law as it applies to the Criminal Court. He enlightened them as to the why and wherefore of finger-printing and the way in which criminals were apprehended and tried. It was quite obvious the children followed the talks given by both officials with the closest interest.

Business dealt with by the Council was as follows:
 Special Communications: Copies of resolutions were read from the Township of Trafalgar, the Township of Nelson, and the Town of Oakville, all of which requested the establishment of a new High School area. Reeve Craig said "Burlington had not yet sent in their request but he was confident that they would be doing so. Members of the committee appointed to look after the northern end of the County had no report ready but announced a meeting was being held in the near future. However, a letter from the Milton Board of Trade protesting suggestion of a school being built at Speyside and requested the County Council to consider placing the school in the Town of Milton instead. The letter was filed.

Accounts recommended for payment by the Finance Committee and passed by Council were as follows:
 Finance \$2,849.82
 Education 232.41
 Printing 364.95
 County Buildings 2,875.36
 Hospital Accounts 495.05
 County Roads 24,342.03

Moved by Heslop and Crawford, that the following grants be made: Halton Junior Farmers, \$62.50; Halton Junior Homemakers, \$62.50; Halton Ploughmen's Association, \$150.00. — Carried.

Moved by Craig and Kirkness that this council offer the following prizes for the best essay submitted by any pupil attending to-day under the title "My Visit to the County Council." Essay to be not more than 300 words and to be sent to the County Clerk not later than May 31. Ten prizes to be awarded ranging from \$10 down to \$1.—Carried.

A movement is underway to inter-est various counties in soil erosion problems and Halton was invited to send delegates to a convention to be held in Ohio. The only member of the council who felt free to go was Deputy-Reeve Hall of Trafalgar. It was therefore agreed that he attend the convention as a delegate for the council, all expenses to be paid by the council.

**B.D. DEGREE FOR
 REV. ARTHUR DAYFOOT**

Friends of Rev. Arthur C. Dayfoot of Chengtu, West China, will be interested to know that at the recent closing exercises of Emmanuel College, Toronto, announcement was made that he had been admitted to the degree of Bachelor of Divinity, and awarded the Sanford Gold Medal in Divinity. The thesis upon the merits of which these awards were based, was written by Mr. Dayfoot while en route to China in 1945, during the months of delay in South Africa and India, while awaiting the lifting of military restrictions against entry of civilians into China, which occurred a few weeks before V. J. Day. His parents, Mr. and Mrs. C. B. Dayfoot who now live in Victoria, B.C. report that they hear from him regularly every few weeks and that he is well and still busy in acquiring the Chinese language.

"The next place I live in is going to have..."

Many an over-expanded household has endured the "bathroom problem", but lack of ADEQUATE ELECTRIC WIRING is a more subtle irritation. Having to move the chesterfield to plug in the vacuum cleaner, for instance, just because the only wall outlet is back there... with all the lamps and the radio hooked up to it. And then there is the new range or water heater you would like to have if the main wiring would only stand the strain. That is where the real rub comes... when you can't use some new electrical convenience until new wiring is installed for it.

Many homes are not wired for modern demands. As more appliances become available, the use of electricity keeps right on climbing, and makeshift wiring adjustments lead to trouble.

That is why it is so necessary for you to insist on adequate wiring for your home, be it old or new. Hydro rates have been reduced until they are now among the lowest in the world. Enjoy full benefit of low-cost electrical servants by having your home adequately wired. A good electrical contractor knows how to wire adequately, and your local Hydro will gladly give you information.

If you are improving or building a home, ask your Hydro for the booklet, "Adequate Wiring for the Postwar Electric Homes of Canada."
