J. B. MACKENZIE & SON WILL ERECT MILL STREET BUSINESS BLOCK

First major addition to the business buildings in Georgetown for some years, will be that which J. B. Mackenzie & Son will erect on Mill Street beside the Gregory Theatre.

Excavating was started this week and draws many interested spectators on their way to and from the Post Office. The building will be of brick construction, with forty foot frontage by a depth of 100 feet.

The basement will be a modern bowling alley, with Al Norton renting the premises for this purpose, and there will be two stores on the main floor. Five apartments will be upstairs. It is hoped to have the lower part of the building ready for use in October, but inability to secure certain materials may delay completion of the apartments till next year.

The property was purchased by the Mackenzie firm four or five years ago. Last occupants of the old vacant house which has been wrecked were Mr. and Mrs. E. M. Reid and family. The new building will be a decided addition to the business life of Georgetown and will help to fill the need for more retail store space and apartments which is greatly in evidence.

When is a long distance call necessary?

You are the best judge. We think every call is important. That's why we try our best to put it through quickly.

But more people are making more Long Distance calls than ever before—even more now than in the war years.

We are building new equipment and getting it into service as fast as we can. But right now there's often more traffic than we can take care of the way we'd like, and delays do occur.

We'd appreciate your help a little while longer. This summer, especially, please continue to ask yourself: "Is this Long Distance call necessary?"

WHEN YOU PLACE a Long Distance Call...

FIRST, give the operator the name of the distant city...

THEN, the telephone number of your party...

THEN, when the operator asks it, your own telephone number.

If you don't know the distant telephone number, please make a note of it for future use when you hear the operator repeat it.

CANADA UNLIMITED - The Formative Years

Review of North West Mounted Police Coronation Contingent by Sir Wilfrid Laurier in 1911. by Jack Elmer.

The Silent Force

IN THE YEAR 1873, the Canadian West was a vast, little-known territory and its administration appeared to be an almost insuperable task. Uncertain communications with Eastern Canada complicated the many problems of law enforcement and control.

Faced with this almost impossible situation Prime Minister Sir John A. MacDonald displayed a vision, faith and purpose incredible even today. A

small group of 300 handpicked men was formed and to it was entrusted the enormous task of bringing law and order to this unsettled tract of 300,000 square miles in accordance with his high ideals and great purpose. How this little band of men justified his faith and vision is one of the proudest records in Canadian history.

Thus was born "The Silent Force"—a gallant body of men who formed the first of Canada's famous North West Mounted Police. It was due to their courage, determination and strength of purpose Canada's great North West was made safe for settlement. The fame

of the North West Mounted Police spread throughout the world. Even their enemies knew that they could rely on the word of a "Mountie", and their operations formed a pattern of law enforcement everywhere.

In 1911, as a recognition of their services to the nation, they were chosen to represent Canada at the Coronation of George V. They were the "Silent Force", a gallant band of men whose faith and high purpose helped to lay the foundations of the Canada of today.

Today, every one of us can help to lay the foundations of the Canada Unlimited of tomorrow. The Victory Bonds we hold are a silent force for national progress.
