MAIN STREET TEL. 280

**If the Mash is Right It Shou'd be Fed 50 - 50**

Birds should lay approximately 70 per cent on equal parts of mash and scratch.

A laying mash that produces when fed on a 50-50 basis with scratch is worth \$6 to \$8 a ton more than one that must be fed 75 - 25. Mash costs more than scratch.

**CHECK THESE THREE POINTS:**

- Are your birds producing approximately 70%?
- Do you feed as much scratch as mash?
- Does your mash cost no more than \$53 a ton? (\$50 a ton when we refill your bags).

Can you say "yes" to all three questions? You can if you are feeding SHUR-GAIN LAYING MASH.

**WE OFFER:-**

- Complete feeds for hogs, poultry, cattle.
- A complete list of concentrates.
- Western grains.
- Custom chopping, rolling and mixing.

**Norval Supply**

**HARD TO BEAT - THIS BEATER BOSS!**

It was on his 18th birthday that Eddy Lazure first went to work for a Montreal paper-board mill. Today, after 28 years with the same company Eddy is a Beater Boss. Although he's had experience in many different jobs, Eddy has always made time to take a generous part in company activities. He's a member of the Safety Committee, treasurer of the Social Service Club, a leading organizer of the annual picnic, and vice-president of the local union. Eddy is proud of his fine family of five - two of his three boys are already rarin' to get started with their Dad's company!

"You ask me why I work in the Pulp and Paper Industry... the answer is easy. First, in all Canada, it is the industry that employs the largest number of men, and I figure this means I have a better chance for steady work. Second, I have always had fair treatment, and the wages paid are well above the average paid in Canada."

Edgar Lazure

**THE PULP AND PAPER INDUSTRY OF CANADA**
