WITH THE ANGLERS

by G. H.

This week we received an interesting bulletin from the Ontario Federation of Anglers and Hunters and would like to reprint what it has to say:

"If you are a law-abiding Angler or Hunter, a lover of the Great Outdoors, an ardent admirer of your own countryside — your homeland; if you are a believer in perpetuating for this and future generations the wonderful natural benefits in Animal, Bird and Fish life, in Forests and Waters, and other appealing and indispensable resources that are inherently yours as a good citizen of Ontario; if you, Friend Angler, or you, Friend Hunter, feel you have an interest in such things, and we sincerely hope you have, we take this brief means of extending to you a whole-hearted welcome.

You will doubtless agree that if our Natural Resources (primarily in this case our Fish and Game) are to be conserved for the benefit of all, including those who will follow us, individual action, regional action and uncoordinated group action must be co-ordinated and fused into cooperative action. Thousands of us, most likely you yourself, go forth in proper season with rod or gun, to seek wholesome outdoor diversion, to find relief from the daily grind, to gain new energy that will fit us for the tasks ahead; but there is something of even deeper significance behind such forms of recreation—the time has come to consider seriously the fundamental economic factors which bear upon the relations of our Fish and Game to our material prosperity and well being.

Therefore we invite you to become a member of the Ontario Federation of Anglers and Hunters.

WHY? Fully for the purpose of assisting this organization to act for you and yours. We take it that you are a good sportsman, an observer of the Fish and Game laws, but buying a hunting or fishing license is not sufficient to entitle you to a medal for service to the interests of Fish and Game conservation. Something more is needed. You are needed by a provincial association that seeks your active or moral support in return for faithful service rendered to you and yours.

You know that wasteful practices exist in the taking of Fish and Game. Therefore, we ask you to do your bit, that you may assist in preserving these

LOANS TO FARMERS

You may borrow from us on special terms, under the Farm Improvement Loans Act, for the purchase of agricultural implements, live stock, electrical appliances or a farm electric system, or for the installation of hydro power. Similar loans are also made for fencing, drainage, construction of and repairs to buildings, the modernization of the farm home and other farm improvements. Ask us for the details.

wonderful resources and maintaining the benefits you derive from them. We invite you to join an honest, practical, energetic and well organized Federation — provincial in scope — the Ontario Federation of Anglers and Hunters."

ONTARIO PARENTS CAN TAKE THESE RECOGNIZED PRECAUTIONS AGAINST THE POSSIBLE THREAT OF POLIO

It is in August and September that poliomyelitis (polio) is most prevalent. During these last weeks of summer, thoughtful parents should observe every rule that will protect their little ones from this disease.

In our Province, comparatively few cases of polio have occurred as yet but in some sections of the United States, infantile paralysis—as it is more commonly called—has reached epidemic proportions. The Ontario Department of Health

therefore urges every family to keep in step with the common-sense precautions outlined below. Read them carefully. Encourage your children to practice them daily. Guard your family's health during this particular period of the year!

SIX SIMPLE PRECAUTIONS:

1. Peel or scrub all raw fruit and vegetables before serving.
2. Protect all food from flies.
3. Teach your children to avoid crowded beaches and pools and swimming in dirty water.
4. Avoid over-fatigue and if possible have your children rest for two hours each afternoon.
5. Prevent your child from suffering sudden chills or exposing themselves to too much sun.
6. Make sure your children wash their hands before eating.

If your child is ill do not hesitate to seek medical advice
