When you make out a cheque, you give an order to your bank to pay the amount specified to the person named. If he lives on the next street, or thousands of miles away, he can take your cheque to his local bank and get the money. He cannot get it without a receipt—his signature on the back of the cheque. If yours is a Current Account, your cheque comes back at the end of the month, and so you have a permanent record and receipt of the payment. The enormous convenience of the chequing system is just one of the many services provided by your bank... for you.
