—Our Terra Cotta correspondent, R. J. Stringer supplied us with a post card last week which showed the daddy of them all with the caption "There are plenty of big fish at Terra Cotta." Some of the passers-by who viewed it in the Herald window seemed to be skeptical and maybe someone will be out to have R. J. prove it.

—It is of interest to know the important part that the Bell Telephone Co. played in the transmission of the radio program from the park to England on Dominion Day. The program was relayed through the local phone office to Hornby, thence to Toronto and through the CBC radio station was short-waved to England.

GEORGETOWN STUDENTS SUCCESSFUL IN U. OF T. EXAMS

Several Georgetown students were successful in their examinations at the University of Toronto, the results of which were recently announced. Miss Joan Mallett, who attended high school here for a year while living with her parents in Lt.-Col. John R. Barber's house passed her third year in Household Economics. John Tapp, an army student in the third year general course was also successful. Among second year students who got their year were Michael Beer (Physics and Chemistry), Barbara Farnham, Beatrice Brill and Norma Cleave, while Shirley Tapp passed her first year general course and Margo Williams, first year honor science. The latter is a graduate nurse.

TERRA COTTA

The gentlemen from Toronto who recently purchased the Lyons property along the River Credit have erected a fine arch at the entrance and are busy making preparations for erecting the dance hall as everyone is waiting to "swing their partners on the corners off." They have also informed us that they intend in the near future having an opening and a banquet in the park. These Ukrainian gentlemen seem greatly enthused with their new lay-out at Terra Cotta and again we wish them the best of luck.

W. J. Rutledge had one of his cattle killed on the CNR here last week.

The Boy Scouts who have been camping here during the past week have left for their homes in Port Credit.

Mr. and Mrs. Phillipaki of Iowa, U.S.A. called on Terra Cotta friends last week. He has many reminiscences of Terra Cotta, having been a resident of this place some years ago.

The Aldous brothers of Windsor called on friends here last week and report that they just missed the twister there by one house. Close shave, boys! Terra Cotta is sure becoming a mecca for tourists as they pour in daily looking for summer cottages.

Mrs. R. Puckering is giving her residence a new coat of paint which will add considerably to its appearance. Summer visitors include Mr. and Mrs. Wallace and family of Toronto at their cottage; Mr. and Mrs. W. J. Vanderflit and family of Toronto at their summer home; Mr. and Mrs. Zimmerman and family of Niagara Falls, N.Y., at their farm on the Town Line.

Miss L. Loughton of Toronto, spent the week-end at her home here.

BUDD KNAPP

Both drama producers and radio actors think that the name Budd Knapp is synonymous with the best in professional radio acting. In Toronto since 1941, the Ottawa-born Knapp has starred in every kind of radio play from children's fantasies to "The Johnny Home Show" and "Stage 46," and it takes a keen ear to identify him in his diverse characterizations. Among Knapp's current roles is that of "Shorty" in the Monday night broadcasts of "Science a la Mode" on the CBC Dominion network at 10.30 p.m. EDT, 11.30 p.m. ADT.
